\*\*Insights into Sufism Ruth J.\*\*

Nicholls, Peter G. Riddell, 2020-07-31 Sufism has long constituted one of the most powerful drawcards to people embracing Islam This book considers a broad range of questions relating to Sufism including its history manifestations in various countries and communities its expression in poetry women and Sufism and expressions among popular spirituality In addition the volume challenges the long held view of Sufism as being necessarily peaceful through a consideration in one paper of Sufis engaging in violent Jihad The book works at the interface between the scholarly and the practical using rigorous methodology to ensure that its findings are reliable while also giving attention to how Sufi thinking impacts the daily lives of Sufis This represents an original and important dimension of this study given the significant role played by Sufis throughout Islamic history in enriching discussion of intellectual and charismatic questions as well as informing popular practice among Folk Muslims The Making of Modern Libya Ali Abdullatif Ahmida, 2011-03-23 The Making of Modern Libya is a thorough examination of the social cultural and historical background of modern Libya Ali Abdullatif Ahmida examines the reaction of the ordinary Libyan people to colonialism and nationalism from the early nineteenth century through the end of anticolonial resistance to the rise of the modern Libyan state in 1951 Weaving together insights drawn from Arabic French English and Italian sources he challenges Eurocentric theories of social change that ignore the internal dynamics of native social history Among other things he shows that Sufi Islam tribal military organization and oral traditions were crucial in the fight against colonialism The political and cultural legacy of the resistance has been powerful strengthening Libyan nationalism and leading to the revival of strong attachments to Islam The memory of this period has not yet faded and appreciation of this background is essential to understanding modern Libya This new edition also investigates Libya s postcolonial nationalist policies bringing the argument up to the present Sponsoring Sufism F. Muedini, 2015-07-15 Sponsoring Sufism argues that governments are sponsoring Sufism not only because they see it as an apolitical movement that won t challenge their existing authority but also that ties to Sufi orders gives them religious credibility something they Religion as Resistance Eileen Ryan, 2018-01-02 When Italian forces landed seek as they face the rise of Islamist parties on the shores of Libya in 1911 many in Italy hailed it as an opportunity to embrace a Catholic national identity through imperial expansion After decades of acrimony between an intransigent Church and the Italian state enthusiasm for the imperial adventure helped incorporate Catholic interests in a new era of mass politics Others among Italian imperialists military officers and civil administrators were more concerned with the challenges of governing a Muslim society one in which the Sufi brotherhood of the Sanusiyya seemed dominant Eileen Ryan illustrates what Italian imperialists thought would be the best methods to govern in Muslim North Africa and in turn highlights the contentious connection between religious and political authority in Italy Telling this story requires an unraveling of the history of the Sanusiyya During the fall of Qaddafi Libyan protestors took up the flag of the Libyan Kingdom of Idris al Sanusi signaling an opportunity to reexamine Libya s colonial past After decades of historiography discounting the influence of Sanusi elites in Libyan nationalism the end

of this regime opened up the possibility of reinterpreting the importance of religion resistance and Sanusi elites in Libya s colonial history Religion as Resistance provides new perspectives on the history of collaboration between the Italian state and Idris al Sanusi and questions the dichotomy between resistance and collaboration in the colonial world Bruce St John, 2015-05-15 Retaining the conceptual framework of the first edition through emphasis on the dual themes of continuity and change the second edition of Libya is revised and updated to include discussion of key developments since 2010 including The February 17 Revolution and the death of Muammar al Qaddafi The political process which evolved in the course of the February 17 Revolution and led to General National Congress elections in July 2012 Constitutional Assembly elections in February 2014 and House of Representative elections in June 2014 Post Qaddafi economic policy from the National Transitional Council through successive interim transitional governments Post Qaddafi foreign policy The on going process of drafting a new constitution which will be followed by the election of a Parliament and a President Providing a comprehensive overview of the Libyan uprising seen to be the exception to the Arab Spring and highlighting the issues facing contemporary Libya this book is an important text for students and scholars of History North Africa and the Middle East as well as the non specialist with an interest in current affairs Libya, a Country Study American University (Washington, D.C.). Foreign Area Studies, 1979 Muslim Brotherhoods in Nineteenth-Century Africa B. G. Martin, 2003-02-13 Professor Martin considers the social and political aspects of the revival of the Muslim brotherhoods or sufi in the nineteenth century This revival had as its main goal the defence of Islam and though it the sufi orders acquired great and indeed unprecedented political and social influence
