Christian Moevs

Sanza Mezzo:

Paradiso Dante Alighieri, 1961-12-31 An English translation of Dante's Divine Comedy , The Metaphysics of Dante's Comedy Christian Moevs, 2008-10-13 The recovery of Dante's metaphysics which are very different from our own is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy's claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante's poetics Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality the spatio-temporal world is in fact a creation or projection of conscious being Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy The Divine Vision of Dante's Paradiso William Franke, 2021-08-19 A bold study that reveals Dante's medieval vision of Scripture as theophany through pioneering use of contemporary theory and phenomenology *Dante and the Sciences of the Human* Matteo Pace, 2024-10-28 This edited collection explores Dante Alighieri's contribution to medical scientific and spiritual thought in medieval and early modern times The chapters address how Dante shaped an understanding of the human body and mind his relationship with medical and scientific thought in his literary and philosophical production and his legacy which continued into the following centuries Each chapter questions Dante's contribution to these issues from an interdisciplinary perspective thus putting medieval literatures in conversation with the history of medicine and science politics theology and philosophy Covering questions on the body soul matter politics and physics this valuable book presents an overview of Dante's relationship with medical thought and the medieval sciences

Seeing Through the Veil Suzanne Conklin Akbari, 2015-01-15 During the later Middle Ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision This shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion In *Seeing through the Veil* Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision After a survey on the genre of allegory and an overview of medieval optical theories Akbari delves into more detailed studies of several medieval literary works including the Roman de la Rose Dante's Vita Nuova Convivio and Commedia and Chaucer's dream visions and Canterbury Tales The final chapter Division and Darkness centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon *Seeing through the Veil* will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science **The Literary Works of Leonardo Da Vinci, Compiled and Edited from the Original Manuscripts** Jean Paul, 1883 *Dante Philomythes and*

Philosopher Patrick Boyde,1981 This book is devoted to a full and lucid exposition of Boyde's ideas In the first two parts the author presents a systematic account of the universe as Dante accepted it and explains the processes of creation and generation as they operate in the non human parts of the cosmos Dr Boyde then shows how the two processes combine in Dante's theory of human embryology and how this combination affects the issues of love choice and freedom The third and last part of the book consolidates these expository sections with a generous selection of quotations from Dante's authorities and from his own works in prose At the same time the book offers far more than a clear account of Dante's cosmology and anthropology Dr Boyde is interested in Dante's ideas in so far as they inspired and gave shape to the Divine Comedy Furthermore in every chapter he demonstrates how the relevant concepts and habits of thought were transmuted into imagery symbolism and dramatic scenes or simply transformed by the energy and concision of Dante's poetic style

Perception and Passion in Dante's Comedy Patrick Boyde,1993-09-16 A reading of the Comedy in the context of thirteenth century psychology and philosophy Leonardo Da Vinci Leonardo (da Vinci),1883 *The Notebooks of Leonardo da Vinci* Leonardo da Vinci,2012-07-12 Volume 1 of 2 volume set Total of 1 566 extracts includes writings on painting sculpture architecture anatomy mining inventions and music Dual Italian English texts with 186 plates plus over 500 additional drawings The Literary Works of L. Human Vices and Human Worth in Dante's Comedy Patrick Boyde,2006-06 Patrick Boyde brings Dante's thought and poetry into focus for the modern reader by restoring the Comedy to its intellectual and literary context in 1300 He begins by describing the authorities that Dante acknowledged in the field of ethics and the modes of thought he shared with the great thinkers of his time After giving a clear account of the differing approaches and ideals embodied in Aristotelian philosophy Christianity and courtly literature Boyde concentrates on the poetic representation of the most important vices and virtues in the Comedy He stresses the heterogeneity and originality of Dante's treatment and the challenges posed by his desire to harmonize these divergent value systems The book ends with a detailed case study of the vices and worth of Ulysses in which Boyde throws light on recent controversies by deliberately remaining within the framework of the thirteenth century assumptions methods and concepts explored in previous chapters
