A New Handbook of Rhetoric Michele Kennerly,2021-09-09 Like every discipline Rhetorical Studies relies on a

technical vocabulary to convey specialized concepts but few disciplines rely so deeply on a set of terms developed so long ago. Pathos, kairos, doxa, topos: these and others originate from the so-called classical world which has conferred on them excessive authority. Without jettisoning these rhetorical terms altogether, this handbook addresses critiques of their ongoing relevance, explanatory power, and exclusionary effects. *A New Handbook of Rhetoric* inverts the terms of classical rhetoric by applying to them the alpha privative, a prefix that expresses absence. Adding the prefix to more than a dozen of the most important terms in the field, the contributors to this volume build a new vocabulary for rhetorical inquiry. Essays on apathy, akairos, adoxa, and atopus, among others, explore long-standing disciplinary habits, reveal the denials and privileges inherent in traditional rhetorical inquiry, and theorize new problems and methods. Using this vocabulary in an analysis of current politics, media, and technology, the essays illuminate aspects of contemporary culture that traditional rhetorical theory often overlooks. Innovative and groundbreaking, *A New Handbook of Rhetoric* at once draws on and unsettles ancient Greek rhetorical terms, opening new avenues for studying values, norms, and phenomena often stymied by the tradition. In addition to the editor, the contributors include Caddie Alford, Benjamin Firgens, Cory Geraths, Anthony J. Irizarry, Mari Lee Mifsud, John Muckelbauer, Bess R. H. Myers, Damien Smith, Pfister Nathaniel A. Rivers, and Alessandra Von Burg.

The Woman and the Lyre Jane M. Snyder, 2017-03-09. Faint though the voices of the women of Greek and Roman antiquity may be, in some cases their sound, if we listen carefully enough, can fill many of the gaps and silences of women's past. From the beginning with Sappho in the seventh century B.C. and ending with Hypatia and Egeria in the fifth century A.D., Jane McIntosh Snyder listens carefully to the major women writers of classical Greece and Rome, piecing together the surviving fragments of their works into a coherent analysis that places them in their literary, historical, and intellectual contexts. While relying heavily on modern classical scholarship, Snyder refutes some of the arguments that implicitly deny the power of women's written words: the idea that women's experience is narrow or trivial and therefore automatically inferior as subject matter for literature; the notion that intensity in a woman is a sign of neurotic imbalance; and the assumption that women's work should be judged according to some externally imposed standard. The author studies the available fragments of Sappho, ranging from poems on mythological themes to traditional wedding songs and love poems, and demonstrates her considerable influence on Western thought and literature. An overview of all of the authors Snyder discusses shows that ancient women writers focused on such things as emotions, lovers, friendship, folk motifs, various aspects of daily living, children, and pets, in distinct contrast to their male contemporaries, who concern themselves with wars and politics. Straightforwardness and simplicity are common characteristics of the writers, Snyder examines. These women did not display allusion, indirection, punning, and elaborate rhetorical figures to the extent that many male writers of the ancient world did. Working with the sparse records available, Snyder strives to place these female writers in their proper place in our heritage.

of subjects Sappho's Legacy identifies the crucial role that islands and Greek economic culture play in teaching about capitalism's failures and alternatives Marina Karides delivers a historical and ethnographic account of food cooperatives and microenterprises on the Greek island of Lesbos following the 2008 financial crisis to reveal the success stories of grassroots traditional and community centered economics organized by people marginalized on the basis of gender sexuality and ethnicity Karides offers hope to others who are working against the tide of neoliberalism and heteropatriarchy to develop alternative or convivial economic practices that serve communities by providing a trail of rhythms from ancient times to the present that showcase Greece's historical resistance
