

The background of the book cover is a classical painting. It depicts a woman, likely a personification of a muse or a deity, standing on a rocky outcrop. She is shown from the back, wearing a flowing pinkish-red dress with a white shawl draped over her left shoulder. Her hair is golden and curly. She is playing a large, ornate lyre. The background of the painting shows a landscape with green hills, a body of water, and a small crescent moon in the sky.

Developments in the Histories of Sexualities Chris Mounsey,2013-04-11 Developments in the Histories of Sexualities In Search of the Normal 1600 1800 explores the oppositions created by the official exclusion of banned sexual practices and the resistance to that exclusion through widespread acceptance of those outlawed practices at an interpersonal level At different times and in different places state legislation sets up or tries to set up a normal by rejecting a particular practice or group of practices Yet this normal is derogated by popular practice since the banned acts themselves are thought at the grassroots level to be normal Among the events discussed in these essays are the Woods Pirie trial the Ladies of Llangollen the popular acceptance of fops and mollies and the press reaction to the discovery that James Allen was a woman who had lived successfully as a man and Lavinia Edwards was a man who had made her living as a female prostitute Developments in the History of Sexualities analyzes both the state language of bans and fiats about sexuality and the grassroots language which marks the acceptance of multiplicity in sexual practice Contributors benefit from the accumulation of new evidence of attitudes towards sexual practice and they engage with a wide range of texts including Ned Ward s History of the Clubs Tobias Smollett s Roderick Random Shakespeare s Taming of the Shrew and The Tempest Dryden s All for Love Anne Batten Crisall s Poetical Sketches Isaac de Benzerade s Iphis et Iante and Alessandro

Hardie,2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by

English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This fourth volume and second to appear in the series covers the years 1790 1880 and explores romantic and Victorian receptions of the classics Noting the changing fortunes of particular classical authors and the influence of developments in archaeology aesthetics and education it traces the interplay between classical and nineteenth century perceptions of gender class religion and the politics of republic and empire in chapters engaging with many of the major writers of this period

The Figure of the Singer Daniel Karlin, 2013-07-04 Why did poets continue to call themselves singers and their poems songs long after the formal link between poetry and music had been severed Daniel Karlin explores the origin and meaning of the figure of the singer tracing its roots in classical mythology and in the Bible and following its rise from the adventurous song of Milton's *Paradise Lost* to its apotheosis in the nineteenth century by which time it had also become an oppressive cliché Poets might embrace or resist this dominant figure of their art but could not ignore it Shadowing the metaphor is another figure that of the literal singer a source of fascination and rivalry to poets who are confined to words on the page The book opens with an emblematic figure of the greatest of all singers Homer playing his lyre at the centre of the frieze of poets on the Albert Memorial in London Chapters on the tragicomic rise and fall of the bard on the link between female song and suffering and on the metaphor of poetry as birdsong are followed by detailed readings of poems by Tennyson Robert Browning Elizabeth Barrett Browning Walt Whitman and Thomas Hardy The final chapter on the songs of Bob Dylan suggests that recording technology has given fresh impetus to the quarrel which is also a love affair between poetic language and song *The Figure of the Singer* offers a profound and stimulating analysis of the idea of poetry as song and of the complex troubled relations between voice and text
