Nature's Army Harvey Meyerson, 2020-04-15 Blessings on Uncle Sam's soldiers They have done their job well and every pine tree is waving its arms for joy John Muir Muir's words and this book both celebrate a crucial but largely forgotten episode in our nation's history how a generation prior to the creation of a National Park Service the US Army ran Yosemite National Park in an unusual alliance with the fabled preservationist John Muir and his Sierra Club Harvey Meyerson brings that largely forgotten episode in our nation's history to life and uses it as a touchstone for a reconsideration of a century of civilian military cooperation in environmental protection and infrastructure construction whose impact and relevance still resonate Despite the worldwide renown and popularity of Yosemite National Park few people know that its first stewards were drawn from the so called Old Army From 1890 until the establishment of the National Park Service in 1916 these soldiers proved to be extremely competent and farsighted wilderness managers Meyerson recaptures the forgotten history of these early environmentalists and how they set significant standards for the future oversight of our national parks The army Meyerson suggests had actually been well prepared to assume this stewardship During its first hundred years and despite the interruptions of warfare its soldiers had crisscrossed the American landscape preparing maps and writing detailed reports describing climate weather physical terrain ecosystems and the diverse flora and fauna populating the lands they explored and often protected during an era of wide open exploitation of natural resources Such experience made the army better suited than any other federal agency to oversee the early national parks system Combining environmental military political and cultural history Meyerson's study is especially timely in light of Yosemite's enormous popularity four million visitors annually and recent controversies pitting conservation forces against dam builders and proponents of expanded public access

Contagions of Empire Khary Oronde Polk, 2020-04-17 From 1898 onward the expansion of American militarism and empire abroad increasingly relied on black labor even as policy remained inflected both by scientific racism and by fears of contagion Black men and women were mobilized for service in the Spanish Cuban American War under the War Department's belief that southern blacks carried an immunity against tropical diseases Later in World Wars I and II black troops were stigmatized as members of a contagious venereal race and

were subjected to experimental medical treatments meant to curtail their sexual desires By turns feared as contagious and at other times valued for their immunity black men and women played an important part in the U S military s conscription of racial gender and sexual difference even as they exercised their embattled agency at home and abroad By following the scientific medical and cultural history of African American enlistment through the archive of American militarism this book traces the black subjects and agents of empire as they came into contact with a world globalized by warfare *Black Warriors* Albert E. Williams, 2003 **San Francisco Art Commission Honor Award Show**, 1977 Worcestershire Regiment in the Great War Vol 2 Capt H. FitzM. Stacke, 2013-02-25 Arguably the finest regimental history even written A magnificent publication it is with its profusion of maps illustrations and photos each page of photos contains several The Worcesters was one of the five regiments that had four regular battalions before the war with two special reserve and two territorial battalions By the end of the war another fourteen battalions had been raised for a total of twenty two of which twelve went on active service 9 460 officers and men gave their lives 71 Battle Honours were awarded and eight VCs one of whom attached to the RFC was the airman Leefe Robinson famous for shooting down a zeppelin Battalions served on the Western Front in Gallipoli Macedonia Mesopotamia Italy one battalion ended the war in North Persia Appendices provide the Roll of Honour Honours and Awards including Mention in Despatches with date of Gazette for Companion of the British Empire read Commander details of Badges Colours and Distinctions of the regiment and the music for regimental marches Illustrations are by well known artists depicting battle scenes including each VC winning action apart from Leefe s zeppelin After considering various factors explained in his very informative preface the author decided to present this history as one general story in which the number of the battalion concerned is printed in the margin of the pages dealing with its deeds Attention is paid to minor actions such as trench raids which usually find no place in compressed official histories they are recorded in this history The plans illustrate the engagements recorded in the book and are designed to depict the part played by the several battalions in their battles and to enable the visitor to the battlefields to recognise the ground on which each fight took place as much as to make clear the general course of those actions The book opens with a very interesting account of the regiment in the years before the war beginning at the turn of the century and there is a very comprehensive index of 25 pages This is a great piece of work and must rank as one of the finest of the Great War regimental histories many would say the finest and I wouldn t argue
