Sartre's Existentialism And Humanism:

Existentialism Is a Humanism Jean-Paul Sartre, 2007-07-24 A fresh translation of two seminal works of existentialism To understand Jean Paul Sartre is to understand something important about the present time Iris Murdoch Sartre matters because so many fundamental points of his analysis of the human reality are right and true and because their accuracy and veracity entail real consequences for our lives as individuals and in social groups Benedict O Donohoe Philosophy Now It was to correct common misconceptions about his thought that Jean Paul Sartre the most dominant European intellectual of the post World War II decades accepted an invitation to speak on October 29 1945 at the Club Maintenant in Paris The unstated objective of his lecture Existentialism Is a Humanism was to expound his philosophy as a form of existentialism a term much bandied about at the time Sartre asserted that existentialism was essentially a doctrine for philosophers though ironically he was about to make it accessible to a general audience The published text of his lecture quickly became one of the bibles of existentialism and made Sartre an international celebrity The idea of freedom occupies the center of Sartre's doctrine Man born into an empty godless universe is nothing to begin with He creates his essence his self his being through the choices he freely makes existence precedes essence Were it not for the contingency of his death he would never end Choosing to be this or that is to affirm the value of what we choose In choosing therefore we commit not only ourselves but all of mankind This book presents a new English translation of Sartre's 1945 lecture and his analysis of Camus's The Stranger along with a discussion of these works by acclaimed Sartre biographer Annie Cohen Solal This edition is a translation of the 1996 French edition which includes Arlette Elkaïm Sartre's introduction and a Q A with Sartre about his lecture [Sartre's Existentialism and Humanism](#) David Mills Daniel, 2013-01-25 The SCM Briefly series is made up of short accessible volumes which summarize books by philosophers and theologians books that are commonly used on theology and philosophy A level school leaving and Level One undergraduate courses Each Briefly volume includes line by line analysis and short quotes to give students a feel for the original text In addition each book begins with a contextualizing introduction about the writer and his writings and a glossary of terms follows the summary to help students with definitions of philosophical terms

By directly addressing the main criticisms levelled against his work, Sartre dispels many of the misconceptions surrounding his ideas and proves once and for all that existentialism is neither pessimistic nor depressing but rather a doctrine of action. However, the work received mixed reviews with many readers challenging its factual and philosophical accuracy. Sartre himself later agreed with this criticism and dismissed many of the arguments he had made in *Existentialism and Humanism*. Sartre and the Moral Limits of War and Terrorism Jennifer Ang Mei Sze,2010-01-31 Based on the latest debate on Jean Paul Sartre s works on ethics and politics this book examines the relevancy and importance Sartre holds for contemporary concerns the reactionary nature of terrorism the extremity of counter violence and limitations of democratization efforts in our post 9 11 era all claiming the name of freedom and liberation It presents a different version of the violent Sartre which was presented recently as militant and supportive of terrorism by critics who were concerned with the terrorist nature of his writings Sartre in this project is reconstructed as a philosopher who although gave importance to the notion of violence in his politics was actually more concerned with containing violent means within morally excusable limits He is presented as both a realist who understood the inevitability of dirty hands in political struggles and also an absolutist against terrorism he considered wars that derailed from their purported ends of freedom as morally condemnable Arguing for the need for moral limitations to all violent struggles and the need for seeing others as ends for themselves this project outlines an existential response needed to help us reaffirm our moral compass through the invention of existential humanist ethics

The Heresy of Heresies Timothy M.

Mosteller,2021-10-14 The heresy of heresies was common sense George Orwell 1984 This book is a defense of common sense realism which is the greatest heresy of our time Following common sense philosophers like Thomas Aquinas G K Chesterton C S Lewis Dallas Willard and J P Moreland this book defends a common sense vision of reality within the Christian tradition Mosteller shows how common sense realism is more reasonable than the materialist idealist pragmatist existentialist and relativist spirits of our age It maintains that we can know the nature of reality through common sense experience and that this knowledge has profound implication for living the good life and being a good person In the Name of Phenomenology

Simon Glendinning,2007-08-07 The attempt to pursue philosophy in the name of phenomenology is one of the most significant and important developments in twentieth century thought In this bold and innovative book Simon Glendinning introduces some of its major figures and demonstrates that its ongoing strength and coherence is to be explained less by what Maurice Merleau Ponty called the unity of its manner of thinking and more by what he called its unfinished nature Beginning with a discussion of the nature of phenomenology Glendinning explores the changing landscape of phenomenology in key texts by Husserl Heidegger Sartre Merleau Ponty Levinas and Derrida Focusing on the different ways in which each philosopher has responded to and transformed the legacy of phenomenology Glendinning shows that the richness of this legacy lies not in the formation of a distinctive movement or school but in a remarkable capacity to make fertile philosophical breakthroughs Important topics such as the nature of phenomenological arguments the critique of realism and idealism ontology existentialism perception ethics and the other are also closely examined Through a re evaluation of the development of phenomenology Glendinning traces the ruptures and dislocations of philosophy that in an age dominated by science strive constantly to renew our understanding of ourselves and our place in the world Clearly and engagingly written In the Name of Phenomenology is essential reading for students of phenomenology and contemporary philosophy *Thematic Distinction Between Essence and Existence*

James Alabi,2018-08-20 Essay from the year 2009 in the subject Philosophy Miscellaneous language English abstract The terms essence and existence have dominated philosophical discussions for centuries at least from the era of Plato up to the contemporary times The central issue at the heart of this discourse in the preliminary stage had to do with the question of what actually makes an essence of an existing entity For example if you say God philosophers will probe further to ask what is the essence of God In other words what are those characteristics that are truly exclusive to God If again you say a Satsuma a type of orange exists then one will be prompted to ask as to what features distinguish it from a tangerine That is what are those distinctive qualities essentially immaterial that will not make me call an existential Satsuma a tangerine What the inquirer is demanding is simply something more than mere the Satsuma or any of the accidental features like colour taste etc Questions have also been raised in terms of what actually exists as against what is believed to exist The discourse quickly like wild fire moved from the level of mere conceptualizing the terms to the level of philosophers trying to find out which of essence and existence precedes each other In other words granted at least at level of

assumption that both human and objects exist philosophers are asking whether their essence precedes their existence The battle to resolve this crisis of concepts pitted modern Christian philosophers like Bishop George Berkeley and Immanuel Kant against contemporary existentialists like Jean Paul Sartre and Martin Heidegger The former school led by Berkeley in its submission had argued that essence precedes existence while the latter championed by extensively by Sartre disagrees saying existence precedes essence However there are other variations to the discourse but it is sufficient for the scope of this paper to limit discussion to these two with more emphasis on Sartre
