**Econophysics of Agent-Based Models** Frédéric Abergel,Hideaki Aoyama,Bikas K. Chakrabarti,Anirban Chakraborti,Asim Ghosh,2013-09-07 The primary goal of this book is to present the research findings and conclusions of physicists economists mathematicians and financial engineers working in the field of Econophysics who have undertaken agent based modelling comparison with empirical studies and related investigations Most standard economic models assume the existence of the representative agent who is perfectly rational and applies the utility maximization principle when taking action One reason for this is the desire to keep models mathematically tractable no tools are available to economists for solving non linear models of heterogeneous adaptive agents without explicit optimization In contrast multi agent models which originated from statistical physics considerations allow us to go beyond the prototype theories of traditional economics involving the representative agent This book is based on the Econophysics Kolkata VII Workshop at which many such modelling efforts were presented In the book leading researchers in their fields report on their latest work consider recent developments and review the contemporary literature

**Religion** Meredith B. McGuire,2008-04-10 In this insightful examination of religions in their local and global context the author shows how analyzing religions social context helps us understand individuals lives social movements national and ethnic politics and widespread social changes Well researched and theory based the text is filled with intriguing anecdotes empirical data thought provoking discussions of both mainstream and nonofficial religions and historical and contemporary examples that illustrate the interplay between religion and society across cultures This volume takes an integrated approach to examining religion and includes cross cultural historical and methodological viewpoints Readers will learn to identify the complex interactions between religion and societal contexts as well as the ways in which these interactions shape individuals communities national politics and the world

**Cults and Personality** Frank J. MacHovec,1989 *Religious Conversion* Christopher Lamb,M. Darroll Bryant,1999-10-01 Conversion has been an important issue for most of the universal religions those usually associated with a founder such as Christianity Buddhism Islam and Judaism which have a mission to spread their message Other religions have been less concerned with conversion except in so far as it has been a negative force for them to confront This study explores how conversion has been understood by different religions during different eras and includes a survey of the textual legal ritual historic and experiential dimensions of the phenomenon of conversion

**Cultural Science** William Sims Bainbridge,2020-04-21 This innovative book explores the new relationships connecting

computer science social science and the humanities In our time of great and uncertain change business government and education must partner in many forms of technical and cultural convergence for the benefit of both human welfare and economic recovery This innovative book explores the new relationships connecting computer science social science and the humanities One popular form of artificial social intelligence recommender systems can become a far more valuable tool for research on the arts beginning with movies and computer games then extending to all the other art forms While artificial intelligence can be a powerful tool for description of physical reality it must become both social and cultural if it is to be a valued tool of human expression Many new developments offer opportunities and challenges for both industry and government policy This book shows how artificial intelligence and related information technologies can converge successfully with the social sciences and humanities so together they can achieve maximum benefits for people     *Occult Crime* California.
