*Entangled Edens* Candace Slater, 2002 The skill with which Slater combines various levels and modalities of narrative utilizing her personal experience as a colorful unifying thread is truly remarkable Antonio Candido author of *Antonio Candido On Literature and Society* Howard S Becker editor A very important book that quite gracefully elegantly and persuasively moves beyond the usual myth and history format to put at its center stories about the Amazon and the people who tell them *Entangled Edens* persuasively argues that the Amazon can only be grasped understood and come to terms with through its myths and stories It addresses a very real failing of modern environmentalism which for all its virtues tends to dehumanize and metaphorically depopulate when it does not villainize populations that do share its concerns or share them in very different ways Instead of forcing us to choose between land and people Slater uses the stories and the people who tell them to rethink human relations with nature and each other Richard White author of *The Organic Machine The Remaking of the Columbia River* Elegant erudite profoundly serious *Entangled Edens* is a source of inspiration and knowledge for the reader interested in the Amazon Without the cultural tradition and the life experience of Amazonia's people any analysis of the Amazon risks becoming inconsequential or opportunistic This is one of the powerful messages of this important reflection on the Amazon whose greatest riches are ultimately its people Candace Slater has written a book that will last Milton Hatoum author of *The Tree of the Seventh Heaven* 1994 and *The Brothers* 2002

**The Ground Between** Veena Das,Michael Jackson,Arthur Kleinman,Bhrigupati Singh,2014-04-21 The guiding inspiration of this book is the attraction and distance that mark the relation between anthropology and philosophy This theme is explored through encounters between individual anthropologists and particular regions of philosophy Several of the most basic concepts of the discipline including notions of ethics politics temporality self and other and the nature of human life are products of a dialogue both implicit and explicit between anthropology and philosophy These philosophical undercurrents in anthropology also speak to the question of what it is to experience our being in a world marked by radical difference and otherness In The Ground Between twelve leading anthropologists offer intimate reflections on the influence of particular philosophers on their way of seeing the world and on what ethnography has taught them about philosophy Ethnographies of the mundane and the everyday raise fundamental issues that the contributors grapple with in both their lives and their thinking With directness

and honesty they relate particular philosophers to matters such as how to respond to the suffering of the other how concepts arise in the give and take of everyday life and how to be attuned to the world through the senses Their essays challenge the idea that philosophy is solely the province of professional philosophers and suggest that certain modalities of being in the world might be construed as ways of doing philosophy Contributors Jo o Biehl Steven C Caton Vincent Crapanzano Veena Das Didier Fassin Michael M J Fischer Ghassan Hage Clara Han Michael Jackson Arthur Kleinman Michael Puett Bhrigupati Singh
