Saudi Arabia Through The Eyes Of An Artist:

Saudi Arabia Through the Eyes of an Artist Malin Basil, 1979 Saudi Arabia , 1984 Eyes in Art Brigitte Baumbusch, 2004-12-15 Looks at the many ways eyes are represented in paintings statuettes figurines and other art forms

Collecting Asian Art Markéta Hánová, Yuka Kadoi, Simone Wille, 2024-02-29 Rather than centering on the well known collections in Western European and North American museums Collecting Asian Art turns to museum collections of Asian art in Central Europe which emerged from the late 19th century onwards Highlighting the dimensions of Central European connectedness this volume explores how these collections evolved and changed under changing cultural and political conditions from the pre World War I to the post World War II periods With a primary focus on collections of East Asian South Asian and West Asian art in Vienna Prague Berlin Warsaw Krak w Budapest and Ljubljana it outlines the transregional connections and networks that gradually developed Collecting Asian Art locates Asian art across the twentieth century in Central Europe via discourse and ideology and discusses key collections and the way individual collectors built their networks It thus explores transregional connections that developed through collecting activities and strategies in the prewar interwar and postwar eras Contributors also examine the personal connections between a group of Indologists from postwar Prague and modernist Indian artists from the early 1950s to the 1980s and also discuss the systematic archiving of East Asian art collections in Slovenia A concluding conversation looks at colonisation and decolonisation from a broader perspective by approaching it through recent art historical discussions on the global dimensions of modernism By defining the region through its external relationships and its entanglements with regions across Asia rather than as a self contained unit the contributions in this volume outline how these transregional connections and networks evolved and changed over time thus highlighting their singularity in comparison to developments in Western Europe Based on recent research Collecting Asian Art reveals neglected sources while reinterpreting well known ones The Statesman's Yearbook 2025 Palgrave Macmillan, 2025-01-10 Now in its 161st edition The Statesman's Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions The Formation of Nabatean Art Joseph Patrich, 2023-09-20 It is well known that during the Second Temple period the Jews of Judea strictly observed the injunction against graven images Although the Jews borrowed techniques and artistic styles from the surrounding Hellenistic Roman culture they abstained from using images in their art What is less well known is that during the same period a similar phenomenon was taking place in the adjacent Arab kingdom of Nabatea and this despite the fact that unlike the monotheistic Jews the Nabateans worshipped many deities In both kingdoms political independence went hand in hand with a cultural independence that expressed itself in religion language script and art Although continuity with iconoclastic Judea may have had some influence on Nabatean steadfastness to tradition under pressure from the dominant Hellenistic Roman culture it

appears that their abstract perception of their gods and disregard for figurative art were innate growing out of a particular theological doctrine The principles of that doctrine have not been preserved but we can deduce its existence and to a lesser degree its nature on the basis of certain archaeological discoveries that we will discuss here subsequently Unlike the common practice both in the Greco Roman West and in the Parthian East to accord the gods a human form the Nabateans represented their gods in the form of a stele The abstract manner in which they perceived the form of their deities affected their approach towards figurative art A systematic survey of Nabatean art indicates that negation of figurative art is evident in all domains of their creativity Hundreds of years before the Nabatean civilization but in this same geographical area there was a similar religious and artistic phenomenon of venerating stele gods and negating figurative art among another Arabian tribe which scholars tend to identify with the biblical Midianites The same spiritual wellsprings that nourished a nonfigurative tradition among the North Arabian tribes for hundreds of years first the Midianites and then the Nabateans ultimately resurfaced nourishing the nonfigurative tendency we see in Islamic Arabian art This book examines the origins of prohibition of a graven image among the Nabateans its effect on all facets of Nabatean art and its subsequent influence on Islamic art several hundred years hence The implications for the history both of ancient religions and art lend to Nabatean

Museums in Arabia Karen Exell, Sarina Wakefield, 2016-05-12 Museum activity has in recent years undergone major and rapid development in the Arabian Peninsula with the regeneration of existing museums as well as the establishment of new ones Alongside such rapid expansion questions are inevitably raised as to the new challenges museums face in this region and whether the museum as a central focus of heritage preservation also runs the risk of overshadowing local forms of heritage performance and preservation With contributions from leading academics from a range of disciplines and heritage practitioners with first hand experience of working in the region this volume addresses the issues and challenges facing museums in Kuwait Saudi Arabia Qatar Yemen and the UAE It focuses on the themes of politics public engagement and the possibility of a new museum paradigm which might appropriately reflect the interests and culture of the region The interdisciplinary approaches analyse museum development from both an inside and outside perspective suggesting that museums do not follow a uniform trajectory across the region but are embedded within each states socio cultural context individual government agendas and political realities Including case study analysis which brings the more marginal nations into the debates as well as new empirical data and critical evaluation of the role of the museum in the Arabian Peninsula societies this book adds fresh perspectives to the study of Gulf heritage and museology It will appeal to regional and international practitioners and academics across the disciplines of museum studies cultural studies and anthropology as well as to anyone with an interest in the Gulf and Middle East *Bibliographic Guide to Art and Architecture* New York Public Library. Participation Culture in the Gulf Nele Lenze, Charlotte Schriwer, 2018-09-03 This book examines the civil social interactions which have shaped and continue to influence the political and social development of modern Gulf societies. It analyses the influence of public and private social spaces such as sports arenas and dawasir as well as developments in the legal and cultural spheres. Geographically the volume covers Bahrain, Iran, Kuwait, Oman, Qatar, Saudi Arabia and the UAE. Each chapter discusses a different aspect of current trends in society, offering a multidimensional perspective on recent developments. In so doing, the chapters highlight the existence of a growing participation culture as a force for dynamic social change in a global context. Bringing to attention the continuing social change in public and private spaces which have increased public social interactions within the last ten years, this book also demonstrates the opening of dialogues between the public and the authorities. The contributors are established scholars living in the Gulf as well as academics with long term field research in the region, thus providing unique perspectives on current sociopolitical trends in the Gulf states. *Participation Culture in the Gulf* will be useful to students and scholars of Middle Eastern politics and society as well as social movements and political participation more generally. Events, 1977 Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond Tombul, Işıl, Sarı, Gülşah, 2021-05-28 Orientalism is about much more than just information gathered about the East within its general postcolonial period. In this period, orientalism is a Western discourse that dominated and shaped the view of the East. There is otherization in the way the West has historically looked at the East and within the information presented about it. These original stories of travelers in the past and previous telling about the East are facing a reconstruction through modern types of media: Cinema, television, news, newspaper, magazine, internet, social media, photography, literature, and more are transforming the way the East is presented and viewed. Under the headings of post orientalism, neo orientalism, or self orientalism, these new orientalist forms of work in combination with both new and traditional media are redefining orientalism in the media and beyond. *The Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond* shows how both new media and traditional media deal with orientalism today through the presentation of gender, race, religion, and culture that make up orientalist theory. The chapters focus on how orientalism is presented in the media, cinema, TV, photography, and more. This book is ideal for communications theorists, media analysts, practitioners, researchers, academicians, and students working in fields that include mass media, communications, film studies, ethnic studies, history, sociology, and cultural studies. The Art of War in an Age of Peace Michael O'Hanlon, 2021-05-25 An informed, modern plan for post 2020 American foreign policy that avoids the opposing dangers of retrenchment and overextension. Russia and China are both believed to have grand strategies, detailed sets of national security goals backed by means and plans to pursue them. In the United States, policy makers have tried to articulate similar concepts but have failed to reach a widespread consensus since the Cold War ended. While the United States has been the world's prominent superpower for over a generation, much American thinking has oscillated between the extremes of

isolationist agendas versus interventionist and overly assertive ones Drawing on historical precedents and weighing issues such as Russia's resurgence China's great rise North Korea's nuclear machinations and Middle East turmoil Michael O Hanlon presents a well researched ethically sound and politically viable vision for American national security policy He also proposes complementing the Pentagon's set of 4 1 pre-existing threats with a new 4 1 biological nuclear digital climatic and internal dangers
