George W. Wenzel

Savage Luxury The Slaughter Of The Baby Seals:

Savage Luxury Brian Davies, 1970 *The War Against the Seals* Briton Cooper Busch, 1987 Concentrates on the fur seals of the Bering Sea and the harp seals of the Newfoundland hunt Reveals the consequences of an industry's killing of more than 50 000 000 seals in a century and a half **Icy Battleground** Donald Barry, 2005 Icy Battleground is the first comprehensive account of the forty year political controversy over the seal hunt With a foreword by the Honourable John C Crosbie it traces the rise of the anti sealing protests the emergence of the International Fund for Animal Welfare its vigorous and unrelenting campaign to end commercial sealing and its strategies in mobilising pressure in Canada and abroad It also assesses the Canadian government's counter strategies to continue the hunt as well as the challenges that emotionally targeted campaigns like the seal hunt pose for government decision makers **Sister Species** Lisa Kemmerer, 2011-06-08 There is a very strong association between women animals and activism In *Women Social Justice and Animal Advocacy* activist Lisa A Kemmerer presents the narratives of fourteen ecofeminist activists who describe their own experiences in the field often from the perspective of discovering the extent of a particular kind of animal oppression and resolving to do something about it The narratives are bold and gripping sometimes horrifying and cover a range of topics relating to animal rights and liberation The writers discuss contemporary cockfighting factory farming orphaned primates in Africa the wild bird trade scientific experimentation on animals laws against dangerous dogs and violence against baby seals Sister Species provides a wide survey of what women are doing in the animal activism movement The writers ask readers to rethink how we view animals in our daily lives and how we can take action to protect them Kemmerer's introduction explains why she collected these particular stories and how she views the relationship between feminism and animal suffering The foreword is by Carol J Adams author of *The Sexual Politics of Meat* 1990 *Neither Man nor Beast* *Feminism and the Defense of Animals* 1994 *The Feminist Care Tradition in Animal Ethics A Reader* 2007 and many other books None of these essays has been previously published *Cultural Violence, Stigma and the Legacy of the Anti-Sealing Movement* Danita Catherine Burke, 2023-06-20 This book injects nuance into the debate about the moral legitimacy of environmental and animal activism and explores how activism can lead to stigma and destruction of minority group identities cultural practices and community structures It takes readers back to ground zero of the anti sealing movement Newfoundland and Labrador This book sheds light on the human costs of activists and the repercussions for vulnerable people when activism normalizes forms of violence as acceptable to achieve their desired outcomes Inspired by Greenpeace Canada's apology to Canadian Inuit Indigenous and coastal peoples this book brings into focus the local peoples who were targeted by activists and media outlets and left behind once the cultural and economic structures of the sealing industry and sealing practices were severely damaged by activist stigmatization and the global outcry against rural and coastal peoples and their practices Drawing upon literature on cultural violence and archival research this book will be of interest to scholars and researchers of international relations development

focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His account makes history come alive Sierra So smoothly written that one almost does not notice the breadth of scholarship that went into this original and important work of environmental history Philip Shabecoff New York Times Book Review Clarifying and challenging this is an essential text for deep ecologists and ecophilosophers Stephanie Mills Utne Reader

Make It a Green Peace! Frank Zelko, 2013-04-03 The emergence of Greenpeace in the late 1960s from a loose knit group of anti nuclear and anti whaling activists fundamentally changed the nature of environmentalism its purpose philosophy and tactics around the world And yet there has been no comprehensive objective history of Greenpeace s origins until now Make It a Green Peace draws upon meeting minutes internal correspondence manifestos philosophical writings and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non governmental organization in the world Situating Greenpeace within the peace movement and counterculture of the 1960s Frank Zelko provides a much deeper treatment of the group s groundbreaking brand of radical media savvy direct action environmentalism than has been previously attempted Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s highlighting the influence of Quakerism with its practice of bearing witness Native American spirituality and the non violent resistance of Gandhi Unlike the more strait laced less confrontational Sierra Club and Audubon Society early Greenpeaceers smoked dope dropped acid wore their hair long and put their bodies on the line interposing themselves between the harpoons of whalers and the clubs of seal hunters to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world And while it may not have achieved its most revolutionary goals Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day Narrating the key campaigns and arguments among the group s early members Make It a Green Peace vividly captures all the drama pathos and occasional moments of absurd comic relief of Greenpeace s tumultuous first decade

Arctic Politics Oran R. Young, 2000-10-03 Long recognized by naturalists and adventurers as a dramatically unique region the Arctic has recently emerged as an area of increasing political strategic and economic importance The Arctic is both one of the world s largest and smallest regions encompassing 15% of the earth s land mass yet inhabited by fewer than 1% of the world s population Its physical vastness is coupled with a wealth of natural resources in oil alone the Far North contributes that majority of Russia s production and 25% of US output At the same time the Circumpolar North is home to diverse indigenous peoples and cultures thus setting the stage for conflicts of international scope In this collection of essays Oran Young provides a foundation for studying the politics of the Arctic as a distinctive international region Expanding the

traditional approach to area studies he examines the Far North not only for its unique features but also as an arena within which to develop new approaches to various issues of worldwide interest Young challenges persistent stereotypes that marginalize the region moving beyond the romanticism of many observers to arrive at an understanding of the complex social and ecological systems of the Far North In doing so Young thoughtfully establishes the Arctic as an area of international importance both in its own right and in relation to other geopolitical regions **Science** John Michels (Journalist),1881 Vols for 1911 13 contain the Proceedings of the Helminothological Society of Washington ISSN 0018 0120 1st 15th meeting

Animal Rights, Human Rights George W. Wenzel,1991-01-01 This study of the controversy surrounding the hunting of seals in the Canadian Arctic concentrates on the Inuit of Clyde River Baffin Island and traces the evolution of the traditional subsistence economy and social structure to the present cash economy and the effects of animal rights movements on the Inuit culture Extensive bibliography maps and glossary of Inuit sealing terms **A History of Environmentalism** Marco

Armiero,Lise Sedrez,2014-07-31 Think globally act locally has become a call to environmentalist mobilization proposing a closer connection between global concerns local issues and individual responsibility A History of Environmentalism explores this dialectic relationship with ten contributors from a range of disciplines providing a history of environmentalism which frames global themes and narrates local stories Each of the chapters in this volume addresses specific struggles in the history of environmental movements for example over national parks species protection forests waste contamination nuclear energy and expropriation A diverse range of environments and environmental actors are covered including the communities in the Amazonian Forest the antelope in Tibet atomic power plants in Europe and oil and politics in the Niger Delta The chapters demonstrate how these conflicts make visible the intricate connections between local and global the body and the environment and power and nature A History of Environmentalism tells us much about transformations of cultural perceptions and ways of production and consuming as well as ecological and social changes More than offering an exhaustive picture of the entire environmentalist movement A History of Environmentalism highlights the importance of the experience of environmentalism within local communities It offers a worldwide and polyphonic perspective making it key reading for students and scholars of global and environmental history and political ecology **Conservation/ecology, Resources for**
