Savage Divine Myths:

Myth, Ritual and Religion (Complete) Andrew Lang, 2020-09-28 The past systems of mythological interpretation have been briefly sketched It has been shown that the practical need for a reconciliation between RELIGION and MORALITY on one side and the MYTHS about the gods on the other produced the hypotheses of Theagenes and Metrodorus of Socrates and Euhemerus of Aristotle and Plutarch It has been shown that in each case the reconcilers argued on the basis of their own ideas and of the philosophies of their time The early physicist thought that myth concealed a physical philosophy the early etymologist saw in it a confusion of language the early political speculator supposed that myth was an invention of legislators the literary Euhemerus found the secret of myths in the course of an imaginary voyage to a fabled island Then came the moment of the Christian attacks and Pagan philosophers touched with Oriental pantheism recognised in myths certain pantheistic symbols and a cryptic revelation of their own Neo platonism When the gods were dead and their altars fallen then antiquaries brought their curiosity to the problem of explaining myth Christians recognised in it a depraved version of the Jewish sacred writings and found the ark on every mountain top of Greece The critical nineteenth century brought in with Otfried Muller and Lobeck a closer analysis and finally in the sudden rise of comparative philology it chanced that philologists annexed the domain of myths Each of these systems had its own amount of truth but each certainly failed to unravel the whole web of tradition and of foolish faith Meantime a new science has come into existence the science which studies man in the sum of all his works and thoughts as evolved through the whole process of his development This science Comparative Anthropology examines the development of law out of custom the development of weapons from the stick or stone to the latest repeating rifle the development of society from the horde to the nation It is a study which does not despise the most backward nor degraded tribe nor neglect the most civilised and it frequently finds in Australians or Nootkas the germ of ideas and institutions which Greeks or Romans brought to perfection or retained little altered from their early rudeness in the midst of civilisation It is inevitable that this science should also try its hand on mythology Our purpose is to employ the anthropological method the study of the evolution of ideas from the savage to the barbarous and thence to the civilised stage in the province of myth ritual and religion It has been shown that the light of this method had dawned on Eusebius in his polemic with the heathen apologists Spencer the head of Corpus Cambridge 1630 93 had really no other scheme in his mind in his erudite work on Hebrew Ritual Spencer was a student of man s religions generally and he came to the conclusion that Hebrew ritual was but an expurgated and so to speak divinely licensed adaptation of heathen customs at large We do but follow his guidance on less perilous ground when we seek for the original forms of classical rite and myth in the parallel usages and legends of the most backward races

children's tales and with the popular songs, dances and traditions of classical and savage peoples. The results of this more recent comparison may be briefly stated. Poetry begins, as Aristotle says, in improvisation. Every man is his own poet and in moments of strong emotion expresses himself in song. A typical example is the Song of Lamech in Genesis: 'I have slain a man to my wounding And a young man to my hurt.' Instances perpetually occur in the Sagas. Grettir, Egil, Skarphedin are always singing. In 'Kidnapped' Mr Stevenson introduces 'The Song of the Sword of Alan,' a fine example of Celtic practice words and air are beaten out together in the heat of victory. In the same way the women sang improvised dirges like Helen's lullabies like the lullaby of Danae in Simonides and flower songs as in modern Italy. Every function of life, war, agriculture, the chase had its appropriate magical and mimetic dance and song as in Finland among Red Indians and among Australian blacks. The deeds of men were chanted by heroes as by Achilles; stories were told in alternate verse and prose, girls like Homer's Nausicaa accompanied dance and ball play, priests and medicine men accompanied rites and magical ceremonies by songs. These practices are world wide and world old. The thoroughly popular songs thus evolved became the rude material of a professional class of minstrels when these arose as in the heroic age of Greece. A minstrel might be attached to a Court or a noble or he might go wandering with song and harp among the people. In either case this class of men developed more regular and ample measures. They evolved the hexameter, the *laissez* of the *Chansons de Geste*, the strange technicalities of Scandinavian poetry, the metres of Vedic hymns, the choral odes of Greece. The narrative popular chant became in their hands the Epic or the mediaeval rhymed romance. The metre of improvised verse changed into the artistic lyric. These lyric forms were fixed in many cases by the art of writing. But poetry did not remain solely in professional and literary hands. The mediaeval minstrels and jongleurs who may best be studied in Leconte de Lisle's Introduction to his *Epopées Françaises* sang in Court and Camp. The poorer, less regular brethren of the art harped and played conjuring tricks in farm and grange or at street corners. The foreign newer metres took the place of the old alliterative English verse. But unprofessional men and women did not cease to make and sing.

The Encyclopædia Britannica, Hugh Chisholm, James Louis Garvin, 1926. *Myth, Ritual & Religion*, Andrew Lang, 2005-01-01. First published in 1887, this early work of comparative mythology remains a vital resource to students and devotees of ethnography, history and world legends. Lang's stunningly comprehensive overview of pre-scientific thinking provides. In Volume Two, Lang explores the concept of the divine as it has manifested itself around the world, examines the importance of ritual and delves particularly into the mythologies of ancient Egypt, Greece, Mexico and India to demonstrate.
