Save Our School:

Save Our Schools Ralph E. Robinson, Barbara A. Beswick, 2000-09 Work dedicated to educating each child appropriately and identifying at risk youngsters by Grade Two and salvaging them by Grade Eight **Only Connect** Rudy Crew, Thomas Dyja, 2007-08-07 An inspiring new vision for America's public schools from one of the nation's top educators American fourth graders score twelfth in the world in math skills after Latvia and Hungary Our eighth graders are fifteenth below Malaysia and Slovakia And by the time they're fifteen years old our students have slipped off the map to twenty-fourth place internationally If these stats don't make you angry or ashamed or plain sad then at the very least they should make you afraid If matters don't change soon tens of millions of our sons and daughters will grow up unable to function let alone compete in a global economy And the impact of that on all of us will be devastating All is not lost though says Rudy Crew who has headed some of the largest and most daunting school systems in America Not by any means Only Connect is a call for not just parents but the entire nation to reconceive our relationship with public education If we're to survive we must place our schools at the center of our communities and partner with them to produce children with the full set of the tools they'll need personal civic and occupational as well as academic to face the economic challenges that lie ahead Much like Thomas Friedman in *The World Is Flat* Crew shows us the reality of our schools in a new century and what we each must do to create the next generation of mature and conscious contributors to society From parents who demand only the best from their children and their schools through our teachers and administrators all the way to Washington D C everyone has a role in restoring American education and America's competitive edge **Saving Our Schools** Kenneth S. Goodman, 2004 Saving Our Schools exposes the ugly side of President George Bush's No Child Left Behind mandate which has threatened to close more than 6 000 public schools to the detriment of dedicated teachers and disadvantaged children alike Revealing how NCLB forces schools with strictly limited resources to teach its children test-taking skills in a desperate bid to pass high-stakes standardized testing and how the government blacklists successful professors institutions and methods that balk the NCLB party line and much more Saving Our Schools warns of an immediate threat to the integrity of public education and urges the reader to take action An eye-opening social commentary of keen importance in determining the nation's future Midwest Book Review *Effective Drug Prevention Efforts in Our Schools and Communities* United States. Congress. House. Committee on Government Reform. Subcommittee on Criminal Justice, Drug Policy, and Human Resources, 2001 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Internal Revenue Service, 2002 **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986**, 1987 **Last Chance for Our Children** Bill Honig, 1985 **Publication**, 1991 *Why Rural Schools Matter* Mara Casey Tieken, 2014-10-30 From headlines to documentaries urban schools are at the center of current debates about education From these accounts one would never know that 51 million Americans live in rural communities and depend on

their public schools to meet not only educational but also social and economic needs For many communities these schools are the ties that bind Why Rural Schools Matter shares the untold story of rural education Drawing upon extensive research in two southern towns Mara Tieken exposes the complicated ways in which schools shape the racial dynamics of their towns and sustain the communities that surround them The growing power of the state however brings the threat of rural school closure which jeopardizes the education of children and the future of communities With a nuanced understanding of the complicated relationship between communities and schools Tieken warns us that current education policies which narrow schools purpose to academic achievement alone endanger rural America and undermine the potential of a school whether rural or urban to sustain a community Vividly demonstrating the effects of constricted definitions of public education in an era of economic turmoil and widening inequality Tieken calls for a more contextual approach to education policymaking involving both state and community
