Beyond the Bones Madeleine L. Mant, Alyson Jaagumägi Holland, 2016-05-07 Interdisciplinary research is a rewarding enterprise but there are inherent challenges especially in current anthropological study Anthropologists investigate questions concerning health disease and the life course in past and contemporary societies necessitating interdisciplinary collaboration Tackling these big picture questions related to human health states requires understanding and integrating social historical environmental and biological contexts and uniting qualitative and quantitative data from divergent sources and technologies The crucial interplay between new technologies and traditional approaches to anthropology necessitates innovative approaches that promote the emergence of new and alternate views Beyond the Bones Engaging with Disparate Datasets fills an emerging niche providing a forum in which anthropology students and scholars wrestle with the fundamental possibilities and limitations in uniting multiple lines of evidence This text demonstrates the importance of a multi faceted approach to research design and data collection and provides concrete examples of research questions designs and results that are produced through the integration of different methods providing guidance for future researchers and fostering the creation of constructive discourse Contributions from various experts in the field highlight lines of evidence as varied as skeletal remains cemetery reports hospital records digital radiographs ancient DNA clinical datasets linguistic models and nutritional interviews including discussions of the problems limitations and benefits of drawing upon and comparing datasets while illuminating the many ways in which anthropologists are using multiple data sources to unravel larger conceptual questions in anthropology Examines how disparate datasets are combined using case studies from current research Draws on multiple sub disciplines of anthropological research to produce a holistic overview that speaks to anthropology as a discipline Explores examples drawn from qualitative quantitative and mixed methods research to illustrate the breadth of anthropological work

An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya Tertia

Barnett,2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al Ajal situated in the Central Saharan region of south west Libya The wadi is renowned as the heartland of the Garamantian civilization which emerged from local mobile Pastoral communities in the 1st millennium BC and dominated trans Saharan trade and politics for over a thousand years Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas However prior to the fieldwork detailed in this work only a handful of carvings had been recorded in the wadi This work is based on systematic survey conducted between 2004 and 2009 which recorded around 2 500 previously unknown or unpublished engraved and inscribed rock surfaces All forms of engraving whether figurative or surface markings were viewed as significant residues of human interaction with the rock surface and were recorded The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened This record of the fragile engravings provides an important source of information for researchers and students *History of Soybean Variety Development, Breeding and Genetic Engineering (1902-2020)* William Shurtleff; Akiko Aoyagi,2020-06-25 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 152 photographs and illustrations mostly color Free of charge in digital format on Google Books *Medical Record* George Frederick Shrady,Thomas Lathrop Stedman,1882 *NATL MUSEUM NATURAL HIST PB* YOCHELSON ELLIS L,1991-04-17 *Extinct Birds* Julian P. Hume,2017-08-24 A comprehensive review of the hundreds of bird species that have become extinct over the last 1 000 years of habitat degradation over hunting and rat introduction Extinct Birds has become the standard text on this subject covering both familiar icons of extinction as well as more obscure birds some known from just one specimen or from travellers tales This second edition is expanded to include dozens of new species as more are constantly added to the list either through extinction or through new subfossil discoveries The book is the result of decades of research into literature and museum drawers as well as caves and subfossil deposits which often reveal birds long gone that disappeared without ever being recorded by scientists while they lived From Great Auks Carolina Parakeets and Dodos to the amazing yet almost completely vanished bird radiations of Hawaii and New Zealand via rafts of extinction in the Pacific and elsewhere this book is both a sumptuous reference and astounding testament to humanity s devastating impact on wildlife **Geochemistry of the Earth's Surface** Halldor Armannsson,1999-01-01 Topics covered Geochemical record of terrestrial environmental change and global geochemical cycles Chemical weathering and climate river catchment studies Environmental geochemistry of the terrestrial environment and its effect on health Organic geochemistry Marine and sedimentary geochemistry Mineralogy microbes and chemistry of weathering Geochemical thermodynamics and kinetics Geochemistry of crustal fluids and of
