## Saved From Oblivion:

**Brian Castro's Fiction** , Adorno and Literature David Cunningham, Nigel Mapp, 2009-02-01 First book to provide a comprehensive account of Adorno's aesthetic theory in relation to literature now available in paperback *An Oblivion's Indigo Aetere*, 2007-03-01 Two colonies set out from Earth One would travel the solar system and return in fifty years The other by design would never come back The crew of the returning ship however finds that during its absence it missed a rather crucial planetary event the Apocalypse Soon the last remaining humans those in the second wandering colony are about to be thrust into a final battle for souls between the forces of good and evil Evil is much better prepared for the fight though The futures of both mankind and the afterlife depend upon the actions of all the humans caught in the struggles Even though the forces they are up against are no less powerful than deity humans with enough willpower can sometimes do amazing things *Oblivion's Galaxy - The Complete Trilogy* Dylan McFadyen, 1900 First Lieutenant Shaara was dead this morning Her captain is furious at her She wasted company resources getting herself killed and it's coming out of her paycheck Now she's sitting across from the first other human being she's seen in six years His name is Adnan He claims to come from Earth but that's impossible Earth died a long time ago If Adnan's telling the truth he and the decaying ship the captain pulled him off are nearly a thousand years old Wherever he's from he's Shaara's responsibility now Which is the last thing she needs But it's either that or the captain sells Adnan into slavery Shaara knows what that would mean Most humans do And something inside her won't let her abandon Adnan to it revenant memories stabbed awake by the look in his eyes Facing those memories won't be easy It'd be far easier to ignore the feeling driving her forward Far easier to let it all go to hell and drift back to sleep Until a shadowy new faction starts stoking the fires of war They're looking for Adnan Earth's last survivor holds the key to unleash a terrible indiscriminate vengeance on the galaxy that wronged them Who they are is a mystery to everyone but Shaara Hard as she's tried to forget she knows them all too well Which means she's the only one who can stop them The question is does she want to Maybe the galaxy's earned a little vengeance The first book in the trilogy *Oblivion's Cloak* won First Place in the Space Opera category at the 2023 Cygnus Awards *Littell's Living Age* , 1907

**The Dynamite of God** William Alfred Quayle, 1918 *Oblivion's Triumph* Dylan McFadyen, 2023-08-24 Shaara is running out of friends The sacrifices she and Warden made two years ago bought the League time not victory The war against the Undying has left them exhausted drained of everything but hope and precious little of that The simple fact is that the Undying are going to win Warden knows it Shaara knows it The Undying sure as hell know it Until out of the black the Eternal comes to Shaara with an offer she can't refuse however much she'd like to The threat he warned her about two years ago is real and now it's come calling It cares nothing for their little war All life in the galaxy Undying or not will end if it spreads unchecked Shaara and the Eternal have little choice but to work together to destroy it At least for now But people on both sides aren't happy with an alliance however temporary Some of them are willing to risk all that lives just for a shot at

power and revenge If Shaara can't find a way to defeat them she and the few friends she has left will lose more than their lives They'll lose everything *The Living Age*, 1907 *The Modern Review*, 1923 *Darwin, Divinity, and the Dance of the Cosmos* Bruce Sanguin, 2007 In March 2005 the United Nations released its Millennium Ecosystem Assessment Among the findings 2/3 of the world's ecosystems are seriously degraded 90 percent of the world's fish stocks are depleted and climate change is not just something that might happen it is already upon us Many people including many Christians will hear this and delude themselves into thinking that technology can and will save the day A wiser and more helpful response especially for Christians is to find a way to step back into the flow of nature from which we have extricated ourselves In *Darwin Divinity and the Dance of the Cosmos* Bruce Sanguin shows us the way Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with biblical meta narratives and frequently overlooked strands of the Judeo Christian tradition to create an ecological and truly evolutionary Christian theology a feat few theologians have even attempted This book and more importantly the work of integration it suggests represents a fundamental challenge to our theological and liturgical models But for those who are ready and willing to embark on an exciting theological journey of discovery it also represents a rich opportunity to become reacquainted with the Spirit of God moving in and through the very dynamics of an unfolding universe In *Darwin Divinity and the Dance of the Cosmos* Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with biblical meta narratives and frequently overlooked strands of the Judeo Christian tradition to create an ecological and truly evolutionary Christian theology **Academy, with which are Incorporated Literature and the English Review**, 1903 **The Academy and Literature** Charles Edward Cutts Birch Appleton, Charles Edward Doble, James Sutherland Cotton, Charles Lewis Hind, William Teignmouth Shore, Alfred Bruce Douglas, Ellis Ashmead-Bartlett, Thomas William Hodgson Crosland, 1903

*The Academy and Literature*, 1903 **Oblivion's Blade** Dylan McFadyen, 2023-04-21 Shaara never asked to be in charge Since taking command of the mysterious AI warship Warden and the eccentric mercenary company that calls him home she's only accepted jobs that let her conscience sleep at night The trouble is those jobs don't pay too well After more than a year of fighting for the downtrodden the exploited and the oppressed the Wardens coffers are running dry So when they get a suspicious but lucrative offer from a pariah republic on the fringe of galactic politics Shaara ignores the warning voice in her head and accepts Of course the voice is right it usually is The contract takes the Wardens to the edges of explored space there in the vast darkness beyond the galactic core a great and terrible force is gathering a foe far deadlier than they've ever fought The galaxy's not ready to face it Has Shaara saved them all from Gaeus Nemesis just to die another day What's more this new enemy holds the key to another mystery As they fight for their lives Shaara and Corax are forced to ask themselves a question they hoped they'd never have to How much do they really know about Warden And can they trust him *Plans to Save the Earth* S Scott Jr, 2023-10-05 Unveiling the Light Within Introduction The year is 2175 After global
