**Saving the Children** Emily Baughan, 2021-11-23 *Saving the Children* analyzes the intersection of liberal internationalism and imperialism through the history of the humanitarian organization Save the Children from its formation during the First World War through the era of decolonization Whereas Save the Children claimed that it was saving children to save the world the vision of the world it sought to save was strictly delimited characterized by international capitalism and colonial rule Emily Baughan's groundbreaking analysis across fifty years and eighteen countries shows that Britain's desire to create an international order favorable to its imperial rule shaped international humanitarianism In revealing that modern humanitarianism and its conception of childhood are products of the early twentieth century imperial economy *Saving the Children* argues that the contemporary aid sector must reckon with its past if it is to forge a new future **Saving Children** Jack Werber, 2017-07-05 In *Saving Children* Jack Werber describes in detail what life in Buchenwald was like painting a haunting picture of his daily struggle for survival But Werber did more than survive he made saving children his special mission In what is one of the most amazing stories of the Holocaust Jack Werber helped to save the lives of some seven hundred Jewish children who had arrived at Buchenwald in late 1944 including Nobel Prize winner Elie Wiesel and Rabbi Israel Meir Lau former Chief Rabbi of the State of Israel At great personal risk he arranged for the children to be hidden in various barracks with false working papers He and his group actually started a school where the children studied Jewish history music and Hebrew These activities gave the youngsters hope that they might survive and ultimately most of them did Werber's entire family his wife daughter parents and seven siblings were all murdered by the Nazis There was no reason to go on he had thought but seeing the children transformed his outlook He resolved to prevent them from meeting his daughter's fate Out of 3 200 Polish prisoners who entered the camp together with Werber only eleven were alive by war's end Of those he was the only Jew **Saving Children From the Holocaust** Ann Byers, 2012-01-01 Discusses the Kindertransport including the people who organized the operation how the transports worked the children's lives who escaped on a transport and how ten thousand children were saved from the Holocaust Provided by publisher **Saving Children from a Life of Crime** David P. Farrington, Brandon C. Welsh, 2008-10-08 After decades of rigorous study in the United States and across the Western world a great deal is known about the early risk factors for offending High impulsiveness low attainment criminal parents parental conflict and growing up in a deprived high crime neighborhood are among the most important factors There is also a growing body of high quality scientific evidence on the effectiveness of early prevention programs designed to prevent children from embarking on a life of crime Drawing on the latest evidence *Saving Children from a Life of Crime* is the first book to assess the early causes of offending and what works best to prevent it Preschool intellectual enrichment child skills training parent management training and home visiting programs are among the most effective early prevention programs Criminologists David Farrington and Brandon Welsh also outline a policy

Originally published in 1993 this book presents an alternative approach to the study of the emergence of economic awareness during childhood a new developmental economic psychology In the past attempts to study the emergence of children's economic consciousness have failed to take account of the practical nature of the economic in the history of western cultures Economic socialisation has been seen as the acquisition of abstract knowledge about the institutions of adult economic culture The child has been seen as a spectator acquiring knowledge of that culture but never really a part of it However economic actions in essence are directed not towards the attainment of knowledge but rather towards the practical solution of problems of resource allocation imposed by constraint Children just like adults are faced with practical problems of resource allocation Their response to these problems may be different from those of adults but no less economic for that This realisation forms the heart of this book In it children are seen as both inhabitants of their own playground economic subculture and actors in the wider economic world of adults solving or attempting to solve practical economic problems In order to highlight this child centred approach the authors studied the way children tackle the particular problems posed by limitations of income How do children learn a the relationship between choices available in the present and the future b to spread their limited financial resources over time into the future and c about the strategies such as banking that allow them to protect those resources from threats and temptations In short how do children learn to save This volume goes some way to answering these and related questions and in so doing sets up an alternative framework for the study of the emergence of economic awareness **Saving Children from a Life of Crime : Early Risk Factors and Effective Interventions** Institute of Criminology Cambridge University David P. **Saving Our Kids** Marc Gorelick, MD, 2025-04-10 If someone were to ask you what the leading cause of death is among American children today what would you say Cancer Car accidents Obesity The answer is firearms Guns kill more children in our country than anything else It's a shocking statistic no matter your politics So how do we solve it Where can we find common ground on one of the most divisive issues in America The solution according to Dr Gorelick lies in public health In *Saving Our Kids* An ER Doc's Common Sense Solution to the Gun Crisis Dr Gorelick unfurls a roadmap that everyone from pediatricians to the general public can follow The key is taking a fresh look at the issue of guns through the lens of public health and leading the debate away from partisanship and toward reasonable policies that will save children's lives As a father pediatrician and leader of one of the largest independent pediatric health systems in the United States Dr Gorelick has viewed the issue of gun violence up close from many angles for many years All that experience has brought him to one conclusion we can solve this crisis if we prioritize our children's health

**To Save the Children of Korea** Arissa H Oh, 2015-06-17 The important largely unknown story of American adoption of Korean children since the Korean War with remarkably extensive research and great verve Charles K Armstrong Columbia University Arissa Oh argues that international adoption began in the aftermath of the Korean War First established as an emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work *To Save the Children of Korea* shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A Donnell Adoption Culture

learn about the Holocaust in the immediate aftermath of the war What kinds of images and representations of Holocaust survivors first circulated in America when most Jewish survivors were still stuck in European displaced persons camps Drawing on communal records and previously unexamined cultural materials *Saving Our Survivors* details the kinds of narratives that inspired American Jewish action in the wake of the Holocaust and argues that American Jewish communal life became a significant site of knowledge formation and dissemination about the Holocaust Through organizational campaign materials public speeches appeal letters brochures posters radio broadcasts and short films American Jews were compelled to act as heroes saving Jewish lives and a Jewish future Bringing postwar communal narratives into the longer history of Holocaust memory in America challenges our understanding of what Holocaust narratives look and sound like and invites us to consider the relationship between humanitarian aid and the narratives they employ to inspire action By expanding our understanding of how stories about the Holocaust became part of an American discourse and considering multiple forms of Holocaust survivor accounts *Saving Our Survivors* highlights the messy diffuse and contested nature of memory construction in the immediate aftermath of the Holocaust as well as each new tragedy we confront

*Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola, 2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and children s involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities

It introduces both beginners and experts to child and youth rights in all their theoretical, historical, cultural, political, and practical complexity. In the process, the book examines key controversies about globalization, cultural relativism, social justice, power, economics, politics, freedom, ageism, and more. Combining vivid examples with cutting-edge scholarship, *Children's Rights Today's Global Challenge* lifts up the rights of the youngest third of humanity as the major human rights challenge of the twenty-first century      **Gender and Crisis in Global Politics** Laura Sjoberg, 2018-02-02 The global political arena is again in a time of crisis. Different sources pay attention to different crises: the Global Financial Crisis, the Debt Crisis, the Crisis of ISIL/Daesh in Iraq and Syria, the Crisis of Israel and Palestine, and the Iran Nuclear Crisis have gotten significant attention in media coverage of global politics. But those are not the only crises that scholars and practitioners discuss. Environmentalists warn of ecological crisis; health scholars warn of disease crises; cyber security experts suggest a coming information crisis; and migration experts warn of population crises. Feminist work on global politics has addressed many of these crises, historical and contemporary, in crisis language and without it, as well as a number of the non-crises that looking for women and gender in the international arena draws into focus. That work, however, had generally not explicitly theorized the conceptualization of crisis, its gendered dimensions, and/or gender-based crises, as such. Across this book, feminist conversations about crisis in global politics suggest that a single feminist approach to definition of or politics of crisis is impossible to find. That same variety of work, though, makes a strong case that paying attention to crises in the world and to the manufacture of crisis rhetoric alongside events in global politics is not only generally important but an important place for feminist scholarship, feminist political activism, and direct attention. This book was previously published as a special issue of the *International Feminist Journal of Politics*      **The Rescue of the Prague Refugees 1938-39** William Chadwick, 2010 The story of the Prague Kindertransports and the splendid achievements of Sir Nicholas Winton and Trevor Chadwick in getting some 660 children to safety has often been told. This was only part of a much larger rescue operation. Before Winton and Chadwick even arrived, Doreen Warriner was making lists of those most in danger, negotiating for visas, and shepherding trainloads of people to safety. When she left Prague in April 1939, spirited out of the country before the Gestapo could arrest her for smuggling wanted refugees on her trains, her successor was the indomitable Canadian Beatrice Wellington, who was more than a match for the Gestapo and indeed for a slow-moving British officialdom. These two were directly responsible for saving some thousands of men, women, and children. This book reveals the full extent of the British rescue effort for the first time. It devotes a chapter to each of the major participants, each one a fascinating character and four of them willing to drop whatever they were doing in their lives to come to the aid of those in danger      Foreign Operations, Export Financing, and Related Programs Appropriations for ...
