The Fight to Save the Town Michelle Wilde Anderson, 2022-06-21 A sweeping and eye opening study of wealth inequality and the dismantling of local government in four working class US cities that passionately argues for reinvestment in people centered leadership and offers a welcome reminder of what government can accomplish if given the chance San Francisco Chronicle Decades of cuts to local government amidst rising concentrations of poverty have wreaked havoc on communities left behind by the modern economy Some of these discarded places are rural Others are big cities small cities or historic suburbs Some vote blue others red Some are the most diverse communities in America while others are nearly all white all Latino or all Black All are routinely trashed by outsiders for their poverty and their politics Mostly their governments are just broke Forty years after the anti tax revolution began protecting wealthy taxpayers and their cities our high poverty cities and counties have run out of services to cut properties to sell bills to defer and risky loans to take In this astute and powerful vision for improving America Publishers Weekly urban law expert and author Michelle Wilde Anderson offers unsparing humanistic portraits of the hardships left behind in four such places But this book is not a eulogy or a lament Instead Anderson travels to four blue collar communities that are poor broke and progressing Networks of leaders and residents in these places are facing down some of the hardest challenges in American poverty today In Stockton California locals are finding ways beyond the police department to reduce gun violence and treat the trauma it leaves behind In Josephine County Oregon community leaders have enacted new taxes to support basic services in a rural area with fiercely anti government politics In Lawrence Massachusetts leaders are figuring out how to improve job security and wages in an era of backbreaking poverty for the working class And a social movement in Detroit Michigan is pioneering ways to stabilize low income housing after a wave of foreclosures and housing loss Our smallest governments shape people s safety comfort and life chances For decades these governments have no longer just reflected inequality they have helped drive it But it doesn t have to be that way Anderson shows that if we learn to save our towns we will also be learning to save ourselves The New York Times Book Review
