Antonio Texas historian Lewis Fisher peels back the myths surrounding more than a century of preservation triumphs and failures to reveal a lively mosaic that portrays the saving of San Antonio's cultural and architectural soul. Old Buildings, New Forms Francoise Bollack, 2013-11-12 It is clear that working with historic structures is both more environmentally sustainable and cost effective than new architecture and construction and many believe that the best design occurs at the intersection of old and new. Francoise Astorg Bollack presents 28 examples gathered in the United States and throughout Europe and the Middle East. Some are well known: Mass MOCA Market Santa Caterina in Barcelona, Neues Museum in Berlin, and others are almost anonymous. But all demonstrate a unique and appropriate solution to the problem of adapting historic structures to contemporary uses. This survey of contemporary additions to older buildings is an essential addition to the architectural literature. I have always loved old buildings. An old building is not an obstacle but instead a foundation for continued action. Designing with them is an exhilarating enterprise. Adding to them, grafting, inserting, knitting new pieces into the existing built fabric is endlessly stimulating. Francoise Astorg Bollack.

Restoring Your Historic House Scott T. Hanson, 2023-06-01 Although there are other books about renovating old houses, this is the first that prioritizes the identification and preservation of the historic character-defining features of a house as a starting point in the process. That is the purpose of this book: to describe and illustrate a best practices approach for updating historic homes for modern life in ways that do not attempt to turn an old house into a new one. The book also suggests many ways to save money in the process without settling for cheap or inappropriate solutions. Scott Hanson is a historic building preservation professional and has 40 years experience rehabilitating historic houses. He has illustrated this authoritative book with hundreds of step-by-step photos, illustrations, charts, and decision-making guides. Interspersed throughout are photo essays of 13 restored historic houses representing a range of periods and architectural styles: Italianate, Victorian, Queen Anne, Federal, Colonial, Colonial Revival, Greek Revival, Ranch, Adobe, Craftsman, Shingle, and Rustic. With interior and exterior photography by David Clough, these multi-page features show what can be achieved when a historic home is renovated with a desire to preserve or restore as much historic character as possible.
