Saving The City:

Saving the City Malcolm Schofield, 2003-09-02 Saving the City provides a detailed analysis of the attempts of ancient writers and thinkers from Homer to Cicero to construct and recommend political ideals of statesmanship and ruling of the political community and of how it should be founded in justice Malcolm Schofield debates to what extent the Greeks and Romans deal with the same issues as modern political thinkers

Saving the Sacred Sea Kate Pride Brown, 2018 Civil society is a loaded concept in Russia during the Soviet period the voices that heralded civil society were the same ones that demanded the Union's dissolution So for the Kremlin civil society is not the guarantor of democracy but a force that has the power to end governments This book looks at how civil society negotiates power on a global stage under Russia's authoritarian regime and in a particularly isolated and remote part of the world within environmental activism around Lake Baikal in Siberia More than a mile deep Lake Baikal is the oldest deepest and most voluminous lake on the Earth and home to thousands of endemic species It is also ecologically unique in that it is oxygenated to its maximum depth and supports life even at the lake floor a phenomenon occurring nowhere else on the planet The lake is not just a natural wonder but home to a strong environmentalist community that works tirelessly to protect the lake from human harm Environmentalism at Baikal began in the late 1950s eventually igniting the first national protest in the USSR They have remained active in some form ever since across the years of chaos instability and crisis from the opening of Russia to the forces of globalization to the authoritarianism of Putin in the present This book examines the struggle of Baikal environmentalists to develop a new understanding of civil society under conditions of globalization and authoritarianism Through extended historically informed ethnographic analysis Kate Pride Brown argues that civil society is engaged with political and economic elites in a dynamic struggle within a field of power Understanding the field of power helps to explain a number of contradictions For example why does civil society seem to both bolster democracy and threaten it Why do capitalist corporations and environmental organizations form partnerships despite their general hostility toward each other And why has democracy proven to be so elusive in Russia The field of power posits new answers to these questions as Baikal environmental activists struggle to protect and save their Sacred Sea

Saving the Neighborhood Richard R. W. Brooks, 2013-04-01 Saving the Neighborhood tells the still controversial story of the rise and fall of racially restrictive covenants in America which bestowed an aura of legitimacy upon the wish of many white neighborhoods to exclude minorities It offers insight into the ways legal and social norms reinforce one another to codify and perpetuate intolerance

Saving the Republic Roger Kimball, 2018-01-23 America is embroiled in ideological conflict with the opposing partisan bulwarks of the Left and the Right widening a chasm that threatens the unity of our Republic The tumult in Washington has radiated into our universities homes and relationships from constitutional threats to the imposition on free speech to a sprawling unelected administrative state America is at a tipping point Fortunately Encounter's Broadside and Intelligence series offer indispensable ammunition for intelligent debate on

these critical issues of our time With a staunch allegiance to the truth these timely essays resurrect 18th century pamphleteering to take on everything from the failures of the redistribution of wealth to the twisting of Title IX to the dangers of the increasingly unchecked media bias *Saving the Republic* a collection of Encounter interventions is a necessary resource of critical thought and commonsense on how to safeguard the promise of America *Saving the Republic* is edited by Roger Kimball with contributions from Jay Cost Philip Hamburger Mollie Ziegler Hemingway David B Kopel Greg Lukianoff Andrew C McCarthy Jared Meyer James Piereson Claudia Rosett Avik Roy Robert L Shibley Michael Walsh and Kevin D Williamson Together these authors make the definitive case for liberty and democratic capitalism at a time when they are under siege from the resurgence of collectivist sentiment

A Time of Contrivance for Saving the World Nigel Nicholas, 2019-11-25 Man has not seen peace for centuries man has found a way to wage war on himself for the sake of good peace and prosperity This has only lead to temporary peace between civilisations and results in more war as the world goes on This was greatly beneficial to the Gods of old until a war in the Heavens or Dieu has caused their worlds to crumble They now seek revenge and seek to change the world of man in an attempt to change their reality within their civilization They sent a massager to the earth to speak to a man telling him of the humans history telling him of the sins of men and how they came about Man has become egocentric and self absorbed turning their backs on the scriptures of old leading a life of violence and hatred that transcends into the heavens

Saving the Light at Chartres Victor A. Pollak, 2020-03-16 Built around 1200 and now a UNESCO World Heritage Site that draws more than a million visitors and pilgrims each year Chartres Cathedral is one of the jewels of Western Civilization How Chartres Cathedral and its priceless stained glass today the largest such collection in one location survived World War II s widespread destruction of cultural monuments is one of the great stories of recent history *Saving the Light at Chartres* begins half a decade before World War II when a young French architect developed a plan to save the cathedral s precious stained glass

As war engulfed Europe in the fall of 1939 master glass artisans dismantled the hundreds of windows and soldiers tradesmen and laborers with local volunteers crated thousands of glass panels stowed them in the crypt and months later just before German invaders reached Chartres hauled them across the country to an underground quarry This effort to save the stained glass is but a prologue By August 1944 the U S Army had broken out of Normandy and was racing across France toward Paris and the Seine Chartres became a key battleground Allied bombing blew out the cathedral s temporary window coverings and when the Americans assisted by French Resistance fighters entered the city in the face of unexpectedly heavy defiance and snipers in the cathedral many soldiers believed German artillery spotters were occupying the cathedral s spires When Colonel Welborn Griffith Jr a senior operations officer of Twentieth Corps in Patton s Third Army arrived some were pressing to countermand the army s standing order to avoid the cathedral and threatened to destroy it to neutralize the German spotters Griffith was skeptical He inspected the cathedral himself climbed its towers but found no Germans so he rang the bell waved an American flag and ordered that the cathedral be spared saving it from destruction Griffith would be killed later that day Victor Pollak tells both stories the rescue of the windows and Colonel Griffith s fateful role in a compelling narrative Saving the Light at Chartres honors the government and local teams who saved the windows the Resistance that performed a vital role in the liberation of Chartres Welborn Griffith and the enduring treasure that is Chartres Cathedral

Saving the Soul of Georgia Maurice C. cruel discrimination of racist segregationist policies The irony of defending freedom abroad for the sake of preserving Jim Crow laws at home steeled his resolve to fight for civil rights upon returning from war From his legal work in the case of Hamilton E Holmes and Charlayne Hunter that desegregated the University of Georgia to his defense of Dr Martin Luther King Jr to his collaboration with Thurgood Marshall and his service as the NAACP's chief counsel in Georgia Saving the Soul of Georgia explores the intersections of Hollowell's work with the larger civil rights movement **Saving the Schindler's Daughter** Douglas Boyd,2023-12-21 Lore Schindler was ten years old when her dentist father Harry was arrested by the Gestapo in Berlin and sent to Sachsenhausen concentration camp His wife Grete bought his release by giving all their possessions to the Nazi state Leaving Germany with just 10 Marks each parents and daughter suffered humiliating strip searches at the border This was the start of Lore's ordeal In her first French concentration camp her mother died Her father also died in another camp Orphaned and ill in the huge camp at Gurs she was saved by prisoner nurse Schwester K te but would later have starved to death had not two sisters Elsie and Marthe Liefmann adopted her found food and made her eat it Elsbeth Kasser was a Swiss German social worker in the camp who gave her treats of milk and Swiss cheese to build up the thinnest girl in the camp Another social worker Elisabeth Hirsch used a forged identity card to get Lore out of the camp and took her to La Maison de Moissac a children's home in SW France run by her sister Shatta Simon There several hundred refugee children were hidden from the Nazi occupiers and French fascists who wanted to send the children to the death camps in Poland When it became unsafe to stay in Moissac Lore was adopted by pianist H l ne Gribenski living in a remote village When that too became unsafe she moved her little family into a primitive hovel in the forest to await the Allied victory That Lore survived was due to these courageous women who risked their own lives to save hers After the war she found love in an Israeli kibbutz and moved with her American husband to New York becoming a librarian with Brooklyn Public Library No borrowers ever guessed what her adolescence and burgeoning womanhood had been like in a terrifying land whose language she could not even speak **Saving the World and Healing the Soul** David M. McCarthy,Kurt E.

Blaugher,2017-05-01 Saving the World and Healing the Soul treats the heroic and redemptive trials of Jason Bourne Bruce Wayne Bella Swan and Katniss Everdeen The Bourne films Christopher Nolan's Batman trilogy the Twilight saga and the Hunger Games series offer us stories to live into to make connection between our personal loves and trials and a good order of the world **Saving the Bay** Ann E. Byrnes,2001 For centuries before the arrival of European settlers the Chesapeake Bay's natural bounty and pristine beauty were self-sustaining Today after three centuries of human use and abuse almost everyone agrees that the Bay is fragile and its future uncertain As scientists work to understand the environmental threats and policy makers respond with new regulations ordinary people are increasingly doing their part to ensure a healthier future for the Chesapeake Saving the Bay gathers dozens of these stories and brings them forward as examples of how broadly the coalition to protect the Bay has grown and succeeded Through engaging photographs by Richard A K Dorbin and

moving first person accounts compiled by Ann E Dorbin this book celebrates a new chapter in the history of the Bay one in which people in Maryland Virginia Pennsylvania Washington D C Delaware West Virginia and New York work hand in hand to shape the future of a beloved resource From Americorps volunteer Julie Benintendi s work with shoreline restoration to Mike Ogburn s efforts to build a non polluting electric car from the mountainous outer reaches of the watershed to the mouth of the Bay the people working for the Chesapeake are as diverse and dynamic as the resource itself Here are teachers engineers writers farmers parents and naturalists working with grit and imagination Saving the Bay demonstrates how these unprecedented efforts throughout the Chesapeake Bay region are making a real difference toward creating a better future By bringing these stories to the forefront we hope to educate readers show that individual actions are critical and accentuate positive rather than negative human impacts on the environment Just as the wonder of the Bay is not reserved for experts or old timers neither is the work that lies ahead Therein lies the premise of this project that behind the reports and controversy over the human induced decline of the Bay s health and the path of its future are many people doing their part in different and necessary ways for the future of the watershed from Saving the Bay Saving the Donner Party Richard F.

Kaufman,2014-07-28 Books articles and commentaries have told the story of how the storm of the century in the fall of 1846 trapped eighty one innocent men women and children in the Sierra Nevada Mountains and how brave men risked their lives to save them In Saving the Donner Party author Dr Richard F Kaufman tells the story of the rescuers of the Donner Party During the last two decades Dr Kaufman has compiled a record of historical documents and letters from Sutters Fort State Park and the California State Library He reviews the older literature with a more modern approach introducing orbital satellite studies with panoramic descriptions of travel routes not seen before Using historical weather statistics and tree ring technology he presents a more thorough understanding of the so called storm of the century that enveloped the Donner Party His account focuses on the massive effort and expenditure of resources by the rescue parties involving the progress of the Mexican War going on at that time Saving the Donner Party presents an in depth interpretation of the event with surprising revelations that changed the historical setting and legacy of California adding richly to the literature of this topic and updating the knowledge of the Donner Party episode Saving the Planet Lester Russell Brown,Christopher Flavin,Sandra Postel,1991 Describes an environmental research team s plan for a global economy
