## **Saviors Of The 20th Century Hitler Stalin:**

Saviors of the 20th Century Jim Putnam, 2004-01-01      *A Dictionary of 20th-Century Communism* Silvio Pons, Robert Service, 2022-04-12 An encyclopedic guide to 20th century communism around the world The first book of its kind to appear since the end of the Cold War this indispensable reference provides encyclopedic coverage of communism and its impact throughout the world in the 20th century With the opening of archives in former communist states scholars have found new material that has expanded and sometimes altered the understanding of communism as an ideological and political force A Dictionary of 20th Century Communism brings this scholarship to students teachers and scholars in related fields In more than 400 concise entries the book explains what communism was the forms it took and the enormous role it played in world history from the Russian Revolution through the collapse of the Soviet Union and beyond Examines the political intellectual and social influences of communism around the globe Features contributions from an international team of 160 scholars Includes more than 400 entries on major topics such as Figures Lenin Mao Stalin Ho Chi Minh Pol Pot Castro Gorbachev Events Cold War Prague Spring Cultural Revolution Sandinista Revolution Ideas and concepts Marxism Leninism cult of personality labor Organizations and movements KGB Comintern Gulag Khmer Rouge Related topics totalitarianism nationalism antifascism anticommunism McCarthyism Guides readers to further research through bibliographies cross references and an index      **Hitler, Stalin, and Mussolini** Bruce F. Pauley, 2014-09-15 The fourth edition of Hitler Stalin and Mussolini Totalitarianism in the Twentieth Century presents an innovative comparison of the origins development and demise of the three forms of totalitarianism that emerged in twentieth century Europe Represents the only book that systematically compares all three infamous dictators of the twentieth century Provides the latest scholarship on the wartime goals of Hitler and Stalin as well as new information on the disintegration of the Soviet empire Compares the early lives of Hitler Stalin and Mussolini their ideologies rise to and consolidation of power and the organization and workings of their dictatorships Features topics organized by themes rather than strictly chronologically Includes a wealth of visual material to support the text as well as a thorough Bibliographical Essay compiled by the author      **A Guide to Universal Truths** Robert Thomas Fertig, 2007-01-26 New York Times best selling author Ellen Tanner Marsh What is the ultimate truth about life For centuries learned minds have struggled to seek the answer Now in the groundbreaking and thought provoking book A Guide to Universal Truths explores powerful evidence that we were created by an infinitely superior and perfect Being who gave us free will so that we might evolve spiritually Fertig s book just might have touched on the ultimate answers to the purpose and meaning of life on earth Boldly stated and beautifully written A Guide to Universal Truths is clearly a roadmap to our higher purpose Fertig s book answers most of The God Delusion issues Faith and reason are not only compatible but are essential for a fuller richer spiritual life the author concludes A chapter on Islam Christianity covers theological cultural and historical differences so that one may better appreciate where both sides are coming from Muslims after reviewing these

differences might consider what Christianity offers      French Fortifications, 1715-1815 Jean-Denis G.G. Lepage, 2009-12-21 This book describes and illustrates French fortifications from 1715 the death of Louis XIV to 1815 the fall of Napoleon focusing particularly on the Napoleonic era After an historical background it covers the heritage of the Ancien Regime with the important contributions of Vauban the bastioned defense Gribeauval's reforms in artillery and Montalembert's innovations Chapters explore the style of Napoleonic fortifications siege warfare artillery and engineering corps as well as the Napoleonic achievements in France Italy Germany and the Netherlands including projects that were planned but never completed      **The Folly of War** Donald E. Schmidt, 2005 The Folly of War is a hard hitting critical analysis of American wars in the 20th century that set a pattern for the early 21st century Drawing on a wide range of sources and rigorously marshaling the facts the book concludes that these wars have been futile unnecessary and foolish Rejecting the Left's contention that American foreign policy has been driven by greedy corporate interests the author starts from the premise that average Americans have supported these wars out of a will to do good but have failed in that aim and in the process done much harm This is a disturbing book that raises questions about how we go to war how we fight wars and how we eventually lose wars Many Americans viewed the military defeat in Vietnam as an aberration interrupting a string of foreign military successes This book sees that tragedy as part of a line of politically reckless engagements Driven by a proud self assurance that is often termed American exceptionalism the nation arms itself to the teeth and intrudes into every region pacing on a treadmill of perpetual war to achieve perpetual peace Writing Chapter 13 The War on Terror The Contrived War in 2003 just as the Bush administration was making its fateful decision to invade Iraq Schmidt concluded at that time that the discussion among the principals Bush Cheney Rumsfeld Rice Powell etc was stacked with faulty information and the decision was made on an emotional level rather than a rational one Further he predicted that nothing good would come of the Iraq venture unfortunately that assessment was correct One of the officials in the Bush White House who participated in the pre war discussions admitted the attack was irrational The only reason we went into Iraq is we were looking for somebody's ass to kick Afghanistan was too easy Days of Fire Bush and Cheney in the White House by Peter Baker p 191 Doubleday 2013 At the end of seven major wars and after one million American soldiers have been killed we are no closer to the perfect security we seek      *Fascism Global Rise* Sebastian Farnham, 2025-05-02 Fascism Global Rise explores the widespread emergence of fascist movements between the 1920s and 1940s It examines how diverse societies succumbed to authoritarian ideologies during the interwar period The book highlights the critical role of economic instability the manipulation of nationalism and the effectiveness of propaganda in establishing totalitarian regimes For example hyperinflation and mass unemployment created an environment ripe for extremist ideologies The book employs a comparative analysis of case studies from Europe Asia and South America demonstrating both the shared characteristics and unique adaptations of fascism across different cultures It progresses from the pre conditions that fostered fascism to the core tenets of its ideology Furthermore it dissects

the political strategies used by fascist leaders to seize power and delves into specific regimes like those in Italy Germany and Japan providing a comprehensive understanding of this complex historical phenomenon **Joseph Stalin** David R. Egan, Melinda A. Egan, 2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005 is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom Voices of Trauma Boris Drozdek, John P. landmass possesses the bulk of the global population industrial might and potential military power it touches all four of the great oceans Eurasia is a strategic prize without equal which is why the world has been roiled reshaped and nearly destroyed by clashes over the supercontinent Since the early twentieth century autocratic powers from Germany under Kaiser Wilhelm II to the Soviet Union have aspired for dominance by seizing commanding positions in the world's strategic heartland Offshore sea powers namely the United Kingdom and America have sought to make the world safe for democracy by keeping Eurasia in balance America's rivalries with China Russia and Iran are the next round in this geopolitical game If this new authoritarian axis succeeds in enacting a radically revised international order America and other democracies will be vulnerable and insecure Hal Brands a renowned expert on global affairs argues that a better understanding of Eurasia's strategic geography can illuminate the contours of rivalry and conflict in today's world The Eurasian Century explains how revolutions in technology and warfare and the rise of toxic ideologies of conquest made Eurasia the center of twentieth century geopolitics with pressing implications for the struggles that will define the twenty first

*Between Two Ages*

William Van Dusen Wishard, 2001-06-29 In *Between Two Ages* Van Wishard has provided us with a masterful synthesis of the main currents of history ranging over the centuries with an expert's eye to identify the key trends in economics technology and culture that have led us to this place in time By itself this would be an important contribution to our understanding But the true significance of *Between Two Ages* lies in his placing this analysis within a profoundly moral and ethical framework Van Wishard has not simply diagnosed the reasons for our spiritual malaise He has also suggested how each of us can overcome this malaise and find a larger purpose or meaning to our lives From the foreword by Dr Mitchell B Reiss Dean of International Affairs College of William it is change at the very core of life Culture smashing change Identity shattering change Soul crushing change Prior generations faced change within a context of stable institutions that functioned more or less effectively Earlier generations had a more stable if less comfortable framework as well as more clearly defined reference points Our era doesn't have such guides for all of America's institutions from government to family from business to religion are in upheaval The past century has seen civilized life increasingly ripped from its moorings The immutable certainties that anchored our ancestors no longer seem to hold in a world where the tectonic plates of life are clashing where human antagonisms obliterate tens of thousands of people in Africa Bosnia or Chechnya in a matter of a few days or weeks where a stray bullet ends the life of an elderly lady quietly walking home from church in Washington D C In so many ways a life that has lost its essential meaning has cut giant swaths across humanity Clearly we have been standing at a unique historical dividing line the end of the modern era as well as the Industrial Age the end of the colonial period the end of the Atlantic based economic political and military global hegemony the end of America's culture being drawn primarily from European sources the end of the masculine patriarchal hierarchical epoch and as Joseph Campbell suggests the end of the Christian eon Obviously one era doesn't stop and a new one start in a week Year seven decades or generations of overlap take place The

sense of an age ending and something new emerging was evident during the earliest years of the 20th century In 1913 Harvard philosopher George Santayana noted The civilization characteristic of Christendom has not yet disappeared yet another civilization has begun to take its place In 1928 at the height of the Roaring Twenties historian Will Durant wrote Human conduct and belief are now undergoing transformations profounder and more disturbing than any since the appearance of wealth and philosophy put an end to the tradition *The Courage to Think for Yourself* Leszek

Figurski,2012-10-04 This book was written with the purpose of proclaiming the duty of each individual to search for truth and the meaning of existence The twentieth century produced such monsters as Hitler Stalin and Pol Pot who revealed the deadly drive of people who blindly followed these tyrants Ignorance passivity and sheepish readiness to sell one s life into the hands of self made political saviors have created the sad reality of our times Our world today is characterized by a growing cult of political power There is an almost complete neglect of the individual person and of moral values in general We should always remember that those who neglect reflection sentence themselves to repeat the same catastrophes and mistakes Thinking requires determination and endurance It is not easy It demands courage to question the most fundamental convictions that may be accepted by others without any reflection or evaluation Thinking requires courage because it involves a certain risk and may lead to unexpected conclusions Above all passion for truth is necessary for every honest seeker The Socratic saying an unexamined life is not worth living is as true today as it ever was before **Political Leadership and Charisma**

Michael Brecher,2016-09-23 This book is unique in illuminating and comparing the charismatic role of two political leaders Jawaharlal Nehru and David Ben Gurion along with assessments of many other 20th century political leaders Its aim is to enrich our knowledge of an important dimension of global politics charismatic leadership The central role of political leaders in shaping the behavior of states has been universally recognized since the political systems of antiquity in East Asia the Middle East and Europe With the massive increase of independent states since the end of World War II from 55 initial members of the United Nations to more than 200 today and especially the emergence of awesome weapons of mass destruction the centrality of political leaders in the survival of the planet has grown exponentially Both India and Israel have experienced the crucial role of charismatic leaders Nehru and Ben Gurion who dominated their states and societies for a near identical formative period in their political independence 1947 64 and 1948 63 respectively as charismatic leaders Their impact Brecher shows extended far beyond their states to both their geographic regions and global politics Worrying

about Race, 1985-1995 Sanford Pinsker,1996 Race dominates the American agenda as few topics do but it is a difficult subject to worry about publicly The essays and reviews in Pinsker s collection focus on the need to sharpen our intellectual debate about race to address the economic conditions that foster despair among certain racial groups and to recognize the differences between racial groups as well as the commonalties that bind us together as Americans **A Pope and a**

**President** Paul Kengor,2017-04-18 A Singular Bond That Changed History Even as historians credit Ronald Reagan and

Pope John Paul II with hastening the end of the Cold War they have failed to recognize the depth or significance of the bond that developed between the two leaders Acclaimed scholar and bestselling author Paul Kengor changes that In this fascinating book he reveals a singular bond which included a spiritual connection between the Catholic pope and the Protestant president that drove the two men to confront what they knew to be the great evil of the twentieth century Soviet communism Reagan and John Paul II almost didn't have the opportunity to forge this relationship just six weeks apart in the spring of 1981 they took bullets from would be assassins But their strikingly similar near death experiences brought them close together to Moscow's dismay A Pope and a President is the product of years of research Based on Kengor's tireless archival digging and his unique access to Reagan insiders the book reveals The inside story on the 1982 meeting where the president and the pope confided their conviction that God had spared their lives for the purpose of defeating communism Captivating new information on the attempt on John Paul II's life including a previously unreported secret CIA investigation was Moscow behind the plot The many similarities and the spiritual bond between the pope and the president and how Reagan privately spoke of the DP the Divine Plan to take down communism New details about how the Protestant Reagan became intensely interested in the secrets of Fátima which date to the reported apparitions of the Virgin Mary at Fátima Portugal starting on May 13 1917 sixty four years to the day before John Paul II was shot A startling insider account of how the USSR may have been set to invade the pope's native Poland in March 1981 only to pull back when news broke that Reagan had been shot Nancy Reagan called John Paul II her husband's closest friend Reagan himself told Polish visitors that the pope was his best friend When you read this book you will understand why As kindred spirits Ronald Reagan and John Paul II united in pursuit of a supreme objective and in doing so they changed history *Ivan the Terrible* Xavier Grimm
