**Seeing Red** Pauline Sameshima, 2007 A brilliant and daring piece of scholarship this book will raise eyebrows and spark much debate It does not simply break new ground it breaks all the rules ultimately compelling us to examine and embrace scholarship in fresh innovative ways Seeing Red is based on Pauline Sameshima s doctoral dissertation Winner of the 2007 Arts Based Educational Research ABER Outstanding Dissertation Award by the American Educational Research Association AERA This award is for the best dissertation that explores is an exemplar of and pushes the

boundaries of arts based educational research The book showcases a PhD dissertation written in the form of an epistolary bildungsroman a didactic novel of personal developmental journeying The work is a fiction letters from a graduate student to the professor she is in love with embedded in developmental understanding of living the life of a teacher researcher The work shares the possibilities of how artful research informs processes of scholarly inquiry and honours the reader's multi perspective as integral to the research project's transformative potential Parallax is the apparent change of location of an object against a background due to a change in observer position or perspective shift The concept of parallax encourages researchers and teachers to acknowledge and value the power of their own and their readers and students shifting subjectivities and situatedness which directly influence the constructs of perception interpretation and learning The novel format ties themes and characters together just as storytelling can bind theory and practice Norman Denzin 2005 supports the pedagogical and libratory nature of the critical democratic storytelling imagination He hails this book as bold innovative a wild transformative text almost unruly a new vision for critical reflexive inquiry The love story and issues of teacher learner role boundaries are controversial and largely unspoken of in educational settings and the letter format is voyeuristic In this sense the audience is being given a peek a look at the unrevealed One of the advantages of the epistolary novel is its semblance of reality and the difficulty for readers to distinguish the text from genuine correspondence Wurzbach 1969 The genre allows the reader access to the writing character's intimate thoughts without perceived interference from the author's manipulation and conveys events with dramatic and sensational immediacy Carafi 1997

**Seeing Red** Mark Cronlund Anderson, Carmen L. Robertson, 2011-09-02 The first book to examine the role of Canada's newspapers in perpetuating the myth of Native inferiority *Seeing Red* is a groundbreaking study of how Canadian English language newspapers have portrayed Aboriginal peoples from 1869 to the present day It assesses a wide range of publications on topics that include the sale of Rupert's Land the signing of Treaty 3 the North West Rebellion and Louis Riel the death of Pauline Johnson the outing of Grey Owl the discussions surrounding Bill C 31 the Bended Elbow

standoff at Kenora Ontario and the Oka Crisis The authors uncover overwhelming evidence that the colonial imaginary not only thrives but dominates depictions of Aboriginal peoples in mainstream newspapers The colonial constructs ingrained in the news media perpetuate an imagined Native inferiority that contributes significantly to the marginalization of Indigenous people in Canada That such imagery persists to this day suggests strongly that our country lives in denial failing to live up to its cultural mosaic boosterism      **Seeing Red** Bailey Hannah,2024-04-24 In this spicy romance from the author of *Alive and Wells* and *Change of Hart* a small town sweetheart finds herself unexpectedly pregnant after a one night stand binds her to a local cowboy who has had a crush on her for years She lives by the rules He lives to break them Cassidy Bowman has strict rules to uphold her good girl reputation she doesn't date the Wells Ranch locals and she definitely doesn't sleep with men she isn't dating But after a run in with her ex boyfriend and a few too many drinks she's ready to buck those rules and allow herself one night of recklessness Local cowboy Chase Red Thompson on the other hand has never met a rule he didn't love breaking With a long time crush on Cassidy he's more than willing to accept her offer of a one night stand and her one condition he must agree to never speak of it again That is until two pink lines render Cassidy's entire rule book null and void Cassidy isn't looking for a relationship with the rough and tumble cowboy and Red doesn't need anyone to tell him he's not good enough for the sweetheart of Wells Canyon So the two make another agreement they'll be friends and co parents nothing more But as their carefully constructed boundaries begin to blur Cassidy might just realize that perhaps some rules are worth breaking Don't miss any of Bailey Hannah's steamy Wells Ranch series **ALIVE AND WELLS SEEING RED CHANGE OF HART**      **Seeing Red** Lone Mørch,2025-07-30 *Seeing Red* A Women's Quest for Truth Power and the Sacred is an intimate memoir about one woman's search for personal power a journey of climbing inner and outer mountains that takes her to the holy Mt Kailas in Tibet through a seven year marriage and into the arms of the fierce goddess Kali where she discovers her powerful feminine self This is the story of Denmark native Lone Mørch's transformation a story of love and passion and also a story of self betrayal After realizing that she's given up on herself Mørch has to strip herself bare lose everything she's held dear and tear down everything she's ever built in order to reclaim her life and sense of self As much a memoir about coming into one's own as it is a love affair with the Himalayas *Seeing Red* takes the reader on an unforgettable journey of creation and destruction      **Rose Sees Red** Cecil Castellucci,2010-08-01 Partly based on the author's own experiences at the famous Manhattan high school for the performing arts this novel explores friendship freedom and the art of challenging convention Set in New York in the 1980s this story of two ballet dancers one American one Russian recounts the unforgettable night they spend in the city and celebrates the friendship they form despite their cultural and political differences      **Cognitive Development** David Klahr,J. G. Wallace,2022-02-16 Originally published in 1976 the authors present a theory of cognitive development based upon an information processing approach This approach leads to the presentation of precise models of performance on a number of tasks derived from a set of critical quantitative concepts

elementary quantification number concepts conservation and transitivity These models encompass both early and late developmental stages and a process model of the developmental mechanism itself is outlined Here is one of the first attempts to apply the information processing view of cognitive psychology to developmental issues raised by empirical work in the Piagetian tradition It includes an extensive analysis of the processing demands of several of the classic tasks and describes the development of a system capable of performing a wide range of other tasks including the ability to be self modifying It provides an introduction to general concepts and detailed properties of cognitive models stated as production systems It will be most valuable for students in cognitive development and related courses in developmental cognitive and educational psychology as well as computer science

**The Sound and the Fury in the Garden of Eden** John P. Anderson, 2002 This non academic author brings the Garden of Eden myth alive as sophisticated poetry and a polemic for women and the consciousness of freedom The myth is explored line by line using the tools of literary analysis and modern ideas including Freudian concepts The analysis shows how its J author thought to be a woman in the royal court of Judah around 1000 BCE uses the techniques of sound association puns and other sophisticated means to get her messages across The analysis probes how after thousands of years this myth still speaks to us about the critical human experiences of sex and death and their bigger brothers freedom and limitation

**Biological Learning and Control** Reza Shadmehr, Sandro Mussa-Ivaldi, 2023-10-31 A novel theoretical framework that describes a possible rationale for the regularity in how we move how we learn and how our brain predicts events In Biological Learning and Control Reza Shadmehr and Sandro Mussa Ivaldi present a theoretical framework for understanding the regularity of the brain s perceptions its reactions to sensory stimuli and its control of movements They offer an account of perception as the combination of prediction and observation the brain builds internal models that describe what should happen and then combines this prediction with reports from the sensory system to form a belief Considering the brain s control of movements and variations despite biomechanical similarities among old and young healthy and unhealthy and

humans and other animals Shadmehr and Mussa Ivaldi review evidence suggesting that motor commands reflect an economic decision made by our brain weighing reward and effort This evidence also suggests that the brain prefers to receive a reward sooner than later devaluing or discounting reward with the passage of time then as the value of the expected reward changes in the brain with the passing of time because of development disease or evolution the shape of our movements will also change The internal models formed by the brain provide the brain with an essential survival skill the ability to predict based on past observations The formal concepts presented by Shadmehr and Mussa Ivaldi offer a way to describe how representations are formed what structure they have and how the theoretical concepts can be tested Red R.C. **A Red in the House** Stephen Fleischman, 2004 What did CBS and ABC not know about Steve Fleischman during his thirty years in network news and why did they not know it In *A Red in the House* Stephen Fleischman tells of the political landmines in the mainstream media that marked the Cold War era Although the Communist Party disintegrated out from under me in the mid 1950s I found Marxism a valuable tool for analyzing the political and economic world around me During those thirty years I worked with the best in mainstream broadcast journalism Walter Cronkite Ed Murrow Fred Friendly Dan Rather Howard K Smith Eric Sevareid Peter Jennings Charles Kuralt Harry Reasoner Roone Arledge Bill Redeker Brit Hume and more Stephen Fleischman *A Red in the House* is replete with anecdotes and sidebar stories relating to the inner conflicts in the making of the TV news documentary *A Red in the House* portrays a graphic picture of how the mainstream media arrived at the sorry state it's in today With five corporate media giants controlling most of what we see hear and read this story is even more relevant today

**Seeing Red** Nicholas Humphrey, 2006-03-31 Consciousness matters Arguably it matters more than anything The purpose of this book is to build towards an explanation of just what the matter is Nicholas Humphrey begins this compelling exploration of the biggest of big questions with a challenge to the reader and himself What's involved in seeing red What is it like for us to see someone else seeing something red Seeing a red screen tells us a fact about something in the world But it also creates a new fact a sensation in each of our minds the feeling of redness And that's the mystery Conventional science so far hasn't told us what conscious sensations are made of or how we get access to them or why we have them at all From an evolutionary perspective what's the point of consciousness Humphrey offers a daring and novel solution arguing that sensations are not things that

happen to us they are things we do originating in our primordial ancestors expressions of liking or disgust Tracing the evolutionary trajectory through to human beings he shows how this has led to sensations playing the key role in the human sense of Self The Self as we now know it from within seems to have fascinating other worldly properties It leads us to believe in mind body duality and the existence of a soul And such beliefs even if mistaken can be highly adaptive because they increase the value we place on our own and others lives Consciousness matters Humphrey concludes with striking paradox because it is its function to matter It has been designed to create in human beings a Self whose life is worth pursuing
