Networks of Modernism Wesley Beal, 2015-10-15 *Networks of Modernism* offers a new understanding of American modernist aesthetics and introduces the idea that networks were central to how American moderns thought about their culture in their dramatically changing milieu While conventional wisdom holds that the network rose to prominence in the 1980s and 1990s in the context of information technologies digitization is only the most recent manifestation of networks in intellectual history Crucial developments in modern America provide another archive of network discourses well before the advent of the digital age The rise of the railroad recast the American landscape as an assortment of interconnected hubs The advent of broadcast radio created a decentralized audience that was at once the medium's strength and its weakness The steady and intertwined advances of urbanization and immigration demanded the reconceptualization of community and ethnic identity to replace the failing melting pot metaphor for the nation Indeed the signal developments of the modern era eroded social stratification and reorganized American society in a nodal decentralized and interpenetrating form what today we would label a distributed network that is fully flattened and holds no clustered centers of power In this ferment of social upheaval and technological change the moderns found what we would today term the network though they did not have the vocabulary for it that we do now to be a versatile model for their aesthetic experiments in representing social space and social relations Whether they used the figuration of the network as a kind of formal experiment to negotiate the tensions between dispersal and unity fragment and totality or took the network as a subject in itself as seen when dealing with crowds or public spaces the network was a way for writers and artists to conceptualize and explore their rapidly changing society Through readings of the works of Randolph Bourne Jean Toomer Anita Loos John Dos Passos and Nathanael West *Networks of Modernism* positions the network as the defining figure of American modernist aesthetics and explores its use as a conceptual tool used to think through the rapid changes in American society

St. Nicholas Mary Mapes Dodge, 1919 **Calcutta Review**, 1924 *Fear, Power, and Politics* Mary Cardaras, 2013-05-16 The Iraq War of March 19 2003 was an implausible war at the outset We now understand that it could

have been averted and never should have been waged How and why did it begin Who was responsible This book offers a new perspective on the Iraq War and explains the dynamic relationships between the George W Bush administration the United States Congress and the national news media It is based on the multiple streams model of political change by John Kingdon which says that if a unique combination of political policy and problem streams collide under the right circumstances they can create a window of opportunity for a shift in policy It was the terrorist attacks of September 11 2001 which set the stage for the emergence of three dynamic streams in the country Fear power and a contentious political climate converged to produce not only a dramatic new foreign policy but also a war with Iraq a country which had not provoked or threatened the United States Fear power and a tense political climate also influenced institutional behavior and exposed the failures of 1 The executive branch in the administration of George W Bush 2 The United States Congress and 3 the national news media All are designed and are differently responsible to protect the interests of the American people Errors in judgment have happened throughout history with other administrations with other Congresses and with the news media However with regard to the Iraq War it was a matter of degree and extent especially for the President of the United States Both the Congress and the news media were also experiencing colossal institutional changes which influenced and hindered their performances However all were culpable in helping to create the Iraq war which today stands as one of the longest military conflicts in United States history Historical Review United States.
