The Trouble with Boys Peg Tyre, 2009-08-11 From the moment they step into the classroom boys begin to struggle They get expelled from preschool nearly five times more often than girls in elementary school they're diagnosed with learning disorders four times as often By eighth grade huge numbers are reading below basic level And by high school they're heavily outnumbered in AP classes and save for the realm of athletics show indifference to most extra curricular activities Perhaps most alarmingly boys now account for less than 43 percent of those enrolled in college and the gap widens every semester The imbalance in higher education isn't just a boy problem though Boys decreasing college attendance is bad news for girls too because admissions officers seeking balanced student bodies pass over girls in favor of boys The growing gender imbalance in education portends massive shifts for the next generation how much they make and whom they marry Interviewing hundreds of parents kids teachers and experts award winning journalist Peg Tyre drills below the eye catching statistics to examine how the educational system is failing our sons She explores the convergence of culprits from the emphasis on high stress academics in preschool and kindergarten when most boys just can't tolerate sitting still to the outright banning of recess from the demands of No Child Left Behind with its rigid emphasis on test taking to the boy unfriendly modern curriculum with its focus on writing about feelings and its purging of high action reading material from the rise of video gaming and schools' unease with technology to the lack of male teachers as role models But this passionate clearheaded book isn't an exercise in finger pointing Tyre the mother of two sons offers notes from the front lines the testimony of teachers and other school officials who are trying new techniques to motivate boys to learn again one classroom
