The Science of Discworld III Terry Pratchett,Ian Stewart,Jack Cohen,2013-05-06 Roundworld is in trouble again and this time it looks fatal Having created it in the first place the wizards of Unseen University feel vaguely responsible for its safety They know the creatures who lived there escaped the impending Big Freeze by inventing the space elevator they even intervened to rid the planet of a plague of elves who attempted to divert humanity onto a different time track But now it s all gone wrong Victorian England has stagnated and the pace of progress would embarrass a limping snail Unless something drastic is done there won t be time for anyone to invent spaceflight and the human race will be turned into ice pops Why though did history come adrift Was it Sir Arthur Nightingale s dismal book about natural selection Or was it the devastating response by an obscure country vicar called Charles Darwin whose bestselling *Theology of Species* made it impossible to refute the divine design of living creatures Either way it s no easy task to change history as the wizards discover to their cost Can the God of Evolution come to humanity s aid and ensure Darwin writes a very different book And who stopped him writing it in the first place
