Modern Love David Shumway, 2003-08 My ideas of romance came from the movies said Woody Allen and it is to the movies as well as to novels advice columns and self help books that David Shumway turns for his history of modern love Modern Love argues that a crisis in the meaning and experience of marriage emerged when it lost its institutional function of controlling the distribution of property and instead came to be seen as a locus for feelings of desire togetherness and loss Over the course of the twentieth century partly in response to this crisis a new language of love intimacy emerged not so much replacing but rather coexisting with the earlier language of romance Reading a wide range of texts from early twentieth century advice columns and their late twentieth century antecedent the relationship self help book to Hollywood screwball comedies and from the relationship films of Woody Allen and his successors to contemporary realist novels about marriages Shumway argues that the kinds of stories the culture has told itself have changed Part layperson's history of marriage and romance part meditation on intimacy itself Modern Love will be both amusing and interesting to almost anyone who thinks about relationships and who doesn't

Old Stories, New Readings Miriam López-Rodríguez, Alfonso Ceballos Muñoz, Inmaculada Pineda-Hernández, 2015-02-27 Whether imaginary or based on real events stories are at the core of any culture Regardless of their length their rhetoric strategies or their style humans tell

stories to each other to express their innermost fears and needs to establish a point within an argument or to engage their listeners in a fabricated composition Stories can also serve other purposes such as being used for entertainment for education or for the preservation of certain cultural traits Storytelling is at the heart of human interaction and as such can foster a dialogic narrative between the person creating the story and their audience In literature this dialogue has been traditionally associated with narrative in general and with the novel in particular However other genres also make use of storytelling including drama This volume explores the ways in which American theatre from all eras deals with this how stories are told onstage what kinds of stories are recorded in dramatic texts and how previously neglected realities have gained attention through the American playwright s telling or retelling of an event or action The stories unfolded in American drama follow recent narratology theories particularly in the sense that there is a greater preference for those so called small stories over big stories Despite the increase in the production of this type of texts and the growing interest in them in the field of narratology small stories are literary episodes that have been granted less critical attention particularly in the analysis of drama As such this volume fills a void in the study of the stories presented on the American stage

Bible and Cinema Adele Reinhartz, 2022-03-30 Bible and Cinema An Introduction is a comprehensive examination of how the Bible has been used and represented in mainstream cinema to develop its plots characters and themes The book considers two general types of films Bible movies that retell biblical stories such as the Exodus and the life of Jesus and Bible related movies that make use of biblical books stories verses and figures and Bibles themselves to tell non biblical often fictional narratives Topics covered include the contribution of Bible and Bible related movies to the history of the Bible s reception the ways in which filmmakers make use of scripture to address and reflect their own time and place the Bible as a vehicle through which films can address social and political issues reflect human experiences and emotions explore existential issues such as evil and death and express themes such as destruction and redemption the role of the Bible as a source of ethics and morality and how this role is both perpetuated and undermined in a range of contemporary Hollywood films and film as a medium for experiences of transcendence and the role of the Bible in creating such experiences This thoroughly updated second edition includes insightful analysis of films such as Noah Gods and Men Mary Magdalene and The Shawshank Redemption paying attention to visual and aural elements as well as plot character and dialogue The book also includes pedagogical resources including discussions of film theory as well as key words and discussion questions Teachers students and anyone interested in the intersection of Bible and cinema will find this an invaluable guide to a growing field
