compliant and often difficult and domineering Whether as a literary trope or perhaps merely as a human response to the problems of love in the real world the principal focus of these poems is the poet himself and his failures foolishness and delusions By the time he was in his forties Ovid was Rome s most important living poet his *Metamorphoses* a kaleidoscopic epic poem about love and hatred among the gods and mortals is one of the most admired and influential books of all time In AD 8 Ovid was exiled by Augustus to Romania for reasons that remain obscure He died there in AD 17 The *Amores* were originally published in five books but reissued around 1 AD in their current three book form This edition of the first book of the collection contains the complete Latin text of Book 1 along with commentary notes and full vocabulary Both entertaining and thought provoking this book will provide an invaluable aid to students of Latin and general readers alike This book contain embedded audio files of the original text read aloud by Aleksandra Szypowska
