Baquiran,Tena M. Dodds,2020-02-24 We have the ability to master our lives when we realize this simple truth we are always in control of our thoughts and we don't have to believe everything that we think This realization is the moment everything will change By having this control we are able to capture our true essence and live the authentic lives we were meant to live I long for home LoveYourself A Guide to Awakening the Soul and Putting the Ego to Sleep is a collection of personal stories that touches on everyday thought provoking life lessons that can help one become empowered on their journey to self love By taking complete responsibility for our lives we are able to open the door to a beautiful relationship with ourselves We are rarely taught that happiness is an inside job and that our thoughts create our own personal realities The journey to self love can be such a strenuous process Our real life experiences are strategically placed within our timelines as a way for the Universe to help us find our true authentic selves Everything we endure is a test and after every storm is a deep calm where we find ourselves a little stronger a little wiser a little more aware Karen A Baquiran **Youth Devotions** Josh McDowell,Ed Stewart,2003-08-04 Presents Scripture verses and readings for each day of the year designed to help young people make good choices in their daily lives **Indirect Pedagogy** Herner Saeverot,2013-02-11 While existential issues perhaps concern people the most today's education is not as preoccupied with such issues Instead education is becoming more uniform and streamlined more and more one sidedly directed towards what is useful The purpose of this book is to focus on education's existential dimension Such a focus requires at least three things Firstly we need to justify why it is necessary to reconnect with existentialism in education Secondly we need to undergo an examination of the quality of existential education so that we can have a basis as to what kind of educational interests teachers should have Thirdly we need to gain knowledge about how teachers may teach in light of existential matters However to teach in light of existence is

highly paradoxical in that existence cannot be forced on someone but is rather a subjective matter Teaching which is non ironical or too direct can thus be very problematic concerning existential issues The reason being that there is no objective truth in terms of existence There is only a matter of subjective or existential truth which is only true for the single individual Therefore the book suggests that the approach teachers take must be discrete and indirect so as to create room for students to take responsibility for their subjective truth Such an indirect pedagogy is not a programme but rather a form of existential education The overall aim of the book is by way of introducing and developing the concept of indirect pedagogy to extend and reinvent the language of teaching
