provides a richer and more nuanced understanding of a term that despite its vital importance to the Victorians has thus far lacked a clear definition Each chapter explores a different facet of vice Firstly the book seeks to define exactly what vice meant to the Victorians exploring how the language of vice was used as a tool to beat down opposition and dissent It considers the cultural geography and spatial dimensions of vice in the public and private spheres before moving on to look at specific vices the unholy trinity of drink sex and gambling Finally it shifts from vice to virtue and the efforts of moral reformers and reassesses the relationship between vice and respectability in Victorian life In his lively and engaging discussion Mike Huggins draws on a range of theory and exploits a wide variety of texts and representations from the periodical press parliamentary reports and Acts novels obscene publications paintings and posters newspapers sermons pamphlets and investigative works This will be an illuminating text for undergraduates studying Victorian Britain as well as anyone wishing to gain a more nuanced understanding of Victorian society

**Charity, Philanthropy and Reform** Hugh Cunningham, Joanna Innes, 1998-09-12 The essays in this volume explore continuities and changes in the role of philanthropic organizations in Europe and North America in the period around the French Revolution They aim to make connections between research on the early modern and late modern periods and to analyze policies towards poverty in different countries within Europe and across the Atlantic Cunningham and Innes highlight the new role for voluntary organizations emerging in the late eighteenth century and draws out the implications of this for received accounts of the development of welfare states

*Merseypride* John Belchem, 2006-05-01 Once the second city of empire now descended by seemingly irreversible economic and demographic decline into European Union Objective One status Liverpool defies historical categorization Located at the intersection of competing cultural economic and geo political formations it stands outside the main narrative frameworks of modern British history the exception to general norms What was it that established Liverpool as different or apart In exploring this proverbial exceptionalism these essays by a leading scholar of the history of Liverpool and of the Irish show how a sense of apartness has always been crucial to Liverpool s identity While repudiated by some as an external imposition an unmerited stigma originating from the slave trade days or the Irish famine influx Liverpool s otherness has been upheld and inflated in self referential myth a Merseypride that has shown considerable ingenuity in adjusting to the city s changing fortunes The first stage towards an urban biography of Liverpool these essays in cultural history reconstruct the city s past through changes in image identity and representation Among the topics considered are Liverpool s problematic projection of itself through history and heritage the belated emergence of scouse an accent exceedingly rare as cultural badge and signifier the origins and dominance of Toryism in popular political culture the deepest and most enduring political deviance among Victorian workers at odds with present day perceptions of Merseyside militancy and an investigation of the crucial sites the

Irish pub and the Catholic parish where the Liverpool Irish identity was constructed contested and continued seemingly immune to the normal processes of ethnic fade The final section offers comparative methodological and theoretical perspectives embracing North America Australia and other European second cities

**Secure from Rash Assault** James Winter, 2023-09-01 Nineteenth century Britain led the world in technological innovation and urbanization and unprecedented population growth contributed as well to the rash assault to quote Wordsworth on Victorian countrysides Yet James Winter finds that the British environment was generally spared widespread ecological damage Drawing from a remarkable variety of sources and disciplines Winter focuses on human intervention as it not only destroyed but also preserved the physical environment Industrial blight could be contained he says because of Britain's capacity to import resources from elsewhere the conservative effect of the estate system and certain intrinsic limitations of steam engines The rash assault was further blunted by traditional agricultural practices preservation of forests and a growing recreation industry that favored beloved landscapes Winter's illumination of Victorian attitudes toward the exploitation of natural resources offers a valuable preamble to ongoing discussions of human intervention in the environment

**Living in sin** Ginger Frost, 2013-07-19 Living in sin is the first book length study of cohabitation in nineteenth century England based on research into the lives of hundreds of couples Common law marriages did not have any legal basis so the Victorian courts had to wrestle with unions that resembled marriage in every way yet did not meet its most basic requirements The majority of those who lived in irregular unions did so because they could not marry legally Others chose not to marry from indifference from class differences or because they dissented from marriage for philosophical reasons This book looks at each motivation in turn highlighting class gender and generational differences as well as the reactions of wider kin and community Frost shows how these couples slowly widened the definition of legal marriage preparing the way for the more substantial changes of the twentieth century making this a valuable resource for all those interested in Gender and Social History

**Nostalgic Postmodernism** Christian Gutleben, 2021-10-18 Why do so many contemporary British novels revert to the Victorian tradition in order to find a new source of inspiration What does it mean from an ideological point of view to build a modern form of art by resurrecting and recycling an art of the past From a formal point of view what are the aesthetic priorities established by these postmodernist novels Those are the main questions tackled by this study intended for anybody interested in the aesthetic and ideological evolution of very recent fiction What this analysis ultimately proposes is a reevaluation and a redefinition of postmodernism such as it is illustrated by the British novels which paradoxically both praise and mock honour and debunk imitate and subvert their Victorian models Unashamedly opportunistic and deliberately exploiting the spirit of the time this late form of postmodernism cannibalizes and reshapes not only Victorianism but all the

other previous aesthetic movements including early postmodernism

### **The Victorians and Sport** Mike

Huggins, 2004-12-17 Many of the sports that have spread across the world from athletics and boxing to golf and tennis had their origins in nineteenth century Britain They were exported around the world by the British Empire and Britain's influence in the world led to many of its sports being adopted in other countries Americans however liked to show their independence by rejecting cricket for baseball The Victorians and Sport is a highly readable account of the role sport played in both Victorian Britain and its empire Major sports attracted mass followings and were widely reported in the press Great sporting celebrities such as the cricketer Dr W G Grace were the best known people in the country and sporting rivalries provoked strong loyalties and passionate emotions Mike Huggins provides fascinating details of individual sports and sportsmen He also shows how sport was an important part of society and of many people's lives

### **Carceral Mobilities** Jennifer

Turner, Kimberley Peters, 2016-12-01 Mobilities research is now centre stage in the social sciences with wide ranging work that considers the politics underscoring the movements of people and objects critically examining a world that is ever on the move At first glance the words carceral and mobilities seem to sit uneasily together This book challenges the assumption that carceral life is characterised by a lack of movement Carceral Mobilities brings together contributions that speak to contemporary debates across carceral studies and mobilities research offering fresh insights to both areas by identifying and unpicking the manifold mobilities that shape and are shaped by carceral regimes It features four sections that move the reader through the varying typologies of motion underscoring carceral life tension circulation distribution and transition Each mobilities led section seeks to explore the politics encapsulated in specific regimes of carceral movement With contributions from leading scholars and a range of international examples this book provides an authoritative voice on carceral mobilities from a variety of perspectives including criminology sociology history cultural theory human geography and urban planning This book offers a first port of call for those examining spaces of detention asylum imprisonment and containment who are increasingly interested in questions of movement in relation to the management control and confinement of populations

### **Flat Racing and British Society, 1790-1914** Mike

Huggins, 2014-06-03 2001 North American Society for Sports History Book of the Year This volume studies the formative period of racing between 1790 and 1914 This was a time when despite the opposition of a respectable minority attendance at horse races betting on horses or reading about racing increasingly became central leisure activities of much of British society

Family History in Lancashire Andrew Gritt, 2020-07-13 This book explores the history of the family in Lancashire during and after

industrialisation The family is society's most basic building block and as each contributor shows its ability to adapt to circumstances is one of its most enduring qualities Economic change created social stresses which whilst resulting in administrative and institutional change were primarily absorbed within family groups Indeed it could be argued that the family was society's most effective safety valve and shock absorber as individuals responded to the pressures created by

industrialisation with its associated problems This book brings together the work of leading historians who have each made unique contributions to our understanding of the family in the North West
