inequality in voting rights and opens the door to manipulation of presidential elections by foreign and domestic enemies of democracy Electoral Bait Switch is prescriptive and accessible to the general reader The current Electoral Vote system presents a severe and growing threat to democracy in the United States It has thwarted the will of a majority of the voters twice in the last five presidential elections 2000 and 2016 by elevating to office a candidate who received only a minority of the vote This system is a distortion of the system envisioned by Alexander Hamilton James Madison and the other framers of the Constitution If it is not challenged and overturned we are likely to face a continual series of electoral and constitutional crises The constitutional right of Americans to an equal vote in presidential elections is being violated by this system on a massive scale The value of an individual vote varies as much as three to one from state to state and there are no two states where voters have the same voting power The current Elector system discriminates heavily against minority and poorer voters The winner-take-all method of allocating Electoral votes also results in large pockets of useless votes and a system in which where you vote counts for far more than how you vote Most ominously evidence is now clear that the Electoral Vote system has opened the door for voter suppression and manipulation of elections by domestic and foreign conspirators
