Lp Reporting America At War An Oral History:

The Hungry World Nick Cullather, 2011-04-01 Food was a critical front in the Cold War battle for Asia Where Communism goes hunger follows was the slogan of American nation builders who fanned out into the countryside to divert rivers remodel villages and introduce tractors chemicals and genes to multiply the crops consumed by millions This green revolution has been credited with averting Malthusian famines saving billions of lives and jump starting Asia s economic revival Bono and Bill Gates hail it as a model for revitalizing Africa s economy But this tale of science triumphant conceals a half century of political struggle from the Afghan highlands to the rice paddies of the Mekong Delta a campaign to transform rural societies by changing the way people eat and grow food The ambition to lead Asia into an age of plenty grew alongside development theories that targeted hunger as a root cause of war Scientific agriculture was an instrument for molding peasants into citizens with modern attitudes loyalties and reproductive habits But food policies were as contested then as they are today While Kennedy and Johnson envisioned Kansas style agribusiness guarded by strategic hamlets Indira Gandhi Marcos and Suharto inscribed their own visions of progress onto the land Out of this campaign the costliest and most sustained effort for development ever undertaken emerged the struggles for resources and identity that define the region today As Obama revives the lost arts of Keynesianism and counter insurgency the history of these colossal projects reveals bitter and important lessons for today s missions to feed a hungry world **America on Record** Andre Millard, 1995-10-27 This study provides a history of sound recording from the acoustic phonograph to digital sound technology **Reporting Genocide** David Patrick, 2017-12-13 The Western world s responses to genocide have been slow unwieldly and sometimes unfit for purpose So argues David Patrick in this essential new contribution to the aid and intervention debate While the UK and US have historically been committed to the ideals of human rights freedom and equality their actual material reactions are more usually dictated by geopolitical noise pre conceived ideas of worth and the media attention spans of individual elected leaders Utilizing a wide ranging quantitative analysis of media reporting across the globe Patrick argues that an over reliance on the Holocaust as the framing device we use to try and come to terms with such horrors can lead to slow responses misinterpretation and category errors in both Rwanda and Bosnia much energy was expended trying to ascertain whether these regions qualified for genocide status The Reporting of Genocide demonstrates how such tragedies are reduced to stereotypes in the media framed in terms of innocent victims and brutal oppressors which can over simplify the situation on the ground This in turn can lead to mixed and inadequate responses from governments Reporting on Genocide also seeks to address how responses to genocides across the globe can be improved and will be essential reading for policy makers and for scholars of genocide and the media **Left in the Center** Daniel Soyer, 2022-01-15 Daniel Soyer s history of the Liberal Party of New York State Left in the Center shows the surprising relationship between Democratic Socialism and mainstream American politics Beginning in 1944 and lasting until 2002 the Liberal Party offered voters an ideological seal of approval

and played the role of strategic kingmaker in the electoral politics of New York State The party helped elect presidents governors senators and mayors and its platform reflected its founders social democratic principles In practical politics the Liberal Party s power resided in its capacity to steer votes to preferred Democrats or Republicans with a reasonable chance of victory This uneasy balance between principle and pragmatism which ultimately proved impossible to maintain is at the heart of the dramatic political story presented in *Left in the Center* The Liberal Party the longest lived of New York s small parties began as a means for anti Communist social democrats to have an impact on the politics and policy of New York City Albany and Washington DC It provided a political voice for labor activists independent liberals and pragmatic social democrats Although the party devolved into what some saw as a cynical patronage machine it remained a model for third party power and for New York s influential Conservative and later the Working Families parties With an active period ranging from the successful senatorial career of Jacob Javits to the mayoralties of John Lindsay and Rudy Giuliani the Liberal Party effectively shaped the politics and policy of New York The practical gains and political cost of that complicated trade off is at the heart of *Left in the Center*

Firesign Jeremy Braddock,2024-10-29 A cultural clearinghouse of the American 1960s and 70s told through the story of the period s most important forgotten comedy group This expansive book reclaims the Firesign Theatre hazily remembered as a comedy act for stoners as critically engaged artists working in the heart of the culture industry at a time of massive social and technological change At the intersection of popular music sound and media studies cultural history and avant garde literature Jeremy Braddock explores how this inventive group made the lowbrow comedy album a medium for registering the contradictions and collapse of the counterculture and traces their legacies in hip hop turntablism computer hacking and participatory fan culture He deploys a vast range of material sources drawing on numerous interviews and writing in tune with the group s obsessive and ludic reflections on multitrack recording radio television cinema early artificial intelligence and more to focus on Firesign s work in Los Angeles from 1967 to 1975 This ebullient act of media archaeology reveals Firesign Theatre as authors of a comic utopian pessimism that will inspire twenty first century recording arts and urge us to engage the massive technological changes of our own era

Mr. Associated Press Gene Allen,2023-06-20 Finalist for the AEJMC Tankard Book Award Between 1925 and 1951 Kent

Cooper transformed the Associated Press making it the world's dominant news agency while changing the kind of journalism that millions of readers in the United States and other countries relied on. Gene Allen's biography is a globe spanning account of how Cooper led and reshaped the most important institution in American and eventually international journalism in the mid twentieth century. Allen critically assesses the many new approaches and causes that Cooper championed: introducing celebrity news and colorful features to a service previously known for stodgy reliability; pushing through disruptive technological innovations like the instantaneous transmission of news photos; and leading a crusade to bring American style press freedom inseparable from private ownership in Cooper's view to every country. His insistence on truthfulness and impartiality presents a sharp contrast to much of today's fractured journalistic landscape. Deeply researched and engagingly written, Mr. Associated Press traces Cooper's career as he built a new foundation for the modern AP and shaped the twentieth century world of news.

Presumed Lost Stephen Moore, 2009-10-01 When submarines failed to return to port from patrol they were officially listed by the Navy as overdue and presumed lost. Loved ones were notified by the War Department that their siblings, spouses and sons were missing in action and presumed lost. While 52 U.S. submarines were sunk in the Pacific, the Japanese took prisoners of war from the survivors of only seven of these lost submarines. *Presumed Lost* is the compelling story of the final patrols of those seven submarines and the long captivity of the survivors. Of the 196 sailors taken prisoner, 158 would survive the horrors of the POW camps where torture, starvation and slave labor were common. This is the most complete and accurate record of their captivity experiences ever compiled. Author Stephen L. Moore draws on personal interviews with the survivors as well as on diaries, family archives and POW statements to reveal new details and correct longstanding errors in previously published accounts. Moore's research brought to light the following facts: Most crewmen from USS *Perch* endured 1,298 days of captivity without their families ever being told that they were still alive. The *Perch* and USS *Grenadier* were so badly damaged by enemy depth charge attacks that their crews were forced to scuttle their ships. USS *Sculpin* and USS *S-44* went down fighting with only forty-two men from the *Sculpin* being taken prisoner and half of them perishing on the way to Japan. USS *Tang* and USS *Tullibee* victims of their own faulty circling torpedoes had few survivors; five of whom managed to escape from the sunken, burning *Tang* when it was 180 feet below the ocean surface. As many as six men survived the loss of USS *Robalo* after it struck a mine off Palawan, but none of those survived the prison camps. The book includes dozens of rare photos of the POWs, many of which have never before been published. Appendices include final muster rolls of the seven submarines and a complete list of the U.S. submariners who were held as POWs with details of their various camps of internment.

Tibbetts, 1993 Burleigh both African Americans Horatio Parker and Maurice Arnold to forge a uniquely American tradition; they in turn became mentors and teachers to a new generation of composers including Charles Ives, George Gershwin, Aaron Copland and Duke Ellington. Dvorak heard for himself the dialects and idioms commingled in this great country and

expressed them in his own way in a dozen masterpieces written during his visit His New World Symphony for example still the most famous ever written on American soil was composed in New York amid what he called the American push of the streets And two of his most celebrated chamber works the F Major Quartet and the E flat Major Quintet were written during his travels through the prairies of northeast Iowa which he described as the American Sahara The contributors to this anthology are among the world s most distinguished authorities on Dvorak

Inhabiting an Embattled Body Jani de Silva, 2023-04-06 This book offers an anthropological account of Sri Lanka s Eelam Wars III and IV It is based on the life narratives of ex servicemen who fought on the frontlines The volume approaches militarism as a practice of masculinity It explores the sense of embattlement that young recruits feel which stems from the inner war between notions of bodily deference instilled in childhood and having to conduct offensives on the battlefield Thus though they wish to move smoothly into the assault techniques learnt in combat training they sometimes find their bodies are acting out a different trajectory engaging in acts of spectacular violence or simply running away It traverses themes such as masculinity and Sinhala society British martial masculinity vs the composed body in Sinhala discourse combat training and the battlefield The author traces the ways in which troops tried to negotiate the thin line between valour and violence in a context in which the enemy s suicide fighters engaged in the more extreme code of sacrificing the body which derided the very manliness of soldiers who couldn t prevail against them She argues that the Sri Lankan experience has resonance for soldiers on battlefields everywhere who become embattled when confronted by adversaries whose practice seems to diminish their own manliness Rich in ethnographical narratives this book will be interest scholars and researchers of war studies gender studies masculinity studies peace and conflict studies ethnic studies political science international relations sociology social anthropology cultural studies and South Asian studies especially those concerned with Sri Lanka

New Orleans on Parade J. Mark Souther, 2013-10-07 New Orleans on Parade tells the story of the Big Easy in the twentieth century In this urban biography J Mark Souther explores the Crescent City s architecture music food and alcohol folklore and spiritualism Mardi Gras festivities and illicit sex commerce in revealing how New Orleans became a city that parades itself to visitors and residents alike Stagnant between the Civil War and World War II a period of great expansion nationally New Orleans unintentionally preserved its distinctive physical appearance and culture Though business civic and government leaders tried to pursue conventional modernization

in the 1940s competition from other Sunbelt cities as well as a national economic shift from production to consumption gradually led them to seize on tourism as the growth engine for future prosperity giving rise to a veritable gumbo of sensory attractions A trend in historic preservation and the influence of outsiders helped fan this newfound identity and the city's residents learned to embrace rather than disdain their past A growing reliance on the tourist trade fundamentally affected social relations in New Orleans African Americans were cast as actors who shaped the culture that made tourism possible while at the same time they were exploited by the local power structure As black leaders' influence increased the white elite attempted to keep its traditions including racial inequality intact and race and class issues often lay at the heart of controversies over progress Once the most tolerant diverse city in the South and the nation New Orleans came to lag behind the rest of the country in pursuing racial equity Southern traces the ascendancy of tourism in New Orleans through the final decades of the twentieth century and beyond examining the 1984 World's Fair the collapse of Louisiana's oil industry in the eighties and the devastating blow dealt by Hurricane Katrina in 2005 Narrated in a lively style and resting on a bedrock of research New Orleans on Parade is a landmark book that allows readers to fully understand the image making of the Big Easy
