As part of the Jesuits programme of introduction to European culture in 1607 the Elements of Euclid 300 BC were translated for the first time into Chinese The translation of this epoch making ancient Greek textbook on deductive geometry meant a confrontation of contemporary Chinese and European cultures Part I of Peter Engelfriet s work deals mainly with the European and Chinese backgrounds part II with linguistic and textual matters In part III the manner in which learned Chinese tried to integrate this new knowledge into their own Chinese mathematical and cultural traditions comes to the fore This fascinating work explores in depth and at various levels the circumstances and mechanisms that shaped the transmission of a key work of science from one language and cultural context onto another Consequently it offers often surprising insights into the ways of intercultural exchange and misunderstandings Reconstruction Designs of Lost

Ancient Chinese Machinery Hong-Sen Yan,2007-11-18 South pointing chariots walking machines and the astronomical

mechanical clock are all used as illustrated examples in this fascinating and unique study of lost machinery in ancient China. This is the first book of its kind combining creative mechanism design methodology with mechanical evolution and variation theory to set out how some ancient designs can be recreated. **Cultures of Knowledge**, 2011-11-14 Looking at knowledge transmission as a cultural feature, this book isolates and examines the individual factors that affect knowledge in the making and created uniquely Chinese cultures of knowledge. The volume is organized into four sections: Internode, Imperial Court, Agora, and Scholarly Arts. Each has a theoretical introduction followed by two core contributions from experts in Chinese history. The section concludes with a reflection by a historian of Western Technology who scrutinizes each sphere and identifies the points that reflect universal technological experience. The combination of broadly sketched theoretical introductions and detailed core contributions provides an unparalleled insight into pre-modern Chinese history from the Song to early Qing dynasty, revealing Chinese attitudes towards innovation and invention.

**International Books in Print, 1995** Barbara Hopkinson, [Anonymus AC01401231], 1995 Coming to Know Nancie Atwell, 1990 Grade level 3 4 5 6 7 8 p e i s t *The Fear of Witchcraft and Witches in Imperial China* Barend Ter Haar, 2025-01-27 In historical surveys of witches and witchcraft, the Chinese case is surprisingly absent. This book intends to fill that gap. Traditional China had at least two different strands of fear directed at women and sometimes also men. The fear of witches harming people through figurines remained limited to individual social and personal conflicts, for instance between women competing for the attention of their partner or a carpenter and his customers. There was usually a clear winning party. The fear of witches using animal or demon familiars to harm members of their own community indiscriminately led to social exclusion or worse.

**My Wife is a Ghost** Wang Cai, 2020-09-09 Since I was a child, my fate had been strange. The fortune teller said that this was basically death. In order to let this little life of mine breathe a little more, Grandpa made a ghost bride out of the girl he married from a young age. I did survive, but with this damned girl pestering me everyday, it's practically a fate worse than death.
