photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum Placing Wright s exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century Wright on Exhibit features color renderings photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright s supervision **Annual Reports** Carnegie Institute,1983 Includes report of the director of fine arts of the director of the Museum and of the director of the Technical schools **The Early Architecture Of Western Pennsylvania** Charles Morse Stotz,2023-07-13 A new edition of this long unavailable classic reproduces photographic prints made from original negatives and features an extensive analytical introduction by the noted architectural historian Dell Upton Before the 1936 publication of *The Early Architecture of Western Pennsylvania* the architectural heritage of a region prominent in the history of early America had been almost totally neglected Based on a four year survey conducted by the Pittsburgh chapter of the American Institute of Architects Charles Morse Stotz s book provides the definitive description and analysis of structures ranging from log houses to colonial and Georgian structures to examples of the pre Civil War Gothic revival The volume defines the local architectural idiom as an expression of the frontier and early industrial societies that played such an important part in the history of nineteenth century America This oversized volume of 416 black and white photographs 81 measured drawings and an extensive text presents a splendid array of early dwellings barns and other outbuildings churches arsenals banks inns commercial buildings tollhouses mills and even tombstones Time has proved this work to be the definitive record of an architectural heritage that was fast disappearing with the economic boom of World War II and the postwar years *The Early Architecture of Western Pennsylvania* is also a work of precision beauty and integrity The drawings ignore alterations made after 1960 and show the buildings in their original condition giving special attention to details such as window sashes shutters cornices and roofs The floor plan of each structure is included and line drawings display the profiles of moldings and ornamentation Signature stones and hardware convey the quality of the early craftsmen s work In all cases stone joining has been faithfully drawn joint for joint to record the charm of old wall patterns This new edition makes a landmark book available to a new generation of readers one especially aware of the importance of architectural preservation and guarding the history of the Western Pennsylvania region American Photography ,1926 **Vanity Fair** ,1915 **The Conference Called by the Governor of Pennsylvania to Consider Ways and Means for Preventing the Spread of the Chestnut Tree Bark Disease** ,1912 **The Conference Called by the Governor of Pennsylvania to Consider Ways and Means for Preventing the Spread of the Chestnut Tree Bark Disease** ,1912 *The Publications of the Pennsylvania Chestnut Tree Blight Commission, 1911-13* Pennsylvania. was unsettled exciting and boisterous John Raeburn's *A Staggering Revolution* recreates the energy of the era by surveying photography's rich variety of innovation exploring the aesthetic and cultural achievements of its leading figures and mapping the paths their pictures blazed public's imagination While other studies of thirties photography have concentrated on the documentary work of the Farm Security Administration FSA no previous book has considered it alongside so many of the decade's other important photographic projects *A Staggering Revolution* includes individual chapters on Edward Steichen's celebrity portraiture Berenice Abbott's Changing New York project the Photo League's ethnography of Harlem and Edward Weston's western landscapes made under the auspices of the first Guggenheim Fellowship awarded to a photographer It also examines Margaret Bourke White's industrial and documentary pictures the collective undertakings by California's Group f 64 and the fashion magazine specialists as well as the activities of the FSA and the Photo League

Fallingwater Rising
Franklin Toker, 2007-12-18 *Fallingwater Rising* is a biography not of a person but of the most famous house of the twentieth century Scholars and the public have long extolled the house that Frank Lloyd Wright perched over a Pennsylvania waterfall in 1937 but the full story has never been told When he got the commission to design the house Wright was nearing seventy his youth and his early fame long gone It was the Depression and Wright had no work in sight Into his orbit stepped Edgar J Kaufmann a Pittsburgh department store mogul the smartest retailer in America and a philanthropist with the burning ambition to build a world famous work of architecture It was an unlikely collaboration the Jewish merchant who had little concern for modern architecture and the brilliant modernist who was leery of Jews But the two men collaborated to produce an extraordinary building of lasting architectural significance that brought international fame to them both and confirmed Wright's position as the greatest architect of the twentieth century *Fallingwater Rising* is also an enthralling family drama involving Kaufmann his beautiful cousin wife Liliane and their son Edgar Jr whose own role in the creation of Fallingwater and its ongoing reputation is central to the story Involving such key figures of the 1930s as Frida Kahlo Albert Einstein Henry R Luce William Randolph Hearst Ayn Rand and Franklin Roosevelt *Fallingwater Rising* shows us how E J Kaufmann's house became not just Wright's masterpiece but a fundamental icon of American life One of the pleasures of the book is its rich evocation of the upper crust society of Pittsburgh Carnegie Frick the Mellons a society that was socially reactionary but luxury loving and baronial in its tastes hobbies and sexual attitudes Kaufmann had so many mistresses that his store issued them distinctive charge plates they could use without paying Franklin Toker has been studying Fallingwater for eighteen years No one but he could have given us this compelling saga of the most famous private house in the world and the dramatic personal story of the fascinating people who made and used it A major contribution to both architectural and social history
