Francesca Sterlacci, Joanne Arbuckle

Madeleine Vionnet:

Madeleine Vionnet Betty Kirke, 1998 Madeleine Vionnet 1876 1975 was the greatest dressmaker in the world considered a genius for her innovations with difficult bias cut designs Vionnet dressed the movie stars of the 1930s and invented new pattern making techniques This definitive study of an astonishing woman and her work contains 38 original patterns for Vionnet dresses Over 400 illustrations **Madeleine Vionnet** Pamela Golbin, 2009 Famous for the bias cut Madeleine Vionnet's sophisticated approach to couture remains a pervasive influence today Eschewing artificial and restrictive padding and stiffening she liberated the female form with designs that integrated movement and comfort into women's fashion She also championed unusual fabrics that were luxurious and sensual yet simple and modern chiffon silk crêpe de Chine gabardine and satin Her most revolutionary creations the handkerchief dress cowl neck and halter top cling to and seamlessly move with the wearer Vionnet's principles of elegance movement architectural form and timeless style continue to inform contemporary fashion This lavishly illustrated book showcases Vionnet's daringly original designs worn by 80 internationally famous models photographed especially for this book alongside original patterns and archival images by such icons as Horst and Steichen **Madeleine Vionnet** Jacqueline Demornex, Patricia Canino, 1991 *Vionnet* Lydia Kamitsis, Madeleine Vionnet, 1996 Acclaimed mistress of the bias cut Madeleine Vionnet won huge praise for her innovative and daring fashion designs in the 20s and 30s Her remarkable dresses perfectly geometrical yet apparently limp and shapeless until worn were first noticed in Paris by the artist Lanthelme who helped her to establish her own house Vionnet reached the pinnacle of her enormous success in the early 1930s with an international clientele and a workforce of 1200 women *Madeleine Vionnet* Madeleine Vionnet (Paris), **Couture Confessions ebook** Pamela Golbin, 2016-06-28 Late legendary couturiers of modern fashion speaking eloquently about life design and inspiration Vionnet Chanel Dior Saint Laurent McQueen these names define haute couture and long after the designers have passed away their influence on fashion continues to be profound In an exceptional compilation of the original words of these couturiers Couture Confessions provides a unique and in depth look at the lives and work of these fashion icons In this engaging beautifully designed book Pamela Golbin acclaimed chief curator of twentieth century fashion and textiles at Paris's Musée des Arts Décoratifs has ingeniously constructed conversations in the designers own words that highlight their compelling personal stories as well as essential fashion moments from designers Paul Poiret Cristóbal Balenciaga Madame Grès Alexander McQueen Madeleine Vionnet and Gabrielle Chanel to Elsa Schiaparelli Yves Saint Laurent Jeanne Lanvin Pierre Balmain and Christian Dior Featuring striking illustrations by internationally recognized illustrator Yann Legendre each interview asks the questions every fashion lover has always wanted to ask making these legends approachable human and ever more inspiring **Paris to New York** Véronique Pouillard, 2021-05-04 An innovative history of the fashion industry focusing on the connections between Paris and New York art and finance and design and manufacturing Fashion is one of the most dynamic industries in the world with an annual

retail value of 3 trillion and globally recognized icons like Coco Chanel Christian Dior and Yves Saint Laurent How did this industry generate such economic and symbolic capital Focusing on the roles of entrepreneurs designers and institutions in fashion s two most important twentieth century centers Paris to New York tells the history of the industry as a negotiation between art and commerce In the late nineteenth century Paris based firms set the tone for a global fashion culture nurtured by artistic visionaries In the burgeoning New York industry however the focus was on mass production American buyers trend scouts and designers crossed the Atlantic to attend couture openings where they were inspired by and often accused of counterfeiting designs made in Paris For their part Paris couturiers traveled to New York to understand what American consumers wanted and to make deals with local manufacturers for whom they designed exclusive garments and accessories The cooperation and competition between the two continents transformed the fashion industry in the early and mid twentieth century producing a hybrid of art and commodity Vronique Pouillard shows how the Paris New York connection gave way in the 1960s to a network of widely distributed design and manufacturing centers Since then fashion has diversified Tastes are no longer set by elites alone but come from the street and from countercultures and the business of fashion has transformed into a global enterprise

Drapery Gen Doy,2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud s Gravidia Clerambault s writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo s wrapped Reichstag to the impact of the modern women s movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery s connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death

Working Girls Patricia A. Tilburg,2019 Working Girls offers a cultural history of the women of the Parisian garment trades as read by French entertainment and popular culture labour reformers and the women themselves bridging the divide between the cultural history of the Parisian imaginary and the history of the French working classes and national identity , *Fashion* Akiko Fukai,Kyōto Fukushoku Bunka Kenkyū Zaidan,2002 Illustrates a wide range of historical garments underwear shoes and fashion accessories dating from the eighteenth century to the present day

House of Fashion Jess Berry,2018-07-12 Since Charles Fredrick Worth established his luxurious Maison de Couture in 1858 the interior has played a crucial role in the display of fashion House of Fashion provides a full historical account of the interplay between fashion and the modern interior demonstrating how they continue to function as a site for performing modern gendered identities for designers and their clientele alike In doing so it traces how designers including Poiret Vionnet Schiaparelli and Dior used commercial spaces and domestic interiors to enhance their credentials as connoisseurs of taste and style Taking us from the early years of haute couture to the luxury fashion of the present day Berry explores how the salon the atelier and the boutique have allowed fashion to move beyond the aesthetics of dress to embrace the visual seduction of the theatrical artistic and the exotic From the Art Deco allure of

Coco Chanel's Maison to the luminous spaces of contemporary flagship stores House of Fashion sets out fashion's links with key figures in architecture and design including Louis S e Robert Mallet Stevens Eileen Gray and Jean Michel Frank Drawing on photographs advertisements paintings and illustrations this interdisciplinary study examines how fashionable interiors have shaped our understanding of architecture dress and elegance *The Great Fashion Designers* Brenda Polan,Roger Tredre,2020-01-09 Over the last 180 years designers have propelled fashion from an elite craft into a cornerstone of popular culture This brilliantly written guide to the lives and collections of 55 iconic fashion designers draws on the latest academic research and the best of fashion journalism including the authors own interviews with designers Beginning with 19th century couturier Charles Frederick Worth and concluding with the star names of the 2010s Polan and Tredre detail each designer's working methods and career highlights to capture the spirit of their times This beautifully illustrated revised edition features five new designer profiles Hedi Slimane Raf Simons Phoebe Philo Alessandro Michele and Demna Gvasalia It's also been updated throughout to reflect a fashion world in constant ferment with designers swapping jobs and fashion houses at unprecedented speed The industry has expanded into a global phenomenon and designers have emerged as true celebrities The Great Fashion Designers explores their passion and flair to show us fashion at its most inspirational **European fashion** Regina Lee Blaszczyk,Véronique Pouillard,2018-02-07 The period since 1945 has been a transformative era for the fashion industry Over the course of seventy years the fashion world has moved from celebrating the craftsmanship of haute couture to revelling in ever changing fast fashion This volume examines the transition from the old system to the new in a series of case studies grouped around three major themes Part I focuses on Paris as a creative hub aiming to understand how the birthplace of haute couture adapted to late twentieth century developments Part II considers the retailer's role in shaping taste responding to consumer expectations and disseminating fashion merchandise Part III looks to alternative visions of the European fashion system that have appeared in unexpected places The volume is highly interdisciplinary covering design history cultural anthropology ethnography management studies and the cultural history of business *Designs on Modernity* Tag Gronberg,2003 Tag Gronberg here presents the 1925 Paris Exhibition as a key moment in updating the image of Paris as capital of the 19th century He focuses on the Exhibition as a set of contesting representations of the modern city stressing the importance of consumption and display for concepts of urban modernity *The Intellectual Property of Textiles and Fashion: From the Medieval Loom to the New York Fashion Week* Nuno Pires de Carvalho,2021-09-20 Rampant global counterfeiting has led the fashion industry to seek ever greater enforcement of its intellectual property IP rights Yet as this hugely informative book shows this is not new Fashion designers and entrepreneurs as well as manufacturers and tradespeople in the broader textiles industry from which fashion springs have always struggled to convert existing IP rules to an industry that was and is configured by the pressure of intrinsically fleeting consumer tastes and trends The distinguished author adding to the series of major works that have made him a leading authority on IP law triumphantly reveals in great

detail how society has constructed IP in association with textiles so as to accommodate it to the particular characteristics of fashion that emerged in the last century More than two hundred sources many of them for the first time available in English illustrated with fifty figures allow the reader to directly encounter those who have made and continue to make the IP of textiles and fashion The underlying reasons d tre of such aspects as the following become brilliantly clear how fashion designers protect their creations against the spread of knock offs how fashion entrepreneurs appropriate prestige and reputation how an iconic design becomes a brand or acquires secondary meaning and how such inventions as the sewing machine and the cotton gin affected IP rights in textiles and fashion Each source is preceded by a note placing it in its social economic and legal context The sources are structured in two chapters business identifiers trade and certification marks geographical indications and appropriation of knowledge and creativity patents designs copyright and trade secrets so as to permit an easy understanding of the enchainment of important moments that have contributed to give IP for textiles and fashion its special configuration in particular the transition from textile law to fashion law With this book listening directly to the voices of those who have made and make IP academics students magistrates professionals and the legal community as a whole will have a clear and realistic sense of how the combination of the entrepreneurial spirit with the imperatives of human consumption has designed and continues designing the special scope and limits of IP as applied to textiles and fashion

Dressing Modern Frenchwomen Mary Lynn Stewart,2020-03-03 At a glance high fashion and feminism seem unlikely partners Between the First and Second World Wars however these forces combined femininity and modernity to create the new modern French woman In this engaging study Mary Lynn Stewart reveals the fashion industry as an integral part of women s transition into modernity Analyzing what female columnists in fashion magazines and popular women novelists wrote about the new silhouette Stewart shows how bourgeois women feminized the more severe masculine images that elite designers promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity She delves into the intricacies of marketing the new clothes and the new image to middle class women and examines the nuts and bolts of a changing industry including textile production relationships between suppliers and department stores and privacy and intellectual property issues surrounding ready to wear couture designs *Dressing Modern Frenchwomen* draws from thousands of magazine covers advertisements fashion columns and features to uncover and untangle the fascinating relationships among the fashion industry the development of modern marketing techniques and the evolution of the modern woman as active mobile and liberated

The A to Z of the Fashion Industry Francesca Sterlacci,Joanne Arbuckle,2009-10-26 The history of clothing begins with the origin of man and fashionable dress can be traced as far back as 25 000 years ago Recent scientific explorations have uncovered graves in northern Russia with skeletons covered in beads made of mammoth ivory that once adorned clothing made of animal skin The Ancient Egyptians Greeks and Romans each made major contributions to fashion s legacy from their textile innovations unique clothing designs and their early use of

accessories cosmetics and jewelry During the Middle Ages fashion trends emerged as trade and commerce thrived allowing the merchant class to afford to emulate the fashions worn by royals However it is widely believed that fashion didn't become an industry until the industrial and commercial revolution during the latter part of the 18th century Since then the industry has grown exponentially Today fashion is one of the biggest businesses in the world with hundreds of billions of dollars in turnover and employing tens of millions of workers It is both a profession an industry and in the eyes of many an art The A to Z of the Fashion Industry examines the origins and history of this billion dollar industry This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced entries on designers models couture houses significant articles of apparel and fabrics trade unions and the international trade organizations
