Architecture in Austria : a Survey of the 20th Century Otto Kapfinger,Dietmar Steiner,Adolph Stiller,Jaime Salazar,1999 **The Architecture of the Museum** Michaela Giebelhausen,2003-11-08 From the Louvre to the Bilbao Guggenheim and Tate Modern the museum has had a long standing relationship with the city Examination of the meaning of museum architecture in the urban environment considering issues such as forms of civic representation urban regeneration cultural tourism and the museumification of the city itself Ranging from the seventeenth century to the present day case studies are drawn from Europe South America and Australia Contributions written by J Birksted V Fraser H Lewi D J Meijers and others **About Star Architecture** Nadia Alaily-Mattar,Davide Ponzini,Alain Thierstein,2020-03-16 Cities across the world have been resorting to star architects to brand their projects spark urban regeneration and market the city image internationally This book shifts the attention from star architects to star architecture arguing that the process of deciding about and implementing relevant architectural and urban projects is not the product of any single actor Star architecture can in fact be better studied and understood as assembled by multiple actors and in its relationship with urban transformation In its 18 chapters the book presents a multidisciplinary collection of expert contributions in the fields of urban planning architecture media studies urban economics geography and sociology consistently brought together for the first time to deal with this topic Through a vast array of case studies and analytical techniques touching over 20 cities in Europe the book shows the positive and more problematic impacts of star architecture with reference to the preservation of built heritage tourism and media The book will be of interest to architects sociologists urban planners and public administrators
