Music Through The Eyes Of Faith:

Music Through the Eyes of Faith Harold Best, 1993-05-14 Christian musicians know of the obligation to make music as agents of God's grace. They make music graciously whatever its kind or style as ambassadors of Christ showing love, humility, servanthood, meekness, victory, and good example. Music is freely made by faith as an act of worship in direct response to the overflowing grace of God in Christ Jesus. Co-sponsored by the Christian College Coalition, this thought-provoking study of music as worship leads both students and experienced musicians to a better understanding of the connections between music making and Christian faith. Christian music makers have to risk new ways of praising God. Their faith must convince them that however strange a new offering may be, it cannot out-reach, out-imagine, or overwhelm God. God remains God, ready to swoop down in the most wonderful way amidst all of the flurry and mystery of newness and repetition to touch souls and hearts, all because faith has been exercised and Christ's ways have been imitated. Meanwhile, a thousand tongues will never be enough. Best relates musical practice to a larger theology of creation and creativity and explores new concepts of musical quality and excellence, musical unity, and the incorporation of music from other cultures into today's music. The

Outrageous Idea of Christian Scholarship George M. Marsden, 1997 In this book Marsden argues forcefully that mainstream American higher education needs to be more open to explicit expressions of faith and to accept what faith means in an intellectual context. **The Influence of Harold Best's Music Through the Eyes of Faith and Unceasing Worship on**

Select Worship Authors and Educators Elissa Hope Keck Hodge, 2020 This dissertation examines the impact of Harold Best's *Music through the Eyes of Faith* (1993) and *Unceasing Worship: Biblical Perspectives on Worship and the Arts* (2003) on seven representative worship authors and educators. Through interviews and close examination of their writings, lectures, and philosophies, the impact of Best's primary arguments is traced. His main positions are: 1) that human creativity is rooted in the doctrines of common grace and the creation of humankind in the *imago Dei*; 2) that worship, which is either biblical or idolatrous, is an inherent activity of all humans; and 3) that music is amoral, a premise upon which he builds his advocacy of musical pluralism in worship and in the Christian life. Following the introduction to the research problem in chapter 1, chapter 2 presents an overview of the leading philosophies of music from both secular and Christian thinkers between 1940 and c. 1990 as a backdrop against which to view Best's own philosophy of music, worship, and the arts. A survey of the evangelical worship landscape is offered in chapter 3, highlighting major changes in worship philosophy and praxis in the 1940s through the 1990s. Chapter 4 contains a professional biography of Best, noting specific experiences that influenced the development and articulation of his thought with reference to Nyack College, Wheaton College, the National Association of Schools of Music, colleagues, and his work as a composer. An exposition and critique of Best's books is offered in chapter 5. Through interviews and close examination of their writings, chapter 6 traces the impact of Best's books on seven representative worship authors and educators: Bob Kauflin, Barry Liesch, David Music, Michael Card, Mike Cospser, D. Clark,

Measels and Joseph Crider Chapter 7 concludes the dissertation summarizing the main areas of Best's impact

Scholarship and Christian Faith Douglas Jacobsen, Rhonda Hustedt Jacobsen, 2004-04-08 This book enters a lively discussion about religious faith and higher education in America that has been going on for a decade or more During this time many scholars have joined the debate about how best to understand the role of faith in the academy at large and in the special arena of church related Christian higher education The notion of faith informed scholarship has of course figured prominently in this conversation But argue Douglas and Rhonda Jacobsen the idea of Christian scholarship itself has been remarkably under discussed Most of the literature has assumed a definition of Christian scholarship that is Reformed and evangelical in orientation a model associated with the phrase the integration of faith and learning The authors offer a new definition and analysis of Christian scholarship that respects the insights of different Christian traditions e g Catholic Lutheran Anabaptist Wesleyan Pentecostal and that applies to the arts and to professional studies as much as it does to the humanities and the natural and social sciences The book itself is organized as a conversation Five chapters by the Jacobsens alternate with four contributed essays that sharpen illustrate or complicate the material in the preceding chapters The goal is both to map the complex terrain of Christian scholarship as it actually exists and to help foster better connections between Christian scholars of differing persuasions and between Christians and the academy as a whole **Matty: An American**

Hero Ray Robinson, 1994-12-08 When all time pitching great Christy Mathewson died of tuberculosis in 1925 at the age of 45 it touched off a wave of national mourning that remains without precedent for an American athlete The World Series was underway and the game the day after Mathewson's death took on the trappings of a state funeral officials slowly lowered the flag to half mast each ballplayer wore a black armband and fans joined together in a chorus of Nearer My God to Thee The pitcher known to one and all as Matty or Big Six was as beloved for the strength of character he brought to the national pastime as for his stunning 373 career victories In Matty Ray Robinson tells the story of a man who became America's first authentic sports hero Until Mathewson Robinson reveals Americans loved baseball but looked down on ballplayers and other athletes as hard drinking skirt chasing ne'er-do-wells Mathewson changed this attitude showing an eager public that a real life role model could be found in the athletic arena Drawing on rare interviews press clips and long overlooked eyewitness accounts Matty brings baseball's golden age to life offering fascinating insight into the making of an early twentieth century American hero Servanthood of Song Stanley R. McDaniel, 2024-05-23

Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshiping community not just one segment age group or class *Servanthood of Song* provides a historical context for trends in contemporary worship in the United States and suggests that the current

polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today *Shaping a Christian Worldview* David S. Dockery, Gregory Alan Thornbury, 2002-09-01 *Shaping a Christian Worldview* presents a collection of essays that address the key issues facing the future of Christian higher education *The Music of Jesus* Mark Hileh, 2001 This book examines four large questions Do we need a theology of music And if so why What is the place of art music classical music in a postmodern world What are the characteristics of the music of Jesus How can this music be manifested in the Christian community Each question is addressed on the basis of building a consistent Biblical worldview which includes adequate respect for the powerful force of music Although the book focuses on the role of composers its aim is to encourage serious musical examination support and action from within the entire evangelical Christian community with an eye to affecting the culture at large The author asserts that in the area of music the Church has become a cultural follower rather than a leader adopting the dangerous postmodern tendency to define musical choices as matters of mere personal preference rather than seeking to define them on the basis of what God has revealed in the Word by the Son and through the Spirit Specific suggestions are made by which the contemporary Christian community may resist such a tendency even while building a dynamic new Christ centered musical practice which can flourish in our postmodern world *The Influence of Music on the Development of the Church of God (Cleveland, Tennessee)* Benson Vaughan, 2018-03-23 This book examines the influence of music on the development of the Church of God Cleveland Tennessee This narrative is historically driven but relies upon an interdisciplinary approach to draw on the insights of ecclesiology theology liturgiology church development and especially music This study utilizes a chronological and systematic approach to the relationship between music and the Church of God in the United States during the first 125 years of the denomination s history from 1886 to 2011 For over a century music has been an often neglected dialogue partner at the table of academic discussion and this research argues for recognition and a proper place in Pentecostal history Along with primary and secondary sources the important element of living archives is investigated in this work these are interviews with people who participated in historical music events in the Church of God The book also relies upon musical examples to explore the influence of music upon the shaping of the denomination s history and theology **Music as Theology** Maeve Louise Heaney, 2012-09-01 The conversation between music and theology dormant for too long in recent years is at last gathering pace And rightly so There will always be theologians who will regard music as a somewhat peripheral concern too trivial to trouble the serious scholar and in any case almost impossible to engage because of its notorious resistance to words and concepts But an increasing number are discovering again what many

of our forbears realized centuries ago that the kinship between this pervasive feature of human life and the search for a Christian intelligence of faith is intimate and ineradicable Maeve Heaney's ambitious wide ranging and energetic book pushes the conversation further forward still Her approach is unapologetically theological grounded in the passions and concerns of mainstream doctrinal theology And yet she is insisting that music must be given its due place in the ecology of theology Although convinced that music should not be set up as a rival to linguistic or conceptual articulation let alone swallow up traditional modes of theological language and thought she is equally convinced that music is an irreducible means of coming to terms with the world a unique vehicle of world disclosure and as such can generate a particular form of understanding there are things which God may only be saying through music If this is so it is incumbent on the theologian to listen Jeremy Begbie from the Foreword

Faith Reads David Rainey, 2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection

Restoring the Vocation of a Christian College Brad Pardue, Andrew T. Bolger, 2022-05-19 Restoring the Vocation of a Christian College examines the vocation of a Christian institution of higher learning to faithfully educate students and how individual Christian teachers and scholars can participate in this process no matter their discipline It surveys and engages developments over the last few decades in Christian worldview studies Christian pedagogy character formation and vocational reflection Through individual essays by college administrators cocurricular staff and faculty from a wide range of disciplines it provides both thoughtful reflection and concrete application of these often abstract concepts to specific institutional settings and the actual classroom experience

The Message in the Music, 2010-12-01 The definitive guide to the meaning of today's most popular praise and worship songs Few things influence Christians understanding of the faith more than the songs they sing in worship The explosion of praise and worship music in the last fifteen years has profoundly affected our experience of God So what are those songs telling us about who God is In what ways have they made us more faithful disciples of Jesus Christ In what ways have they failed to embody the full message of the gospel Working with the lists of the most frequently sung praise and worship songs from recent years the authors of this book offer an objective but supportive assessment of the meaning and contribution of the Christian music that has been so important in the lives of contemporary believers

The Music Architect Constance M. Cherry, 2016-07-19 Guidance for Leaders Seeking a Richer Way to Employ Worship Music Worship expert Constance Cherry offers comprehensive guidance to Christian leaders

seeking a deeper richer way to employ worship music in engaging ways for twenty first century worshipers Following Cherry s successful book *The Worship Architect* this work helps Christian leaders think theologically and act pastorally about worship music in their churches It addresses larger issues beyond the surface struggles of musical styles and provides tools to critically evaluate worship songs The book is applicable to all Christian traditions and worship styles and is well suited to both the classroom and the local church Each chapter concludes with suggested practical exercises recommended reading and basic vocabulary terms

The Sacred in Music Albert L. Blackwell, 1999-04-15 Religion and music are complementary resources for interpreting our lives Music serves the sacred in ways that can be specified and articulated yet the connection between them has been sorely neglected in the scholarly study of religion In *The Sacred in Music* Albert Blackwell brings the two subjects together in a celebration of the rich Western musical tradition both classical and Christian
