Nursenotes Maternal Newborn Nursing:

NurseNotes Maternal-Newborn Janice McMillin, 2005-01-01 I have found the ATI NurseNotes Maternal Newborn text to be extremely useful in the undergraduate family health course that I teach Its concise review of all of the essential content makes it an extremely user friendly text particularly for students who struggle as they try to take in a tremendous amount of material during the 14 week semester Many of my previous students have sworn that they never would have successfully completed all of the course objectives without this volume Linda Walsh Faculty University of San Francisco The best features of this book 1 Concise short chapters followed immediately by practice questions right after you have studied a topic 2 An excellent framework for making your own condensed notes to facilitate quick review 3 Complete outline of each topic at the beginning of each chapter 4 Use of unique symbols and boldface and italic type will help you to quickly identify each of the steps of the nursing process hands on nursing care diets medications lab and diagnostic tests and test taking tips 5 A FREE DISK with additional questions with alternate item format is also included for further practice and self assessment
