Nurses Matter Reclaiming Our Professional Identity:

Nurses Matter Verena Tschudin,1999-11-11 Today's nurses find themselves in the position of having to redefine their identity. They must ask themselves why they matter, what is important about them as professionals and how they contribute as team members. Starting from an ethical standpoint, this book explores the nature of nursing and the dilemmas facing today's professionals. The author shares her vision of a new kind of professional, a vision which will empower readers to discover fresh meaning in their work and in their role. [The Globalisation of Nursing](#) Verena Tschudin, Anne Davis, 2023-03-31

Globalisation affects health care and nursing and has the potential to change the very nature of what we now take for granted in health care and how we obtain it. Nursing as a profession faces multiple challenges, many of them because of globalization. Nurses have always seen their profession as a passport to the world. In the past, the move to **Spiritual Care in Everyday Nursing Practice** Janice Clarke, 2013-05-31. As changes in technology, policy and management put an increasing emphasis on processes and procedures in nursing and health care, how do we continue to make room for compassion, the ancient human value that calls most nurses to the profession? In *Spiritual Care in Everyday Nursing Practice*, Janice Clarke argues that it is compassionate care of the whole person, body and soul, which is at the heart of nursing practice. That values the individual and respects their dignity. Rather than seeing spiritual care as an addition to what nurses already do, this new approach considers it a natural part of compassionate care, which doesn't present the nurse with an extra, ambiguous burden to deal with. Providing a brief historical introduction to the concept of spirituality, Clarke examines the ways in which our spiritual life, a source of strength and meaning, can be influenced by factors such as age, illness and suffering, and mental illness, as well as our religious beliefs. Providing a practical guide to talking about and working with spirituality, she explores how nurses might imbue all their practice, including the physical aspects of care, from use of touch to helping patients to move, bathe and eat, with an attention to spiritual needs. A timely, accessible and practical introduction to a concept that is under-explored in contemporary nursing literature, this book will be of great value to students and professionals alike.

Moving with the Times Sreelekha Nair, 2020-11-29 This book is an attempt to penetrate the silence that surrounds the lives of nurses as migrant women It offers a perceptive understanding of the trials faced specifically by women from the state of Kerala in their personal and professional spheres in the challenges posed to single women migrants as such and the lower status ascribed to the job In highlighting aspects of their lived experiences it reveals how the identities of gender class and ethnicity unmask the realities behind claims of egalitarianism and equal citizenship Nurses from Kerala form one of the largest groups of migrant women workers in the international service sector along with Filipinos and Sri Lankans Comparatively better salaries work opportunities and financial independence along with a desire to travel across the world are often the reasons behind these migrations For many of these women the professional choice of nursing is usually the first step towards migration while finding employment in Delhi the urban capital of India is intended as a transition point before they migrate abroad a trajectory which may remain unrealised In focusing on nurses who choose to work in Delhi the author recounts how the patriarchy of the original place is recreated and relived in destination cities In as much as traditional stigmatisation of nursing as a dirty profession deeply entrenched gender prejudices and status and role anxieties act as deterrents these women remain undaunted in the face of adversities and treat their exposure to and experience of technology and nursing care in the bigger hospitals in Delhi as part of the training that is required to apply abroad Through extensive empirical research case studies and personal interviews *Moving with the Times* illustrates nurses' lives in Delhi providing an account of the dynamics between traditional patriarchy norms and associated identities low professional status and marginality coupled at once with the sense of personal freedom a new career and space that migration compels these women to negotiate This book will appeal to scholars of sociology gender and women's studies nursing and healthcare and those interested in migration and identities *Das Schweizer Buch*, 2000
