Nursing Midwifery And Health Visiting Since 19:

Unhappy mothers Sarah Crook,2025-07-29 In the decades following the Second World War mothers experiences of loneliness boredom and unhappiness were increasingly widely acknowledged The language of postnatal depression came to be attached to this but mothers organised around their own discontent in ways that challenged the medical model Unhappy mothers draws attention to the social political and professional contexts within which knowledge about unhappy mothering developed Drawing upon an extensive range of archival material the book addresses themes around expertise feminism and the value given to lived experience [Current Catalog National Library of Medicine \(U.S.\)](#),1982 First multi year cumulation covers six years 1965 70 **Bibliography of the History of Medicine** ,1984 *A Handbook for Student Nurses, second edition* Wendy Benbow,Gill Jordan,2013-09-10 A Handbook for Student Nurses is a comprehensively updated introduction to the essential background knowledge that pre registration nursing students need as a foundation for the rest of their training This book covers the core of first year nursing Legal and professional issues Communication Values and health care ethics Reflection and personal development Evidence based practice Study skills and IT Medicine IV fluid and drug administration new for this edition Case studies and examples activities and reflection points all aid learning while up to date legislation key documents and reports and website links to relevant organisations provide easy access to core information What lecturers thought about the first edition I found this to be an excellent resource and I feel students new to the profession would find it extremely useful The book is well organised highly readable and accessible An excellent introductory text for student nurses written in a clear and illuminative style [The Professional Nurse](#) Michael Bowman,2013-11-11 Michael Bowman s book forms a useful reference source for Health Service staff interested in the role of the professional nurse and the discharge of professional accountability I am delighted that this work competently deals with nursing s dilemmas about its therapeutic role over a crucial period in its history especially the effects of major structural change on the profession between the period from the implementation of the Salmon and Mayston Reports up to the present time and Project 2000 The picture is in Dr Bowman s opinion not a very happy one from the viewpoint of the profession Some of the changes that have taken place have involved some loss of professional cohesion and were independent of the organizational framework of the National Health Service Nevertheless it is disturbing that nurses appear during the period covered to have had a quite inadequate input to the shaping of Health Policy There are already signs that the nursing profession has begun to absorb the warnings cited in Dr Bowman s study However in the wake of the National Health Service reforms and the implementing of a business culture in the National Health Service nurses may find the message of this book only too familiar That does not for one moment mean that the nursing input to corporate strategy and general direction should be defensive or reactionary British nursing continues to be highly regarded by the general public *Nursing, COVID and the End of Resilience* Michael Traynor,2024-09-09 This book looks at the way in which resilience has been promoted as a resource for nurses during the

COVID 19 pandemic and addresses its limitations as a response to the potential trauma of working in intense healthcare contexts Traynor examines the nature of trauma and moral distress in nursing work which predates the most recent pandemic that brought it into sharp relief and links this to discussions of resilience in nursing He examines differing understandings of trauma identifying and detailing approaches to dealing with it and its aftereffects In a wide ranging book that draws together critiques of the happiness industry and PPE scandals this book lays bare government and managerial reactions to the pandemic alongside individual sometimes harrowing accounts Its author sets out the impact of working during COVID 19 on the profession and its members in terms of support solidarity and fragmentation Drawing on a critical analysis of responses to the pandemic from the government regulatory bodies the NHS and the media along with primary research with nurses and others who have worked through the pandemic this book is a vital contribution for all those interested in resilience trauma well being and workforce development in nursing

EBOOK: Implementing Excellence in your Health Care Organization: Managing, Leading and Collaborating Robert McSherry, Jerry Warr, 2010-07-16 This second book in this practical introductory series on practice issues in healthcare explores the key issues and factors which influence the workings of a healthcare organisation and how these may be addressed through collaborative working and user focused care at an introductory and practical level The book will be presented in three sections Working in Organisations Collaborative working User Focused Care The emphasis of this second text is on how the organization and those who work within it contribute to both positively and negatively the excellence of the healthcare organization and the care it gives Rather than a theoretical tome on team working leadership and change management this book instead highlights and explores the tools and techniques that ALL healthcare staff need to be successful employees and managers delivering excellent care The authors will outline and examine the evidence available for all areas covered both to support and to critique excellence standards and give a lively and practical introduction to the key organizational factors of a healthcare setting Meaty topics abound including Management leadership ethics equity governance user involvement team working interprofessional excellence The focus on multiprofessional working will make this accessible to a variety of healthcare groups In keeping with the series the book will include case examples real life practice and reflective exercises as well as the theory needed to inform delivery of excellence Contributors Claire Brewis Dr Corrina Dickson Dr Lee Ann Fenge Karen Grimwood Dr Sarah Hean Vanessa Heaslip Jenny Kell Melaine McSherry Dr Sabi Redwood Lisa Smith Kevin Stubbings Jackie Tonkin Katie Tucker

Developing Research in Primary Care Mike Saks, Martin Williams, Beverley

Hancock, 2018-04-19 The rapid development of NHS trusts is making unprecedented demands on those responsible for strategic planning and management for which many are unprepared This manual is based upon the experience of those who have faced the questions and found the answers It is intended for all those involved in Trust management The questions are not all board level strategic questions some are quite mundane and managerial However the questions will have to be asked and the answers will determine what it is like to work within the organization be one of its patients or a user of its services

Strategies for Healthcare Education Jan Woodhouse, Peter Athanasos, 2019-04-29 This work contains a Foreword by Dorothy Marriss Deputy Vice Chancellor and Dean School of Health and Social Care University of Chester This practical guide promotes evidence based teaching It provides a thorough critical analysis of various healthcare teaching strategies offering new strategies and an integrative approach promoting blended learning self directed study simulation the use of medical humanities and story telling Health and social care educators in all sectors and across all fields will find this book invaluable as will education policy makers and shapers and health and social care professionals with an interest in education and professional development This book gives the reader an immensely readable account of the move healthcare education has made into the 21st Century The move from a syllabus of training detailing concise statements in relation to learning to a curriculum for education that emphasises learning strategy and outcomes is a fairly recent development in education

planning Now the teacher is a facilitator of learning with the expertise to create a stimulating learning environment I highly recommend this book as a rich source of education development for the new teacher and as a refresher for the more experienced teacher Dorothy Marriss in the Foreword *The British Journal of Nursing with which is Incorporated the Nursing Record ...*, 1919 **Midwives, Research and Childbirth** Sarah Robinson, Ann M. Thomson, 2013-11-11 This volume is the first in a series which brings together studies of particular relevance to the care provided by midwives for childbearing women and their families The series is intended primarily for midwives but we hope that other health professionals involved in the maternity services as well as those who use the services will also find the series interesting and useful In undertaking this venture we have been fortunate in the support received from colleagues friends and family In particular we would like to thank the following the editorial and production staff at Chapman and Hall in London for encouragement and advice all the authors who have contributed to the series colleagues at both the Nursing Research Unit London University and the Department of Nursing Studies Manchester University and Paul and Rachel Robinson This first volume is dedicated to Anne Bent formerly Director of Education at the Royal College of Midwives and then Professional Officer for Midwifery at the United Kingdom Central Council for Nursing Midwifery and Health Visiting Always conscious of the need for midwifery to become a research based profession and for midwives to be aware of the importance of research she has made a major contribution to initiating and facilitating developments in both these respects
