Nus Dautrefois 1850 19:

Bodies of Art Marie Lathers, 2001-01-01 To the time honored myth of the artist creating works of genius in isolation with nothing but inspiration to guide him art historians have added the mitigating influences of critics dealers and the public *Bodies of Art* completes the picture by adding the model This lively look at atelier politics through the lens of literature focuses in particular on the female model with special attention to her race ethnicity and class The result is a suggestive account of the rise and fall of the female model in nineteenth century realism with a final emphasis on the passage of the model into photography at the turn of the century This history of the model begins in nineteenth century Paris where the artist model dynamic was regularly debated by writers and where the most important categories of models appear to be Jewish Italian and Parisian women *Bodies of Art* traces an evolution in the representation of this model in realist and naturalist literary works from her birth in Balzac to her death in Maupassant in the process revealing how she played a key role in theories of representation advanced by writers Throughout the book Marie Lathers connects the artist s work to the social realities and actual bodies that surround and inhabit the atelier Her work shows how much the status of the model can tell us about artistic practices during the century of the birth of modernity **A ^AGenerous Vision** Cathy

Curtis, 2017-09-04 Cathy Curtis s comprehensive biography provides a much needed summation of the extraordinary achievements of Elaine de Kooning Based on painstaking research and hundreds of interviews *A Generous Vision* fills a significant void in biographies of American women artists of the twentieth century bringing to life a leading figure who held her own in a contentious male arena and lived a full and fascinating life on her own terms **Catalogue of the Library of the National Gallery of Canada: Mah** National Gallery of Canada.
