Preedy, Lan-Anh Le, Vinood B. American Diet Revolution! Josef Arnould,2018-11-27 A nutrition expert examines why Americans have been eating poorly and offers easy money saving ways to eat better healthier more nutritious foods Obesity diabetes dementia and related epidemics plaguing Americans today are primarily the result of deceptive dietary advice that began in the 1950s By following that advice faithfully throughout the last half of the twentieth century most Americans became helpless victims of these diseases Now in American Diet Revolution Dr Josef Arnould reveals how Americans can throw off the chains of that 1950s dietary advice overcome these epidemics and regain the personal freedom of good health He conveys why Americans must eliminate the fattening inflaming toxic industrial foodstuffs that have dominated their diets for decades and how they can easily do so Additionally American Diet Revolution shares simple and economical strategies to purchase and prepare nutritious foods to replace the toxic ones of the past Then in an empowering finale Dr Arnould takes the genre of dietary advice to a new place and demonstrates that by rejecting the deceitful dietary advice of yesteryear Americans are inciting a second American Revolution In the process of creating new diets and new food economics based upon honest nutritional research Americans are revolting peacefully but powerfully against all individuals and organizations that previously maximized their power and profits by colonizing Americans with toxic information toxic foods and toxic drugs
