Nutrition and Behavior, 2nd Edition John Worobey, Beverly J Tepper, Robin Kanarek, 2015-08-14

The relationship between nutrition and behaviour is bi directional in nature with nutritional factors able to affect activity and disposition and behavior impacting diet and food intake This book reviews these links starting with their complex neurobiological basis such as in the case of folate deficiency and cognitive decline It also illustrates how behaviour may determine nutritional choices or status through peer modelling and poor dietary habits Micronutrients and eating disorders are then critically addressed with a review of current research methods and results before extra nutritional influencers on behaviour such as caffeine herbal supplements and alcohol are discussed in the final section

Carbon and Nitrogen Cycling in European Forest Ecosystems Ernst-Detlef Schulze, 2013-12-01

The storage of carbon in forest ecosystems has received special attention in the Kyoto protocol of the Climate Convention which attempts to equilibrate fossil fuel emissions with biological sinks This volume quantifies carbon storage in managed forest ecosystems not only in biomass but also in all soil compartments It investigates the interaction between the carbon and nitrogen cycles by working along a north south transect through Europe which starts in northern Sweden passes through a N deposition maximum in central Europe and ends in Italy Surprisingly C storage in soils increases with N deposition in addition not young reforestations but old growth forests have the highest rate of carbon sequestration For the first time biogeochemical processes are linked to biodiversity on a large geographic scale and with special focus on soil organisms The enclosed CD ROM provides a complete database of all flux storage and species observations for modellers
