Picturing Men And Women In The Dutch Golden Age:

Picturing Men and Women in the Dutch Golden Age Muizelaar Klaske, Klaske Muizelaar, Derek L. Phillips, 2003-01-01 Taking as their premiss the subjective experience of art the authors look at how paintings by Rembrandt Vermeer other masters were displayed comprehended in the 17th century *Art and Social Change* Klare Scarborough, Susan Dixon, 2015-10 The scholarly essays in this book focus on the theme of art and social change in Western art from the Renaissance to about 1950 The edited volume includes contributions by scholars with a range of professional backgrounds and affiliations Their essays address some aspect of the theme and engage with one or more artworks in the collection of La Salle University Art Museum Topics include religious iconography portraiture landscape journal illustrations and Modernist abstraction These essays on the collection add to the body of scholarship which situates works of art in contexts that help reveal and explain changes in social political or cultural values The book is lavishly illustrated with 104 color illustrations

Crowning Glories Harriet Stone, 2019-01-01 *Crowning Glories* integrates Louis XIV s propaganda campaigns the transmission of Northern art into France and the rise of empiricism in the eighteenth century three historical touchstones to examine what it would have meant for France s elite to experience the arts in France simultaneously with Netherlandish realist painting In an expansive study of cultural life under the Sun King Harriet Stone considers the monarchy s elaborate palace decors the court s official records and the classical theatre alongside Northern images of daily life in private homes urban markets and country fields Stone argues that Netherlandish art assumes an unobtrusive yet for the history of ideas surprisingly dramatic role within the flourishing of the arts both visual and textual in France during Louis XIV s reign Netherlandish realist art represented thinking about knowledge that challenged the monarchy s hold on the French imagination and its efforts to impose the king s portrait as an ideal and proof of his authority As objects appreciated for their aesthetic and market value Northern realist paintings assumed an uncontroversial place in French royal and elite collections Flemish and Dutch still lifes genre paintings and cityscapes however were not merely accoutrements of power acquisitions made by those with influence and money *Crowning Glories* reveals how the empirical orientation of Netherlandish realism exposed French court society to a radically different mode of thought one that would gain full expression in the *Encyclopédie* of Diderot and d Alembert *Architectural Involutions* Mimi Yiu, 2015-11-15 Winner of the MLA Prize for Independent Scholars Taking the reader on an inward journey from fa ades to closets from physical to psychic space *Architectural Involutions* offers an alternative genealogy of theater by revealing how innovations in architectural writing and practice transformed an early modern sense of interiority The book launches from a matrix of related platforms a term that in early modern usage denoted scaffolds stages and draftsmen s sketches to situate Alberti Shakespeare Jonson and others within a landscape of spatial and visual change As the English house underwent a process of inward folding replacing a logic of central assembly with one of dissemination the subject who negotiated this new scenography became a flashpoint of conflict

in both domestic and theatrical arenas Combining theory with archival findings Mimi Yiu reveals an emergent desire to perform subjectivity to unfold an interior face to an admiring public Highly praised for its lucid writing comprehensive supplementary material and engaging tone Architectural Involutions was the winner of the 2016 MLA Prize for Independent Scholars *Tables of Knowledge* Harriet Amy Stone, 2006 *Tables of Knowledge* shows that Dutch genre paintings and still lifes enact in visual form a process of recording information similar to that of science with intriguing results Stone investigates such diverse topics as seventeenth century advances in optics and the attendant explosion of data about the natural world the proliferation of material goods in prosperous Dutch homes and the compelling realism of Golden Age paintings Jacket *Well-Being in Amsterdam's Golden Age* Derek Phillips, 2025-10-01 As human beings we have an innate disposition to care about our well being We all care about staying alive as well as about avoiding disease physical pain bodily harm disability and assaults on our dignity Adequate nourishment water shelter security satisfying work autonomy relationships with others and self esteem are essential to human life and functioning This illuminating study compares well being across civic status economic standing and gender during Amsterdam's Golden Age Utilising a multidisciplinary perspective the author identifies the mechanisms linking people's positions in these three systems of inequality to the wellness of their being showing how the socioeconomic and gender hierarchies affected their well being across the lifespan
