the genre and the prevailing metanarratives of the southern experience one focused on pleasure and the other rooted in pain Through an analysis of commercially published southern cookbooks from the 1990s to the present Tippen examines the range of rhetorical purposes and strategies writers have employed some of which undermine the reality of a painful past and cause harm or violence and others which serve as tools for truth and reconciliation

Inventing Authenticity Carrie Helms Tippen, 2018-08-12 In *Inventing Authenticity* Carrie Helms Tippen examines the rhetorical power of storytelling in cookbooks to fortify notions of southernness. Tippen brings to the table her ongoing hunt for recipe cards and evaluates a wealth of cookbooks with titles like *Y'all Come Over and Bless Your Heart* and famous cookbooks such as Sean Brock's *Heritage* and Edward Lee's *Smoke and Pickles*. She examines her own southern history, grounding it all in a thorough understanding of the relevant literature. The result is a deft and entertaining dive into the territory of southern cuisine: black-eyed peas and cornbread, fried chicken and fried okra, pound cake and peach cobbler, and a look at and beyond southern food tropes that reveals much about tradition, identity, and the yearning for authenticity. Tippen discusses the act of cooking as a way to perform and therefore reinforce the identity associated with a recipe and the complexities inherent in attempts to portray the foodways of a region marked by a sometimes distasteful history. *Inventing Authenticity* meets this challenge head-on, delving into problems of cultural appropriation and representations of race, thorny questions about authorship, and more. The commonplace but deceptively complex southern cookbook can sustain our sense of where we come from and who we are or who we think we are.

A Place-Based Perspective of Food in Society Kevin M. Fitzpatrick, Don Willis, 2015-08-18 This book provides an outstanding collection of interdisciplinary and international essays examining the food-place relationship. Southern Cookbook* tells the story of the brothers' culinary coming of age in Charleston, how they triumphed over their northern roots, and learned to cook southern without a southern grandmother. Here are recipes for classics like Fried Chicken, Crab Cakes, and Pecan Pie, as well as little-known preparations such as St. Cecilia Punch, Pickled Peaches, and Shrimp Burgers. Others bear the hallmark of the brothers' resourceful cooking style: simple, sophisticated dishes like Blackened Potato Salad, Saigon Hoppin' John, and Buttermilk Sweet Potato Pie that usher southern cooking into the twenty-first century without losing sight of its roots. With helpful sourcing and substitution tips, this is a practical and personal guide that will have readers cooking southern tonight wherever they live.

Ecocriticism and the Future of Southern Studies Zackary Vernon, 2019-08-14 As the planet faces ever-worsening disruptions to global ecosystems—carbon and chemical emissions, depletions of the ozone layer, the loss of biodiversity, rising sea levels, air toxification, and worsening floods and droughts—scholars across academia

must examine the cultural effects of this increasingly postnatural world That task proves especially vital for southern studies given how often the U S South serves as a site for large scale damming initiatives like the TVA disasters on the scale of Hurricane Katrina and the Deepwater Horizon spill and the extraction of coal oil and natural gas Ecocriticism and the Future of Southern Studies is the first book length collection of scholarship that applies interdisciplinary environmental humanities research to cultural analyses of the U S South Sixteen essays examine novels nature writing films television and music that address a broad range of ecological topics related to the region including climate change manmade and natural environments the petroleum industry food cultures waterways natural and human induced disasters waste management and the Anthropocene Edited by Zackary Vernon this volume demonstrates how the greening of southern studies in tandem with the southernization of environmental studies can catalyze alternative ways of understanding the connections between regional and global cultures and landscapes By addressing ecological issues central to life throughout the South Ecocriticism and the Future of Southern Studies considers the confluence between region and environment while also illustrating the growing need to see environmental issues as matters of social justice

Ruin and Resilience Daniel Spoth,Scott

Romine,2023-04-05 In *Ruin and Resilience* Daniel Spoth confronts why the environmental stories told about the U S South curve inevitably toward distressing plotlines Examining more than a dozen works of postbellum literature and cinema Spoth's analysis winds from John Muir's walking journey across the war torn South through the troubling of southern environmentalism's modernity by Faulkner and Hurston past the accounts of its acceleration in Welty and O'Connor and finally into the present uncovering how the tragic econarrative is transformed by contemporary food studies climate fiction and speculative tales inspired by the region Phrased as a reaction to the rising temperatures and swelling sea levels in the South *Ruin and Resilience* conceptualizes an environmental ecocritical ethos for the southern United States that takes account of its fundamentally vulnerable status and navigates the space between its reactionary politics and its ecological failures
