just one of those things Examining a large selection of fascinating narratives this book reviews the disappearing object phenomenon DOP from a scientific standpoint Both skeptical and supportive perspectives on DOP are considered leading to the conclusion that disappearing appearing and reappearing objects are indicators of a controversial take on the nature of reality

how play the humanities and the arts enable children to explore how it is to be human and to become more humane broadening horizons and helping challenge preconceptions and stereotypes This radical inclusive and culturally sensitive vision for an international audience challenges many current assumptions about identity culture childhood and education
