Real World Macro Ed Breslow 17th Ed:

Law and Poverty Frank Munger, 2017-11-28 Socio legal research on the legal experiences of the poor reflects an understanding of the close connection between economic inequality and law The first two parts of this volume illustrate general analytical approaches to law and poverty The remaining parts include essays which examine more specific issues such as race and gender access to law legal consciousness and social change Research on the relationships between poverty inequality and governance still leaves many questions unanswered but the work presented here reflects the important contribution that sociolegal research makes to the ongoing debate

The Subject of Care Eva Feder Kittay, Ellen K. Feder, 2003-10-01 All people spend a considerable portion of their lives either as dependents or the caretakers of dependents The fact of human dependency a function of youth severe illness disability or frail old age marks our lives not only as those who are cared for but as those who engage in the work of caring In spite of the time energy and resources material and emotional social and individual that dependency care requires these concerns rarely enter into philosophical legal and political discussions In The Subject of Care feminist scholars consider how acknowledgement of the fact of dependency changes our conceptions of law political theory and morality as well as our very conceptions of self Contributors develop feminist understandings of dependency reassessing the place dependency occupies in our lives and in a just social order
