Christian Ethics and Commonsense Morality Kevin Jung, 2014-11-27 *Christian Ethics and Commonsense Morality* goes against the grain of various postmodern approaches to morality in contemporary religious ethics. In this book, Jung seeks to provide a new framework in which the nature of common Christian moral beliefs and practices can be given a new meaning. He suggests that once major philosophical assumptions behind postmodern theories of morality are called into question, we may look at Christian morality in quite a different light. On his account, Christian morality is a historical morality insofar as it is rooted in the rich historical traditions of the Christian church. Yet this kind of historical dependence does not entail the evidential dependence of all moral beliefs on historical traditions. It is possible to argue for the epistemic autonomy of moral beliefs according to which Christian and other moral beliefs can be justified independently of their historical sources. The particularity of Christian morality lies not in its particular historical sources that also function as the grounds of justification, but rather in its explanatory and motivational capacity to further articulate the kind of moral knowledge that is readily available to most human beings and to enable people to act upon their moral knowledge.

The Cambridge Companion to Wittgenstein Hans D. Sluga, David G. Stern, 1996-10-28 The essays in this volume address central themes in Wittgenstein's writings on the philosophy of mind, language, logic, and mathematics.

Responsibility and Christian Ethics William Schweiker, 1999-03-11 Schweiker develops a powerful new theory of responsibility articulated in terms of Christian faith.

provides the philosophical knowledge to render such reflection more rigorous This original inspiring and entertaining book sheds valuable new light on a notably complex and challenging area of thought

Morality and Moral Theory Robert B. Louden, 1992-05-28 Contemporary philosophers have grown increasingly skeptical toward both morality and moral theory Some argue that moral theory is a radically misguided enterprise that does not illuminate moral practice while others simply deny the value of morality in human life In this important new book Louden responds to the arguments of both anti morality and anti theory skeptics In Part One he develops and defends an alternative conception of morality which he argues captures more of the central features of both Aristotelian and Kantian ethics than do other contemporary models and enables the central importance of morality to be convincingly reaffirmed In Louden's model morality is primarily a matter of what one does to oneself rather than what one does or does not do to others This model eliminates the gulf that many anti morality

critics say exists between morality's demands and the personal point of view. Louden further argues that morality's primary focus should be on agents and their lives rather than on right actions and that it is always better to be morally better i.e. it is impossible to be too moral. Part Two presents Louden's alternative conception of moral theory. Here again he draws on the work of Aristotle and Kant showing that their moral theories have far more in common than is usually thought and that those features that they share can be the basis for a viable moral theory that is immune to the standard anti-theory objections. Louden reaffirms the necessity and importance of moral theory in human life and shows that moral theories fulfill a variety of genuine and indispensable human needs.

Donald MacKinnon's Theology Andrew Bowyer, 2019-08-22 Andrew Bowyer presents the first comprehensive examination of Donald MacKinnon's theology in relation to his moral philosophy. He offers an original and creative reading of MacKinnon's methodology and important insights into the key influences and core questions which stood at the heart of his work. Bowyer outlines MacKinnon's contributions to Anglican theology in the aftermath of the Second World War, highlighting the therapeutic nature of his approach in as far as it combined a call for intense self-awareness with a commitment to moral realism. As one of the most influential Anglican theologians in the mid-twentieth century, MacKinnon's writings reveal him as a restive and unsystematic thinker. However, Bowyer argues that a series of reoccurring questions/obsessions might better honour the memory of MacKinnon's temperament: appear throughout his work relating to the tensions between the realism and idealism, the call to be morally serious, the nature of theological truth claims and the perennially disruptive presence of Christ. Bowyer examines the key influences on MacKinnon's thought, the centrality of Christology to his project, his engagement with literature and literary criticism as well as his response to Wittgenstein's later philosophy. This volume offers an appreciation of his contribution and a critique of his legacy.

Contemporary Metaethics Alexander Miller, 2014-02-27 This new edition of Alexander Miller's highly readable introduction to contemporary metaethics provides a critical overview of the main arguments and themes in twentieth and twenty-first century contemporary metaethics. Miller traces the development of contemporary debates in metaethics from their beginnings in the work of G.E. Moore up to the most recent arguments between naturalism and non-naturalism, cognitivism and non-cognitivism. From Moore's attack on ethical naturalism, A.J. Ayer's emotivism and Simon Blackburn's quasi-realism to anti-realist and best opinion accounts of moral truth and the non-reductionist naturalism of the Cornell realists, this book addresses all the key theories and ideas in this field. As well as revisiting the whole terrain with revised and updated guides to further reading, Miller also introduces major new sections on the revolutionary fictionalism of Richard Joyce and the hermeneutic fictionalism of Mark Kalderon. The new edition will continue to be essential reading for students, teachers and professional philosophers with an interest in contemporary metaethics.
