

The image is a composite. The top half shows a city skyline, likely New York City, with various skyscrapers silhouetted against a dramatic, orange and yellow sunset sky. The bottom half shows a large number of dark, vertical wooden posts or pilings sticking out of a body of water, possibly a harbor or bay. The posts are arranged in rows, receding into the distance. The water is calm, reflecting the light from the sky.

In reality, God alone exists as

Beyond the Control of God? Paul Gould,2014-03-27 The question of God's relationship to abstract objects touches on a number of perennial concerns related to the nature of God God is typically thought to be an independent and self-sufficient being Further God is typically thought to be supremely sovereign such that all reality distinct from God is dependent on God's creative and sustaining activity However the view that there are abstract objects seems to be a repudiation of this traditional understanding of God Abstract objects are typically thought to exist necessarily and it is natural to think that if something exists necessarily it does so because it is its nature to exist Thus abstract objects exist independently of God Philosophers have called this the problem of God and abstract objects In this book six contemporary solutions to the problem are set out and defended against objections It will be valuable for all students or scholars who are interested in the concept and nature of God      *Ethics* Victoria J. most original Dutch Reformed theologians of the twentieth century Through the term re creation Dutch herschepping he offers a radical affirmation of God s sustained loyalty to that which is material bodily and earthly God s work of salvation and of consummation is necessary but then for the sake of creation The path that he followed was diametrically opposed to that of Karl Barth and is also distinct from that of Jurgen Moltmann who was influenced by Van Ruler As an early exponent of Christian ecotheology Van Ruler s oeuvre provides exceptionally rich resources for contemporary debates This volume offers an English translation of selected essays by Van Ruler on the themes of God creation providence humanity sin this earthly life and animal protection It includes some famous essays for example on God and chaos the sunny side of sin joy as the fundamental Christian attitude to life and this earthly life The selection is based on volume 3 of the Dutch scholarly edition of Van Ruler s Collected Works published in 11 volumes Few of Van Ruler s texts are available in English so this volume provides a welcome addition
