Reappraisals In Overseas History:

Reappraisals in Overseas History, 1979 **Reappraisals in Overseas History** P.C. Emmer, H.L.

Wesseling, 1979-12-14 **Reappraising the History of the Jews in the Netherlands** Hans Blom, David J. Wertheim, Hetty Berg, Bart T. Wallet, 2021-09-15 The two decades since the last authoritative general history of Dutch Jews was published have seen such substantial developments in historical understanding that new assessment has become an imperative This volume offers an indispensable survey from a contemporary viewpoint that reflects the new preoccupations of European historiography and allows the history of Dutch Jewry to be more integrated with that of other European Jewish histories Historians from both older and newer generations shed significant light on all eras providing fresh detail that reflects changed emphases and perspectives In addition to such traditional subjects as the Jewish community's relationship with the wider society and its internal structure its leaders and its international affiliations new topics explored include the socio-economic aspects of Dutch Jewish life seen in the context of the integration of minorities more widely a reassessment of the Holocaust years and consideration of the place of Holocaust memorialization in community life and the impact of multiculturalist currents on Jews and Jewish politics Memory studies diaspora studies postcolonial studies and digital humanities all play their part in providing the fullest possible picture This wide ranging scholarship is complemented by a generous plate section with eighty fully captioned colour illustrations Translated by David McKay *The Case for Reappraisal of U.S. Overseas Information Policies and Programs* Edward L. Bernays, Burnet Hershey, 1970 Based on papers delivered at a one day conference under the auspices of the Emergency Committee for Reappraisal of U S Overseas Information Policies and Programs and the Overseas Press Club Foundation [State and Diplomacy in Early Modern Japan](#) Ronald P. Toby, 1991 This book seeks to describe how Japan manipulated existing diplomatic channels to ensure national security Rather far from aiming at seclusion Japan's diplomacy in the seventeenth century was orchestrated to achieve certain objectives both outside the country and inside it The aim was to build Japan into an autonomous center of its own Since the country was closed elaborate and expensive foreign embassies were obliged to make the journey to Edo Countries which were perceived as potential threats such as Portugal and Spain were excluded from this process Only those such as the Chinese and the Dutch with whom trade was recognized as desirable were allowed a supervised presence in Japan itself Closing the gates to Japan was not the object Rather carefully judging just when they should be open and shut was the aim

[Historiography of Europeans in Africa and Asia, 1450-1800](#) Anthony Disney, 2019-07-25 The first part of this volume deals with the changes and continuities in historical approaches over the last fifty years with three further sections focusing on initial contacts formal presences and informal presences Emphasis has been placed on the major European players in Asia and Africa before 1800 the Portuguese Dutch and English without neglecting the role played by the French Spanish Scandinavians and others **Dutch and Portuguese in Western Africa** Filipa Ribeiro da Silva, 2011-07-27 By looking at

Dutch and Portuguese systems of settlement and trade in Western Africa this book sheds new light on the formation of Dutch and Portuguese imperial frames forms of commercial organisation and their role on the seventeenth century Atlantic

Across Cultural Borders Eckhardt Fuchs, Benedikt Stuchtey, 2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism [The Limited Raj](#) Anand A. Yang, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 **Distant Lands and Diverse Cultures** Glenn J. Ames, Ronald S. Love, 2003-07-30 Utilizing contemporary accounts of India China Siam and the Levant this study provides rich detail about these exotic lands and explores the priorities that shaped and motivated these bold envoys and chroniclers Ames and Love offer a fascinating look at the symbiotic nature of cross cultural interaction between France and the major trading regions of the Indian Ocean basin during the 17th century During this period of intense French interest in the rich trade and cultures of the region Louis XIV and his minister Jean Baptiste Colbert in particular were concerned with encouraging French travelers both clerical and lay to explore and document these lands Among the accounts included here are those of Francois Bernier Jean Baptiste Tavernier and Francois Pyrard Because these accounts reflect as much about the structures and priorities of France as they do about the cultures they describe Ames and Love hope their analysis bridges the gap between studies on early modern France and those on the major Asiatic countries of the same period Their findings challenge the current thinking in the study of early modern France by demonstrating that overseas expansion to Asia was of considerable importance and interest to all segments of French society Specialists in traditional internal French history will find much in this study of European

expansion to complement and supplement their research *The Intra-Asian Trade in Japanese Copper by the Dutch East India Company During the Eighteenth Century* Ryūto Shimada, 2006 In this definitive study of the intra Asian trade in Japanese copper trade by the Dutch East India Company the author argues that the trade in this commodity reaped high profits Despite the huge imports of British copper by the English East India Company during the eighteenth century the Dutch Company successfully continued to sell Japanese copper in South Asia at higher prices Compared to the capital intensive development of British mines in the age of the Industrial Revolution the copper production in Tokugawa Japan was characterized by a labour intensive revolution which also made a big impact on the local economy **The Intra-Asian Trade in Japanese Copper by the Dutch East India Company during the Eighteenth Century** Ryuto Shimada, 2005-12-01 In this definitive study of the intra Asian trade in Japanese copper trade by the Dutch East India Company the author argues that the trade in this commodity reaped high profits Despite the huge imports of British copper by the English East India Company during the eighteenth century the Dutch Company successfully continued to sell Japanese copper in South Asia at higher prices Compared to the capital intensive development of British mines in the age of the Industrial Revolution the copper production in Tokugawa Japan was characterized by a labour intensive revolution which also made a big impact on the local economy **The Leopard, the Lion, and the Cock** Matthew Stanard, 2019-04-15 Thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960 The degree to which the late colonial era affected Europe has been long underappreciated and only recently have European countries started to acknowledge not having come to terms with decolonisation In Belgium the past two decades have witnessed a growing awareness of the controversial episodes in the country's colonial past This volume examines the long term effects and legacies of the colonial era on Belgium after 1960 the year the Congo gained its independence and calls into question memories of the colonial past by focusing on the meaning and place of colonial monuments in public space The book foregrounds the enduring presence of empire in everyday Belgian life in the form of permanent colonial markers in bronze and stone lieux de mémoire of the country's history of overseas expansion By means of photographs and explanations of major pro colonial memorials as well as several obscure ones the book reveals the surprising degree to which Belgium became infused with a colonialist spirit during the colonial era Another key component of the analysis is an account of the varied ways in which both Dutch and French speaking Belgians approached the colonial past after 1960 treating memorials variously as objects of veneration with indifference or as symbols to be attacked or torn down The book provides a thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960 *Nation Work* Timothy Brook, André Schmid, 2010-08-04 As increasing attention is drawn to globalization questions arise about the fate of the nation a political and social unit that for centuries has seemed the common sense way to organize the world In *Nation Work* Timothy Brook and André Schmid draw together eight essays that use historical examples from Asian countries China India Korea and

Japan to enrich our understandings of the origin and growth of nations Asia provides fertile ground for this inquiry the volume argues because in Asia the history of the modern nation has been inseparable from global influences in the form of Western imperialism Yet while the impetus for building a modern national identity may have come from the need to fashion a favorable place in a world system dominated by Western nations those engaged in nationalist enterprises found their particular voices more often in relation to tensions within Asia than in relation to more generic tensions between Asia and the West With topics ranging from public health measures in nineteenth century Japan through textual scholarship of Tamil intellectuals the willful division of Korea s history from China s the development of China s cotton industry and the meaning of postnationalism for Chinese artists the essays reveal the fascinating array of sites at which nation work can take place This will be essential reading for historians and social scientists interested in Asia Timothy Brook is Professor of History Stanford University Andr Schmid is Assistant Professor of East Asian Studies University of Toronto

Historical Dictionary of Morocco Thomas K. Park, Omar Boum, 2006-01-16 The Kingdom of Morocco achieved its independence in 1956 after over 40 years as a French protectorate Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the U S Morocco of the past and present are covered in this second edition of the Historical Dictionary of Morocco A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events Hundreds of cross referenced dictionary entries on former rulers current leaders ancient capitals significant locations influential institutions and crucial aspects of the economy society culture and religion form the core of the book A bibliography of sources is included to promote further more specialized study

China in the Tokugawa World Marius B. Jansen, 1992 This engaging book challenges the traditional notion that Japan was an isolated nation cut off from the outside world in the early modern era This familiar story of seclusion argues master historian Marius B Jansen results from viewing the period solely in terms of Japan s ties with the West at the expense of its relationship with closer Asian neighbors Taking as his focus the port of Nagasaki and its thriving trade with China in the sixteenth through the nineteenth centuries Jansen not only corrects this misperception but offers an important analysis of the impact of the China trade on Japan s cultural economic and political life Creating a vivid portrait of a city that lived on and for foreign trade the author details Nagasaki s pivotal role in importing luxury goods for a growing Japanese market whose elite wanted more of everything that ships from China could bring Silk sugar and ginseng were among the cargoes brought to Nagasaki as well as books that by the late Tokugawa period signaled the dangers of Western expansionism The junks from China brought people as well as goods and the author provides clear evidence of the influence of Chinese expatriates and visitors on Japanese religion law and art Japan s intellectuals prided themselves on their full

participation in the cultural milieu of the continental mainland and for them China represented an ideal land of sages and tranquility But gradually China came to represent instead a metaphor for the other as Japan's quest for a national identity intensified Among the Japanese a new image of their nation was beginning to emerge a Japan superior to Asia in general and to China in particular

Colonization Marc Ferro, 2005-08-19 The first comprehensive synthesis and analysis of colonialism from its origins to the present Using a non Eurocentric approach Ferro compares all the European colonial powers as well as Arab Turk and Japanese colonialism

New Times in Modern Japan Stefan Tanaka, 2009-02-09 New Times in Modern Japan concerns the transformation of time the reckoning of time during Japan's Meiji period specifically from around 1870 to 1900 Time literally changed as the archipelago synchronized with the Western imperialists reckoning of time The solar calendar and clock became standard timekeeping devices and society adapted to the abstractions inherent in modern notions of time This set off a cascade of changes that completely reconfigured how humans interacted with each other and with their environment a process whose analysis carries implications for other non Western societies as well By examining topics ranging from geology ghosts childhood art history and architecture to nature as a whole Stefan Tanaka explores how changing conceptions of time destabilized inherited knowledge and practices and ultimately facilitated the reconfiguration of the archipelago's heterogeneous communities into the liberal capitalist nation state Japan However this revolutionary transformation where in the words of Lewis Mumford the clock not the steam engine is the key mechanism of the industrial age has received little more than a footnote in the history of Japan This book's innovative focus on time not only shifts attention away from debates about the failure or success of modernization toward how individuals interact with the overlay of abstract concepts upon their lives it also illuminates the roles of history as discourse and as practice in this reconfiguration of society In doing so it will influence discussions about modernity well beyond the borders of Japan

The Quest for the Lost Nation Sebastian Conrad, 2010-07-15 Highly praised when published in Germany The Quest for the Lost Nation is a brilliant chronicle of Germany's and Japan's struggles to reclaim a defeated national past Sebastian Conrad compares the ways German and Japanese scholars revised national history after World War II in the shadows of fascism surrender and American occupation Defeat in 1945 marked the death of the national past in both countries yet as Conrad proves historians did not abandon national perspectives during reconstruction Quite the opposite the nation remained hidden at the center of texts as scholars tried to make sense of the past and searched for fragments of the nation they had lost By situating both countries in the Cold War Conrad shows that the focus on the nation can be understood only within a transnational context

Censorship of Historical Thought Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from

Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research
