Reason Rule And Revolt In English Classicism:

Reason, Rule, and Revolt in English Classicism Francis Galloway, 1950 *Formation of English Neo-Classical Thought* James William Johnson, 2015-12-08 This book reexamines some of the prevalent critical assumptions about English Neo Classical thought and literature and tests them by viewing Neo Classicism within its intellectual tradition and its self defined limits Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Dryden's Classical Theory of Literature Edward Pechter, 1975-03-20 Professor Pechter's book attempts to describe the consistent structure of both style and method within which Dryden examines orders and evaluates literary experience This mode permits Dryden to recognise the real differences between French and English drama Virgilian and Ovidian style judgement and fancy to take some of the more familiar from among Dryden's typical conjunctive pairs without either merging their differences into some grand synthesis or transforming them into mutually exclusive antitheses Dryden's is above all a comprehensive theory of literature which aims at responding to a broad range of various literary styles genres faculties and effects Dryden's balance is classical the poise of the golden mean and Professor Pechter endeavours to give fresh life to classical as an epithet often previously applied to Dryden Ranging among writers in ancient Greece and Rome and among Dryden's contemporaries in England and France the author outlines a rich literary tradition within which Dryden's criticism is more easily appreciated and better understood

Studies in Criticism and Aesthetics, 1660-1800 Howard Anderson, John S. Shea, 1967-01-01 *Studies in Criticism and Aesthetics 1660 1800* was first published in 1967 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In this volume nineteen contributors in as many essays discuss various aspects of critical and aesthetic development in the late seventeenth and the eighteenth centuries from the time of Dryden to Wordsworth This was a period in which traditional literary criticism progressed in important new directions and which saw the rise of aesthetic theory The book is published in honor of Samuel Holt Monk professor of English at the University of Minnesota and distinguished American scholar in the field of eighteenth century English literature literary criticism and aesthetics The essays all of which were written for this volume analyze the literary theories and assumptions of some of the most important artists and critics of the time as well as the aesthetic theories which influenced painting and literature During the period under discussion the progress of social and philosophical thought stimulated an intensive examination of the nature and function of art Although neoclassical ideals dominated Restoration criticism and continued to influence Pope and later critics like Johnson and Reynolds other tendencies

were gaining ground and throughout the eighteenth century the effort to reconcile a growing interest in the pleasing emotions with the tenets of classicism created criticism and aesthetic theory of extraordinary complexity These essays illuminate that complexity without oversimplifying it The book is illustrated with reproductions of works of art of the period In addition to the essays there is a bibliography of Professor Monk's writings [The Cambridge Bibliography of English Literature](#) Frederick Wilse Bateson,1940 **Homer's Original Genius** Kirsti Simonsuuri,1979-03-15 The querelle des anciens et des modernes the question whether writers should imitate the classics or use literary forms which seemed more suited to their own era had been debated in Europe since the earliest days of the Renaissance This book analyses the development of the querelle following the adoption of the argument of the modernist faction of seventeenth century France

The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Common Sense in Early 18th-Century British Literature and Culture** Christoph Henke,2014-10-14 While the popular talk of English common sense in the eighteenth century might seem a by product of familiar Enlightenment discourses of rationalism and empiricism this book argues that terms such as common sense or good sense are not simply synonyms of applied reason On the contrary the discourse of common sense is shaped by a defensive impulse against the totalizing intellectual regimes of the Enlightenment and the cultural climate of change they promote in order to contain the unbounded discursive proliferation of modern learning Hence common sense discourse has a vital regulatory function in cultural negotiations of political and intellectual change in eighteenth century Britain against the backdrop of patriotic national self concepts This study discusses early eighteenth century common sense in four broad complexes as to its discursive functions that are ethical which at that time implies aesthetic as well transgressive as a corrective political in patriotic constructs of the nation and repressive of otherness The selection of texts in this study strikes a balance between dominant literary culture Swift Pope Defoe Fielding Johnson and the periphery such as pamphlets and magazine essays satiric poems and patriotic songs [The Aesthetic State](#) Josef Chytrý,2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept

and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytry provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytry takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytry concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytry indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 Studies in Criticism and Aest Howard Anderson, The Literary History of England Donald F. Bond, G. Modern Consumerism Colin Campbell, 2018-06-05 Originally published in 1987 Colin Campbell's classic treatise on the sociology of consumption has become one of the most widely cited texts in sociology anthropology cultural studies and the history of ideas In the thirty years since its publication *The Romantic Ethic and the Spirit of Modern Consumerism* has lost none of its impact If anything the growing commodification of society the increased attention to consumer studies and marketing and the ever proliferating range of purchasable goods and services have made Campbell's rereading of Weber more urgent still As Campbell uncovers how and why a consumer oriented society emerged from a Europe that once embodied Weber's Protestant ethic he delivers a rich theorization of the modern logics and values structuring consumer behavior This new edition featuring an extended Introduction from the author and an Afterword from researcher Karin M Ekström makes clear how this foundational work aligns with contemporary theory in cultural sociology while also serving as major influence on consumer studies

The Image of the Middle Ages in Romantic and Victorian Literature Kevin L. Morris, 2019-06-26 Originally published in 1984 *The Image of the Middle Ages in Romantic and Victorian Literature* looks at the impact of medievalism in the 18th and 19th centuries and the importance of post Enlightenment literary religious medievalism The book suggests that religious medievalism was not a superficial cultural phenomenon and that the romantic spirit with which it was chronologically connected was intimately associated with the metaphysical The book suggests that this belief gave birth to the metaphysical yearning and cultural expression of the eighteenth and nineteenth century The book seeks to clarify the post Enlightenment relationship between aesthetic culture and aesthetic religion romanticism medievalism and religious trends

Experience and Faith R.

Brantley, 2016-04-30 Emily Dickinson 1830-86 recasts British Romantic themes of natural and spiritual perception for an American audience Her poems of science and technology reflect her faith in experience Her lyrics about natural history build on this empiricism and develop her commitment to natural religion Her poems of revealed religion constitute her experience of faith Thus Dickinson stands on the experiential common ground between empiricism and evangelicalism in Romantic Anglo America Her double perspective parallels the implicit androgyny of her nineteenth century feminism Her counterintuitive combination of natural models with spiritual metaphors champions immortality The experience faith dialectic of her Late Romantic imagination forms the heart of her legacy

Annual Bibliography of English Language and Literature , The Cultural Milieu of Addison's Literary Criticism Lee Andrew Elioseff, 2014-09-01 The whole history of literary criticism is illuminated by this analysis of one English critic's work It is in effect a literary case study presented as partial answer to the complicated question what cultural conditions are conducive to the development of a particular theory of literature Initially Lee Andrew Elioseff defines four difficult responsibilities of the historian of criticism the interpretation of his material in terms of all the cultural circumstances that produced it elimination of the purely chance elements such as private feuds and unimportant personal tastes consideration of those aspects of criticism that best indicate the dominant critical opinions of the age and the principles that are leading it and illumination of the present critical situation Concentrating upon the first three of these obligations Elioseff seeks the sources of modern literary criticism in the works of Joseph Addison and his contemporaries analyzing with great care and accuracy their responses to problems both literary and nonliterary in their culture From the analysis Addison emerges as a very significant figure a critic who moved from Renaissance and neoclassical humanism and became one of the most important predecessors of romantic criticism a formulator of what was to become the emotive strain in literary criticism an essayist who raised many problems shared by the modern psychological critic whose immediate concern is the effect of the literature upon its audience Drawing abundantly from a wide knowledge of philosophy literature

and history and exercising an incisive critical acumen Elioseff discusses Addison's criticism in three aspects The Critical Milieu an interpretation of Addison's relation to his age as it influenced his views on tragedy epic poetry and ballads Addison and Eighteenth Century England a consideration of contemporary political thought morals and theology and the Empirical Tradition an analysis of Addison's critical views as expressed in The Pleasures of the Imagination
