Healing the Reason-Emotion Split Daniel S. Levine, 2020-12-29 Healing the Reason Emotion Split draws on research from experimental psychology and neuroscience to dispel the myth that reason should be heralded above emotion Arguing that reason and emotion mutually benefit our decision making abilities the book explores the idea that understanding this relationship could have long term advantages for our management of society's biggest problems Levine reviews how reason and emotion operated in historical movements such as the Enlightenment Romanticism and 1960s counterculture to conclude that a successful society would restore human connection and foster compassion in economics and politics by equally utilizing reason and emotion Integrating discussion on classic and contemporary neurological studies and using allegory the book lays out the potential for societal change through compassion and would be of interest to psychologists concerned with social implications of their fields philosophy students social activists and religious leaders The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non

Emotion, Social Theory, and Social Structure J. M. Barbalet, 2001-09-06 Emotion Social Theory and Social Structure takes sociology in a new direction It examines key aspects of social structure by using a fresh understanding of emotions categories Through that synthesis emerge new perspectives on rationality class structure social action conformity basic rights and social change As well as giving an innovative view of social processes J M Barbalet's study also reveals unappreciated aspects of emotions by considering fear resentment vengefulness shame and confidence in the context of social structure While much has been written on the social consequences of excessive or pathological emotions this book demonstrates the centrality of emotions to routine operations of social interaction Dr Barbalet also re evaluates the

nature of social theory for once the importance of emotions to social processes becomes clear the intellectual constitution of sociology and therefore its history must be rethought

Rational Woman Raia Prokhovnik,2012-11-12 To feminists and some postmodernists reason emotion and man woman represent two fundamental polarities fixed deep within Western philosophy and reflected in the structures of our languages and two sets of hierarchical power relations in patriarchal society Raia Prokhovnik challenges the tradition of dualism and argues that rational woman need no longer be a contradiction in terms Prokhovnik examines in turn the nature of dichotomy its problems and an alternative the reason emotion dichotomy dichotomies central to the man woman dualism such as sex gender and the heterosexualist norm

Ethics, Emotion, Education, and Empowerment Lisa Kretz,2020-10-14 Universities teach courses in ethics but do they teach students how to be ethical in practice Lisa Kretz's *Ethics Emotion Education and Empowerment* explores the ways that philosophical ethics are currently taught and argues that dominant approaches fail to adequately support ethical action in part because emotions are all too often ignored or repressed in university classrooms In isolation abstract theoretical content fails to motivate The ability to reason through an ethical dilemma does not by itself of necessity impact ethical action Empowered action requires intentional emotional engagement Kretz argues that part of the reason affective pedagogy fails to get sufficient uptake is due to the operations of oppression There is a long history of the reason emotion dualism undermining recognition of the necessary and valuable epistemic roles emotions play in moral life and serving as a political tactic to undermine the experience of oppressed groups This impoverishes ethical pedagogy because it is to the detriment of their ability to teach ethics in a comprehensive way and strips the potential of supporting students to enact their own reflectively held ethical beliefs and values Using the example of the environmental crisis Kretz makes a case for supporting students as engaged activists aware of their capacity to ethically change the world

Lloyd, 2016 Black Natural Law offers a new way of understanding the African American political tradition Iconoclastically attacking left including James Baldwin and Audre Lorde right including Clarence Thomas and Ben Carson and center Barack Obama Vincent William Lloyd charges that many Black leaders today embrace secular white modes of political engagement abandoning the deep connections between religious philosophical and political ideas that once animated Black politics By telling the stories of Frederick Douglass Anna Julia Cooper W E B Du Bois and Martin Luther King Jr Lloyd shows how appeals to a higher law or God s law have long fueled Black political engagement Such appeals do not seek to implement divine directives on earth rather they pose a challenge to the wisdom of the world and they mobilize communities for collective action Black natural law is deeply democratic while charismatic leaders may provide the occasion for reflection and mobilization all are capable of discerning the higher law using our human capacities for reason and emotion At a time when continuing racial injustice poses a deep moral challenge the most powerful intellectual resources in the struggle for justice have been abandoned Black Natural Law recovers a rich tradition and it examines just how this tradition was forgotten A Black intellectual class emerged that was disconnected from social movement organizing and

beholden to white interests Appeals to higher law became politically impotent overly rational or overly sentimental Recovering the Black natural law tradition provides a powerful resource for confronting police violence mass incarceration and today's gross racial inequities Black Natural Law will change the way we understand natural law a topic central to the Western ethical and political tradition While drawing particularly on African American resources Black Natural Law speaks to all who seek politics animated by justice

Regard for Reason in the Moral Mind Joshua May, 2018-05-04 The burgeoning science of ethics has produced a trend toward pessimism Ordinary moral thought and action we're told are profoundly influenced by arbitrary factors and ultimately driven by unreasoned feelings This book counters the current orthodoxy on its own terms by carefully engaging with the empirical literature The resulting view optimistic rationalism shows the pervasive role played by reason our moral minds and ultimately defuses sweeping debunking arguments in ethics The science does suggest that moral knowledge and virtue don't come easily However despite the heavy influence of automatic and unconscious processes that have been shaped by evolutionary pressures we needn't reject ordinary moral psychology as fundamentally flawed or in need of serious repair Reason can be corrupted in ethics just as in other domains but a special pessimism about morality in particular is unwarranted Moral judgment and motivation are fundamentally rational enterprises not beholden to the passions

In Search of Just Families Chhanda Gupta, 2018-06-06 This book explores two contemporary combative views regarding the search for just families These views arise from the conundrum of the family being seen as a supportive nurturing haven versus a grievously unjust harmful institution that violates the rights and freedoms of any individual family member Triggered by anti family movements which have been inspired by the ideas of some theorists and writers the book addresses the question Is family destined to wither away It challenges the radical idea that the solution to the problem of unjust families is their complete replacement by purportedly just anti familial alternatives Chhanda Gupta advances a distinct reformist and reconciliatory view that the expulsion of either side of the family anti family binary is not the answer She seeks to syncretize the seemingly irreconcilable ideas propagated through that philosophical binary Furthermore she urges that the search for just families must find its answer in clarifying how the term just applies to the characters behaviors and attitudes of people who comprise actual families The search is not for a perfectly just society or polity or even for a perfectly just family Instead it is a search for ways to redress the remediable injustices that occur in families in order to benefit and uplift individuals and families and the societies in which they live

destructive critique Emotion and Social Theory Simon Williams, 2001-02-27 The emotions have traditionally been marginalized in mainstream social theory. This book demonstrates the problems that this has caused and charts the resurgence of emotions in social theory today. Drawing on a wide variety of sources both classical and contemporary, Simon Williams treats the emotions as a universal feature of human life and our embodied relationship to the world. He reflects and comments upon the turn towards the body and intimacy in social theory and explains what is important in current thinking about emotions. In his doing so, readers are provided with a critical assessment of various positions within the field, including the strengths and weaknesses of poststructuralism and postmodernism for examination.
