## **Reason And Religious Faith:**

**Reason and Religious Faith** Terence Penelhum, Emeritus, 2021-06-02 The concerns of philosophy and of religion overlap to a considerable extent each seeks among other things to develop an account of mankind's place in the universe But their relationship has never been an easy one Faith gives rise to philosophical puzzlement just as secular beliefs do but it also generates special philosophical questions that secular beliefs do not This engaging text encourages students and other readers to grapple with these special questions of faith to look at how they relate to other issues in philosophy and in the empirical study of religion Equally accurate and insightful in its treatment of historical authors such as Aquinas and Pascal as it is in treatment of such contemporaries as Plantinga and Alston Reason and Religious Faith is the most up to date and balanced introduction to these issues available It marks an advance over earlier surveys in its recognition of religious pluralism and the relevance of non Christian religious views It is an ideal introduction to the issues of religious epistemology for students of both religious studies and philosophy

**Reason and Religious Belief an Introduction to the Philosophy of Religion** :, 2015 Reason and Religious Belief now in its fifth edition explores perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience faith and reason the divine attributes arguments for and against the existence of God divine action in various forms of theism Reformed epistemology religious language religious diversity and religion and science

type of belief does nothing about religion purchases immunity from this But at the same time religious epistemology must also respect the contours of religion the distinctiveness of the subject matter of religious belief Helm looks sympathetically at two currently prominent ways of defending the rationality of religious belief Reformed epistemology and the cumulative case for theism He argues that the reasonableness of faith depends not only on beliefs about the world but also on beliefs about oneself for instance about what one wants about one's hopes and fears and on what one is willing to trust Helm goes on to look at the relations between belief and trust and between faith and virtue and concludes with an exploration of one particular type of belief about oneself the belief that one is oneself a believer This is a book for anyone interested in the basis of religious faith

*Responses to the Enlightenment* William Sweet, Hendrik Hart, 2012-01-01 Since the time of the Enlightenment in Western Europe discussions of faith and reason have often pitted the believer against the skeptic the theist against the atheist and the person of one faith against the person of no professed faith But the relation of reason to faith has been a matter of debate among believers as well There are those who hold that religious faith can be proven or supported by rational argument Others say that to try to give reasons and arguments does violence to religious faith or opens it to misunderstanding and doubt or trivializes it

*Responses to the Enlightenment An Exchange on Foundations Faith and Community* is a dialogue between Hendrik Hart and William Sweet two philosophers who identify themselves as Christians and who seek to respond to the challenges of the Enlightenment and its legacy The authors approach the relation of faith to reason however in very different ways Hart from the perspective of the Calvinian tradition and postmodern philosophy Sweet from the Catholic tradition and analytic philosophy Among the topics discussed are the nature of religious faith and of reason liberalism and orthodoxy in religion the relation of religious experience and rationality and building community in a religiously and culturally pluralistic world This exchange presents two distinctive perspectives to some of the major challenges of the reason to religious belief but seeks to find common ground between them

**Faith, Rationality and the Passions** Sarah Coakley, 2012-07-20 *Faith Rationality and the Passions* presents a fresh and original examination of the relation of religious faith philosophical rationality and the passions Contributions see leading scholars refute the widely held belief that religious Enlightenment forced passion and reason apart Leading Philosophical experts offer new research on the relation of faith reason and the passions in classic and Enlightenment figures Overturns the widely held presumption that the Enlightenment was responsible for creating a gulf between reason and passion Presents original and innovative research on the importance of the late 19th century creation of the category of emotion and its striking difference from classic ideas of passion Brings together secular science and philosophy of emotion with philosophical theology to seek a new integration of belief emotion and reason
